This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

- (1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.
- (2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

AMERICAN RESCUE PLAN ACT

AMENDMENT 1 — CERTIFICATION OF COMPLIANCE FOR EXPENDITURES USING FEDERAL FUNDS, INCLUDING THE AMERICAN RESCUE PLAN ACT

The Lexington-Fayette Urban County Government (“LFUCG”) may use Federal funding to pay for the goods and/or services that are the subject matter of this bid. That Federal funding may include funds received by LFUCG under the American Rescue Plan Act of 2021. Expenditures using Federal funds require evidence of the contractor’s compliance with Federal law. Therefore, by the signature below of an authorized company representative, you certify that the information below is understood, agreed, and correct. Any misrepresentations may result in the termination of the contract and/or prosecution under applicable Federal and State laws concerning false statements and false claims.

The bidder (hereafter “bidder,” or “contractor”) agrees and understands that in addition to all conditions stated within the attached bid documents, the following conditions will also apply to any Agreement entered between bidder and LFUCG, if LFUCG uses Federal funds, including but not limited to funding received by LFUCG under the American Rescue Plan Act (“ARPA”), toward payment of goods and/or services referenced in this bid. The bidder also agrees and understands that if there is a conflict between the terms included elsewhere in this Request for Proposal and the terms of this Amendment 1, then the terms of Amendment 1 shall control. The bidder further certifies that it can and will comply with these conditions, if this bid is accepted and an Agreement is executed:

1. Any Agreement executed as a result of acceptance of this bid may be governed in accordance with 2 CFR Part 200 and all other applicable Federal law and regulations and guidance issued by the U.S. Department of the Treasury.
2. Pursuant to 24 CFR § 85.43, any Agreement executed as a result of acceptance of this bid can be terminated if the contractor fails to comply with any term of the award. This Agreement may be terminated for convenience in accordance with 24 CFR § 85.44 upon written notice by LFUCG. Either party may terminate this Agreement with thirty (30) days written notice to the other party, in which case the Agreement shall terminate on the thirtieth day. In the event of termination, the contractor shall be entitled to that portion of total compensation due under this Agreement as the services rendered bears to the services required. However, if LFUCG suspects a breach of the terms of the Agreement and/or that the contractor is violating the terms of any applicable law governing the use of Federal funds, LFUCG may suspend the contractor’s ability to receive payment by giving thirty (30) days’ advance written notice. Further, either party may terminate this Agreement for cause shown with thirty (30) days written notice, which shall explain the party’s cause for the termination. If the parties do not reach a settlement before the end of the 30 days, then the Agreement shall terminate on the thirtieth day. In the event of a breach, LFUCG reserves the right to pursue any and all applicable legal, equitable, and/or administrative remedies against the contractor.
3. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:
 - (1) Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and

applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

- (2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.
- (3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.
- (4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- (5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- (6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- (7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part, and the contractor may be declared ineligible for further government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- (8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance.

Provided, however, that in the event a contractor becomes involved in or is threatened with litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

EQUAL OPPORTUNITY AGREEMENT

Standard Title VI Assurance

The Lexington Fayette-Urban County Government, (hereinafter referred to as the "Recipient") hereby agrees that as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation, it will comply with Title VI of the Civil Rights Act of 1964, 78Stat.252, 42 U.S.C. 2000d-4 (hereinafter referred to as the "Act"), and all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, (49 CFR, Part 21) Nondiscrimination in Federally Assisted Program of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964 (hereinafter referred to as the "Regulations") and other pertinent directives, no person in the United States shall, on the grounds of race, color, national origin, sex, age (over 40), religion, sexual orientation, gender identity, veteran status, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Recipient receives Federal financial assistance from the U.S. Department of Transportation, including the Federal Highway Administration, and hereby gives assurance that will promptly take any necessary measures to effectuate this agreement. This assurance is required by subsection 21.7(a) (1) of the Regulations.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

REQUEST FOR PROPOSAL GREENHOUSE GAS EMISSIONS INVENTORY, TARGETS, AND REDUCTION PLAN

SECTION 1 SPECIFICATIONS

1. PROJECT DESCRIPTION

The Lexington-Fayette Urban County Government (LFUCG) is seeking proposals from professional consultants to complete the following activities:

- Develop a community-wide greenhouse gas emissions inventory “GHG inventory;”
- Develop a greenhouse gas emissions inventory for LFUCG facilities and operations; and
- Develop a plan and recommend GHG reduction targets (goals) for 2030 and 2050 which align with US targets.

LFUCG prefers to select one consultant to implement all activities. The community-wide and LFUCG GHG inventories and reduction targets should meet the Intergovernmental Panel on Climate Change (IPCC) requirements, and propose data-driven actions and strategies to achieve GHG reductions.

The core purpose of this project is to update the GHG inventory, mitigate Lexington-Fayette County’s contributions to the effects of climate change, and set community-wide greenhouse gas reduction goals.

Background

In 1972, the City of Lexington and Fayette County governments merged to form the Lexington-Fayette Urban County Government (LFUCG). Lexington is the second-largest city in Kentucky and is known as the "Horse Capital of the World." Lexington was the first city in the United States to create an Urban Services Boundary (USB), allowing us to clearly define our limits of growth. The USB’s creation has spurred the development of a vibrant downtown, along with neighborhoods that surround the inner core, while maintaining our tree-lined rural roads, equine farms, agriculture and livestock farms, palisades, stone fences, and countless other physical and social elements, which contribute to make our Bluegrass Region unlike any other.

Notable locations in the city include the Kentucky Horse Park, The Red Mile and Keeneland race courses, Rupp Arena, Central Bank Center, the University of Kentucky, Transylvania University, and Bluegrass Community and Technical College.

As of the 2021 census, Lexington’s population was 321,793. Lexington is consolidated entirely within Fayette County, and vice versa. It has a nonpartisan mayor-council form of government, with 12 council districts and three members elected at large, with the highest vote-getter designated vice mayor.

In 2007, Lexington used Clean Air and Climate Protection (CACP) software to calculate a community-wide GHG Emissions Inventory for Lexington-Fayette County. At the time, this was the most commonly used software protocol for calculating community fossil fuel emissions in the United States. CACP software calculates both Scope 1 (direct) emissions and Scope 2 (indirect)

emissions. The inventory was conducted for calendar years 2011, 2012, 2013, and 2014, although not quantified in 2014.

The Empower Lexington Plan, Lexington’s de facto Sustainability Plan, was developed by community stakeholders, including business, non-profit, institutional, agricultural, and governmental representatives. The plan summarized available information from five (5) sectors critical to reducing energy consumption for Lexington and provided recommendations. The Empower Lexington Plan was finalized in 2012 and supported by the Urban County Council on May 10, 2012 (Resolution #220-2012).¹

3. SCOPE OF SERVICES - Major Activities

3.1 GHG Inventory

Perform a community-wide and a LFUCG greenhouse gas inventory using 2021 as the reporting year. These inventories will include GHG emissions from sources located within Lexington and Fayette County (“Scope 1” emissions), GHG emissions resulting from the use of grid-supplied energy within Lexington-Fayette County (“Scope 2”), specific GHG emissions that occur outside Lexington-Fayette County as a result of activity within the Lexington-Fayette County boundary (“Scope 3”), and Arc performance scoring.

The inventories must comply with the methodology and reporting template prescribed by the Global Protocol for Community-Scale Greenhouse Gas Emissions (GPC).² Please refer to the GPC reference document available online (see footnote below) for definitions, requirements, and technical details. RFP Respondents should develop a proposal that addresses the requirements of the GPC’s BASIC and BASIC PLUS (+) levels of GHG emissions accounting. RFP responses should provide separate costs and staffing for meeting each reporting level.

3.1.1 *Deliverables* - Deliverable for the community-wide and LFUCG GHG emissions inventories portion of the project include:

- 1.) Complete GHG emission calculations that satisfy GPC reporting requirements;

¹ [Empower Lexington: A Plan For a Resilient Community \(2012\)](#)

² [Global Protocol for Community-Scale Greenhouse Gas Emissions](#)

- 2.) Arc performance scoring;
- 3.) A narrative report, suitable for publication as determined by LFUCG, that describes key findings and includes relevant charts, tables, and other depictions of 2021 community-wide GHG emissions, forecasts, and trend analysis;
- 4.) An analysis of relevant trends that may have impacted GHG emissions between 2011 and 2021;
- 5.) A two-page fact sheet containing the key results of the GHG inventories that is suitable for publication as determined by LFUCG’s Sustainability Program Manager Senior;
- 6.) All supporting documents, data, and calculations gathered or created in the course of this effort;
- 7.) A detailed summary of steps followed such that the same methods can be used to update the GHG inventory going forward.

In addition to an in-person project kickoff meeting, the Consultant will facilitate at least one in-person progress update with LFUCG’s Sustainability Program Manager Senior, as well as a concluding in-person meeting to present the final GHG inventory analysis and deliverables. Additional project check-ins may be scheduled with individuals as needed. These additional meetings may occur in-person, remotely, by conference call and/or webinar.

The Consultant will be expected to provide overall project management, quality control/quality assurance, data organization, GHG emissions calculations, analysis of GHG inventory results, and final report, with oversight, guidance, and input from LFUCG’s Sustainability Program Manager Senior and LFUCG’s partners.

The Consultant will provide written assurance and/or certification that the 2021 GHG emission inventories are compliant with GPC BASIC or the BASIC PLUS (+) measurement methodologies.

All final deliverables should be produced in electronic (both editable and PDF) formats, and in hard-copy format, if requested. All final deliverables should clearly define all data inputs and outputs, and deliverables should be developed so as to facilitate future GHG emission measurement and reporting, and include all raw input and output data. For example, data collection worksheets and calculation tools, documents, and/or spreadsheets should be designed and shared so that future inventories can be completed using the same worksheets, calculations, tools, documents, and spreadsheets. All public-facing documents should be formatted and branded in a manner that is consistent with current LFUCG style guidelines.

3.1.2 *Tasks* - Key Consultant tasks for the GHG inventory portion of this project include:

	Task Description
	Define methodology and develop project work plan - Develop a comprehensive plan to manage and deliver the project; schedule and prepare materials for meetings with the Sustainability Program Manager Senior; confirm GPC BASIC requirements and reporting protocols (and BASIC PLUS (+) requirements, if applicable); confirm emissions categories and activities for tracking and analysis (including Scope 1, 2, & 3 emissions); and obtain relevant background documents. (Section 3.2)
	Review relevant local, regional, national, and global comparison - Identify data requirements to enable meaningful multi-year trend analysis and comparisons between Lexington and Fayette County GHG emissions and those of other relevant

	local, regional, national, and international jurisdictions. Obtain relevant benchmarks against which to compare Lexington and Fayette County GHG emissions.
	Identify data requirements and develop data requests - Identify data requirements, data sources, and contact information; develop data requests; and establish deadlines for provision of any outstanding data.
	Collect data inputs for 2021 inventory and trend analysis - Collect GHG emissions activity data and other inputs needed for inventory calculations, analysis, and presentation of results (including emission factors).
	Calculate and analyze community-wide and LFUCG 2021 GHG emissions, multi-year trends, forecasts, and relevant comparisons - Complete all GHG emissions calculation steps for the community-wide and LFUCG inventories; analyze all GHG inventory results, including aggregate, per capita, Gross Domestic Product (GDP)-related analysis and analysis of sector-level drivers resulting in significant changes in GHG emissions; develop forecasts of emissions in 2025, 2030, and 2050.
	Document trends impacting emissions up to 2021 - Produce a report documenting analysis of relevant trends by reviewing previous emissions inventories compared to 2021. Analysis should include aggregate, sector, per-capita, and per-GDP trends, as well as other analyses that will help to isolate individual factors that contribute to changes in GHG emissions over time. This should also include a sector-specific analysis of how changes over time in data availability, data sources, emissions factors, and methodology may impact apparent GHG emissions trends. A succinct version of this information should be included in the final report.
	Ensure data quality and control - Conduct and document steps to ensure quality control and quality assurance (including comparison with GHG data from relevant benchmarks).
	Prepare and present final report and other deliverables (including tools and process to enable future GHG inventories) - Produce an executive summary, final report, one page front and back fact sheet, underlying data and calculations, quality control and quality assurance documentation, data sources, and data source contact information; certify the 2021 GHG Inventory's compliance with GPC-BASIC requirements (and BASIC PLUS (+) requirements, if applicable); and document tools, processes, and recommendations for future GHG emissions inventories.

3.1.3 *Project Specifics* - The inventory must comply with the methodology and reporting template prescribed by the GPC. Additional specifications are described below.

3.1.3.1 Types of GHGs to be Measured: To the extent possible based on available data, the 2021 Lexington and Fayette County GHG inventory shall include emissions of carbon dioxide (CO₂), methane (CH₄), and nitrous oxide (N₂O). Hydrofluorocarbons (HFCs), perfluorinated chemicals (PFCs), sulphur hexafluoride (SF₆), and nitrogen trifluoride (NF₃) are optional. All emissions shall be reported by individual chemicals as well as by carbon dioxide equivalent (CO₂e), in keeping with GPC measurement protocols and the best available global warming potential factors for each GHG.

3.1.3.2 Types of GHG Emission Sources to be Measured: At minimum, the 2021 community-wide and LFUCG GHG emissions inventories must meet all requirements of the GPC BASIC reporting level. GPC BASIC PLUS (+) reporting requirements will be considered if funds are available.

- GPC BASIC - The BASIC level GHG emissions inventory includes: Scope 1 emissions from stationary energy sources, transportation sources, and in-boundary generated waste; and Scope 2 emissions from stationary energy sources and transportation.
- GPC BASIC PLUS (+) - The BASIC PLUS (+) level GHG emissions inventory includes: GHG emissions from all BASIC sources; Scope 1 emissions from industrial processes and product use (IPPU) and agriculture, forestry, and other land use (AFOLU); and Scope 3 emissions from stationary energy sources (transmission and distribution losses) and transportation.

Transportation-related GHG emissions should be broken down by transportation modes, including on-road, rail, waterborne navigation, aviation, and off-road vehicles. To the greatest extent possible, emissions should also be broken down by passenger and freight transportation. Emissions should be calculated on a per mile basis for each mode of transportation, and (where applicable) per mile for each vehicle type.

To the greatest extent possible, GHG emissions of stationary energy consumption in buildings should be broken down by different building use types, including commercial, multifamily, institutional, municipal, industrial, single-family residential, and other relevant building uses.

- 3.1.3.3 GHG Emission Factors: The 2021 community-wide and LFUCG GHG emissions inventory should be based on the best available GHG emission factors for all sources of emissions, at a level of specificity that appropriately reflects Lexington and Fayette County’s conditions and meets GPC reporting guidelines.
- 3.1.3.4 Trends and Benchmarks: The community-wide and LFUCG GHG emissions should be compared with comparable city, regional, national, and international GHG emissions data and other relevant benchmarks.
- 3.1.3.5 “Business as Usual” Forecasts: The community-wide GHG emissions inventories should include “business-as-usual” scenario forecasts for 2025, 2030, and 2050 (i.e., GHG emissions likely to occur in Lexington and Fayette County if no action was taken). These “business-as-usual” forecasts should be based on relevant forecasting data for population growth, transportation growth, and other available forecasts. Alternate forecast years based on benchmarked inventories may be proposed during the contract negotiation phase.
- 3.1.3.6 Data Collection: The Consultant will gather data used in the emissions inventories from public and other sources of information, with emphasis on integrity and transparency in collection, and collect the data from multiple stakeholders to minimize individual stakeholder reporting responsibilities. The LFUCG Sustainability Program Manager Senior will be available to facilitate data collection where necessary.
- 3.1.3.7 Final Report, Supporting Data, GPC Reporting Tool, and Certification of GPC Compliance:
- The Consultant will provide draft reports for review by the LFUCG Program Manager Senior for Sustainability.
 - The Consultant will be provided the updated 2023 Empower Lexington Plan draft in June for the consultant’s review of recommendations and strategies.

- Lexington and Fayette County residents will be given the opportunity to submit comments on the updated 2023 Empower Lexington Plan draft plan. Those comments will be provided to the consultant for review in July.
- The Consultant shall incorporate comments on the first draft into a second draft of the report. The second draft of the report shall be suitable for publication, and should contain supporting data, documentation of all methodology and assumptions, data sources and contact information, and technical details.
- The Program Manager Senior for Sustainability will circulate the second draft with LFUCG leadership for comments and review. The Program Manager Senior for Sustainability will provide additional edits as needed on the second draft to ensure the document’s suitability for publication. The Consultant shall incorporate these edits and provide a final draft for review by the LFUCG Program Manager Senior for Sustainability. Upon acceptance by the Program Manager Senior for Sustainability, the document will be considered final and released to the public.
- The Consultant will provide a signed document certifying compliance with the GPC.

3.2 GHG Emissions Reduction Targets

Propose achievable GHG reduction targets which align with US targets.³

3.2.1 *Deliverables* - The Consultant will provide a document recommending quantitative GHG reduction targets based on an analysis of existing trends and constraints. The document should include a thorough explanation of how each target could be met based on these trends and constraints. The targets should be aspirational yet achievable, and should include intermediate milestones. The document should also include a summary of targets adopted in benchmark and other cities.

- The Program Manager Senior for Sustainability will submit the draft version of the updated 2023 Empower Lexington Plan in June for the consultant’s review of recommendations and strategies.
- The Program Manager Senior for Sustainability will forward public input from the draft version of the updated 2023 Empower Lexington Plan in July for the consultant’s review and consideration for final target reduction planning.

3.2.2 *Tasks* - Key Consultant tasks for the GHG reduction target portion of this project include:

	Task Description
	Analyze existing trends and constraints – Review results of the 2021 GHG emissions inventories; review federal, state and local policies that would impact the adoption of GHG reduction targets; identify state and local lobbying and activist organizations that may oppose GHG reduction efforts; and perform additional undertakings as needed to successfully complete the task.
	Conduct relevant local, regional, national, and global comparisons – Perform comparisons between Lexington and Fayette County’s GHG emissions and those of other relevant local, regional, national, and international jurisdictions; include an analysis of benchmarks’ targets and their progress towards achievement.

³ [Fact Sheet: President Biden Sets 2030 GHG Reduction Target](#)

<p>Produce a target proposal document – With support from the Program Manager Senior for Sustainability, complete a summary document combining the results of tasks 1 and 2, as well as the proposed reduction targets. The audience for this document is LFUCG and select community partners.</p>

3.2.3 *Project Specifics* - The targets included may be in any of the following formats: base year reduction target; fixed-level reduction target; baseline scenario reduction target; or an intensity reduction target. Each recommended target must identify:

- Baseline year (year from which progress will be measured) and emissions (or emissions intensity) in the baseline year
- Target year (when the target will be achieved) and reduction to be achieved
- Greenhouse gases and emission sources to which the target applies (using GHGs and subsectors defined in the GPC)

The Consultant will propose sector-by-sector reduction targets. These sector-by-sector targets should total to an overall reduction goal.

The recommended targets will be reviewed by the Program Manager Senior for Sustainability and key community partners. An in-person meeting will take place with the Program Manager Senior for Sustainability and select internal and external partners to review the recommended targets and select a target on which to base recommendation.
