EQUAL OPPORTUNITY AGREEMENT

Standard Title VI Assurance

The Lexington Fayette-Urban County Government, (hereinafter referred to as the "Recipient") hereby agrees that as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation, it will comply with Title VI of the Civil Rights Act of 1964, 78Stat.252, 42 U.S.C. 2000d-4 (hereinafter referred to as the "Act"), and all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, (49 CFR, Part 21) Nondiscrimination in Federally Assisted Program of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964 (hereinafter referred to as the "Regulations") and other pertinent directives, no person in the United States shall, on the grounds of race, color, national origin, sex, age (over 40), religion, sexual orientation, gender identity, veteran status, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Recipient receives Federal financial assistance from the U.S. Department of Transportation, including the Federal Highway Administration, and hereby gives assurance that will promptly take any necessary measures to effectuate this agreement. This assurance is required by subsection 21.7(a) (1) of the Regulations.

- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states: *The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.*
- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states: *The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Type text here

As affirmed in Resolution Number 272-2024, the Urban County Council has adopted an annual aspirational goal of utilizing at least seventeen percent (17%) of public funds spend from certain discretionary agreements with certified Minority Business Enterprises (MBEs) and certified Woman Business Enterprises (WBEs); utilizing at least three percent (3%) of public funds from certain discretionary agreements with Certified Veteran-Owned Small Business and Certified Service-Disabled Veteran-Owned Small Businesses (VOSBs); and utilizing Disadvantaged Business Enterprises (DBEs) where applicable. Bidders should make every effort to achieve these goals.

Therefore, as an element of the responsiveness of the bid, all Bidders are required to submit documentation of their good faith and outreach efforts to ensure all businesses, including small and disadvantaged businesses such as minority-, woman-, and veteran-owned businesses, have an equal opportunity to compete for and participate in the performance of any subcontracts resulting from this procurement. Examples of good faith and outreach efforts that satisfy this requirement to encourage the participation of, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs include:

1. Advertised opportunities to participate in the contract in at least two (2) publications of general circulation media; trade and professional association publications; small and minority business or trade publications; and publications or trades targeting minority, women, and disadvantaged businesses not less than fifteen (15) days prior to the deadline for submission of bids to allow, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs to participate.
2. Attended LFUCG Procurement Economic Inclusion Outreach event(s) within the past year to meet new small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs to partner with on LFUCG contracts and procurements.

6. Contacted organizations that work with small, DBE, MBE, WBE, and VOSB companies for assistance in finding certified DBEs, MBEs, WBEs, VOSB and/or SDVOSBs to work on this project. Those contacted and their responses must be a part of the bidder's outreach efforts documentation.
7. Sent written notices, by certified mail, email, or facsimile, to qualified, certified small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs soliciting their participation in the contract not less than seven (7) days prior to the deadline for submission of bids to allow them to participate effectively.

10. Selected portions of the work to be performed by small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs in order to increase the likelihood of subcontracting participation. 11. The fact that the bidder has the ability and/or desire to perform the contract work with its own forces will not be considered a sound reason for rejecting a small business', DBE's MBE's, WBE's, VOSB's and/or SDVOSB's quote. Nothing in this provision shall be construed to require the bidder to accept unreasonable quotes in order to satisfy the participation goals.
13. Made an effort to offer assistance to or refer interested small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs to obtain the necessary equipment, supplies, materials, insurance and/or bonding to satisfy the work requirements of the bid proposal.

LFUCG provides wastewater collection and conveyance, and treatment services to the general LFUCG Urban Services Area, as well as limited areas outside the Urban Service Area. Periodically, LFUCG has need for temporary pumping services, as well as equipment rental, in its sewer system and wastewater treatment facilities. These services may be on an emergency basis, requiring immediate response; or may be scheduled in advance. The equipment use options include 1) Contractor/Vendor provides, installs, and maintains equipment used to provide temporary bypass pumping services (LFUCG provides fuel), or 2) LFUCG will rent project specific equipment for use by LFUCG staff on an as-needed basis.

1. General Project Description

The Contractor/Vendor is required to furnish all materials, labor, equipment, power, maintenance, etc. to implement a temporary pumping system for the purpose of diverting flow for the duration of the work. This shall include the setting of plugs and any cleaning or other work required to prepare the sewer for bypass pumping or as directed by LFUCG. The work may be of an emergency nature, requiring immediate response; or the work may be scheduled in advance.

The design, installation, and operation of the temporary pumping system shall be the Contractor/Vendor's responsibility. The bypass system shall meet the requirements of all codes and regulatory agencies having jurisdiction.

LFUCG will be represented by the Wastewater Collection and Conveyance Manager, the Pump Station Maintenance Supervisor, the Town Branch Wastewater Treatment Plant Superintendent, the West Hickman Wastewater Treatment Plant Superintendent, the Municipal Engineer Senior, the Sewer Line Maintenance Superintendent, and the Construction Manager or designated representative (Engineer or On-Site Supervisor), who will be authorized to initiate and/or oversee work.

2. Scope of Services

Task 1: Work Plan Requirement

Before beginning non-emergency work, the Contractor/Vendor shall submit to LFUCG detailed plans and work descriptions outlining all provisions and precautions to be taken by the Contractor/Vendor regarding the handling of wastewater flows. The plan must be specific and complete, including such items as schedules, locations, elevations, capacities of equipment, materials and all other incidental items necessary and/or required to insure proper protection of the facilities, including protection of the access and bypass pumping locations from damage due to the discharge flows, and compliance with the requirements and permit conditions specified in these contract documents. No work shall begin until all

provisions and requirements have been reviewed by LFUCG. LFUCG reserves the right to make modifications to the plan, work force, materials, or equipment. The Contractor/Vendor shall modify the plan as required by LFUCG. For emergency work, the Contractor/Vendor's on-site supervisor shall develop a work plan for approval by the LFUCG on-site supervisor.

At the discretion of the LFUCG supervisor, the plan shall include:

- Staging areas for pumps;
- Sewer plugging methods and types of plugs;
- Number, size, material, location, and method of installation of suction and discharge piping;
- Bypass pump sizes, capacities, number of each size to be on site and power requirements; however, LFUCG supervisor will review if standby pumps are required;
- Calculations of static lift, friction losses, and flow velocity (applicable pump curves also to be submitted);
- Standby power generator size and locations;
- Downstream discharge plan;
- Method of protecting discharge manholes or structures from erosion and damage;

- In order to prevent the accidental spillage of flows, all discharge systems shall be temporarily constructed of rigid pipe with positive, restrained joints. Discharge hose (fire hose or the like) will only be allowed in short sections and by specific permission from LFUCG.
- There may be no interruption of flow during the duration of the work. The Contractor/Vendor shall therefore provide, maintain and operate all temporary facilities, labor and equipment to intercept and bypass flow before it reaches the point where flow would interfere with the Contractor/Vendor's work. The Contractor/Vendor will be responsible for furnishing the necessary labor and supervision to set up and operate the pumping and bypass system.
- The design, installation and operation of the temporary pumping system shall be the Contractor/Vendor's responsibility. The bypass system shall meet the requirements of all codes and regulatory agencies having jurisdiction.

The Kentucky Environmental Response Team Emergency Hotline is 1 (800) 928-2380 or 1 (502) 564-2380.
 - In general, the pumping equipment shall be positioned in or near the upstream end of the sewer section with piping laid to the next downstream manhole. Sewage shall only be bypassed to a downstream sanitary manhole or adjacent sanitary sewers. No overflow will be permitted.
 - Whenever flows in a sewer line are blocked, plugged or bypassed, sufficient precautions shall be taken by the Contractor/Vendor to protect the sewer lines

from damage that might be inflicted by excessive sewer surcharging. Further, precautions shall be taken by the Contractor/Vendor to insure that sewer flow control operations do not cause flooding or damage to public or private property being served by the sewers involved. If such damage occurs, it shall be the Contractor/Vendors responsibility to clean, disinfect, and replace, where appropriate, any and all damaged public or private property as quickly as possible. The Contractor/Vendor shall be available or make the necessary arrangements to perform work of this nature.

- Whenever temporary pumping is included in a pay item, the set up and take down costs are included in the unit price.
- Pumping and bypassing set-ups require approval from the Engineer.
- When pumping and bypassing is required, the Contractor/Vendor shall supply the pumps, conduits, and other equipment to divert the flow of sewage around the sewer line section in which work is to be performed. The bypass system shall be of sufficient capacity to handle existing flow plus additional flow that may occur during a rainstorm. The Contractor/Vendor will be responsible for furnishing the necessary labor and supervision to set up, operate, and maintain the pumping and bypass system. LFUCG shall provide fuel during the period of operation.
- The Contractor/Vendor response time for scheduled as-needed services, shall begin within 48 hours minimum, from receipt of Purchase Order. The Contractor/Vendor response time for all emergency work shall begin within 4 hours minimum, after requested by phone.

- The Contractor/Vendor shall keep all equipment and work activities within the public right-of-way and available easements.
- The Contractor/Vendor shall maintain flow around the work area in a manner that will not cause surcharging of sewers, damage to sewers, and that will protect public and private property from damage and flooding.
- The Contractor/Vendor shall protect all LFUCG facilities from damage inflicted by the Contractor/Vendor's equipment. The equipment should be in good condition and not allow sewage or oil to leak onto the ground or pavement. The Contractor/Vendor shall be responsible for all physical damage to LFUCG caused by the Contractor/Vendor's actions.

- If pumping is required on a 24-hour basis, engines shall be equipped in a manner to keep noise to a minimum. The pumping units should be housed in an acoustically-silenced enclosure (skid or trailer mounted). An ultra quiet operation is required of each unit (66-69 dBA). 25-2026

The Bidder respectfully takes exception to the indemnification language contained within the “Risk Management Provisions – Insurance and Indemnification,” Section 2.0 “Indemnification and Hold Harmless Provision,” Page 23 of the bid package.

Specifically, Bidder objects to any interpretation requiring Bidder to defend, indemnify, or hold harmless the Owner for claims, damages, liabilities, losses, or expenses arising from the acts, omissions, negligence, gross negligence, or willful misconduct of the Owner, its employees, representatives, agents, contractors, or other parties under the Owner’s direction or control.

Bidder proposes that the indemnification provision be interpreted and applied only to the extent claims arise from the negligent acts, errors, omissions, or willful misconduct of the Bidder, its employees, agents, or subcontractors.

Further, where equipment is rented or utilized by the Owner or the Owner’s representatives, Bidder shall not be responsible for claims, damages, or liabilities arising from the operation, misuse, maintenance, transportation, or control of such equipment by the Owner or third parties acting on behalf of the Owner.

This exception is submitted to clarify allocation of responsibility and risk and is not intended to otherwise modify the remaining terms and conditions of the solicitation.

ADDITIONAL EXCEPTION – PLUGGING / BLOCKING LIABILITY

Bidder further takes exception to any contractual provision, specification, or interpretation which would impose liability, indemnification obligations, or defense obligations upon the Bidder arising from sewer plugging, line blocking, flow isolation, surcharge conditions, bypass failure, overflow events, or related incidents where the blocking methodology, blockage integrity, flow control strategy, or operational control is directed, specified, approved, provided, or assumed by the Owner or Owner’s representatives.

Although the project specifications reference “setting of plugs” and temporary flow control operations within the Scope of Services and General Project Description, Allied Technical Services, Inc. does not provide engineering design responsibility for system blockage, nor does Allied warrant or guarantee blockage integrity, hydraulic isolation, or system stoppage unless expressly agreed to in writing for a specific task.

Owner shall retain sole responsibility for:

- Determination of appropriate blocking methods and locations;
- Verification of complete flow stoppage or isolation;
- Monitoring upstream/downstream system conditions;
- System capacity evaluation and surcharge prevention;
- Operational decisions related to plugging or bypass sequencing; and
- Any damages, backups, spills, overflows, flooding, or property loss resulting from incomplete or failed blockage conditions not caused solely by Allied’s direct negligence.

Accordingly, Bidder shall not indemnify, defend, or hold harmless the Owner for any claims, damages, losses, environmental releases, backups, flooding, property damage, bodily injury, regulatory actions, or related liabilities arising out of or connected to blockage failure, inadequate isolation, sewer surcharge, or Owner-directed flow control operations except to the extent directly caused by the sole negligence or willful misconduct of Allied Technical Services, Inc.

Owner expressly waives and releases any indemnification claim against Bidder arising from such blockage or plugging related conditions not directly caused by Allied's sole negligence.

ADDITIONAL EXCEPTION – SCOPE OF SERVICES TASK 1 / SEWER PLUGGING METHODS, HYDRAULIC, & SURVEY RESPONSIBILITY

Bidder takes exception to any interpretation of Scope of Services – Task 1 “Work Plan Requirement” that would impose professional engineering, surveying, hydraulic modeling, system design, surcharge analysis, or system performance responsibility upon Allied Technical Services, Inc.

Specifically, Allied Technical Services, Inc. does not provide:

- Land surveying services;
- Elevation verification or slab elevation surveys;
- Hydraulic modeling or engineering analysis;
- Sewer system capacity analysis;
- Surcharge elevation calculations;
- Infiltration/inflow analysis;
- Engineering certification of bypass systems; or
- Warranty or guarantee of complete flow isolation or blockage performance.

Any plug selections, bypass recommendations, or temporary pumping configurations proposed by Allied are operational recommendations only and are based solely upon limited observable field conditions and information supplied by the Owner.

Owner shall remain solely responsible for:

- Verification of system elevations;
- Determination of surcharge elevations;
- Existing sewer system capacity and hydraulic behavior;
- Adequacy of flow isolation and blockage strategy;
- Monitoring upstream/downstream system conditions; and
- Approval of bypass sequencing and operational flow control methods.

Allied Technical Services, Inc. shall not be liable for backups, surcharging, overflows, flooding, spills, releases, property damage, regulatory violations, or related claims arising from unknown or inaccurate system conditions, inadequate blockage, hydraulic limitations, or Owner-directed operational decisions, except to the extent directly caused by Allied's sole negligence or willful misconduct.

Owner waives and releases any indemnification claim against Allied arising from such conditions outside Allied's direct operational control.

ADDITIONAL EXCEPTION – TASK 2 SYSTEM REQUIREMENTS / FLOW CONTROL LIABILITY

Bidder takes exception to any provision contained within Scope of Services – Task 2 “System Requirements” that imposes absolute liability, strict liability, warranty obligations, or performance guarantees regarding flow control, bypass effectiveness, sewer surcharging, overflow prevention, flooding prevention, or protection of public or private property.

Allied Technical Services, Inc. shall exercise reasonable care in the installation and operation of temporary pumping and bypass equipment directly furnished and controlled by Allied; however, Allied does not guarantee uninterrupted flow conditions, complete elimination of surcharge risk, prevention of all overflow events, or protection against system conditions outside Allied’s direct operational control.

Specifically, Allied shall not be responsible for damages, backups, surcharging, spills, releases, flooding, environmental events, property damage, or regulatory actions arising from:

- Existing sewer system limitations or defects;
- Unknown hydraulic conditions;
- Excessive wet weather or storm inflow/infiltration;
- Blockage failure or incomplete flow isolation;
- Owner-directed operational decisions;
- Existing infrastructure failure;
- Inaccurate or unavailable system data;
- Third-party actions; or
- Conditions outside Allied’s direct control.

Any references within the specifications stating that “no overflow will be permitted” or requiring the Contractor/Vendor to prevent all surcharging, flooding, backups, or property damage shall be interpreted as performance objectives only and not as guarantees, warranties, or assumptions of strict liability by Allied Technical Services, Inc.

Owner retains responsibility for overall sewer system operation, system monitoring, hydraulic capacity evaluation, and emergency response coordination associated with the public sewer system.

ADDITIONAL EXCEPTION – TASK 3 PREPARATION / PROPERTY & UTILITY LIABILITY

Bidder takes exception to any provision contained within Scope of Services – Task 3 “Preparation” that imposes broad, absolute, or strict liability upon Allied Technical Services, Inc. for utility conflicts, sewer system conditions, flooding, surcharge events, property damage, infrastructure failure, or conditions outside Allied’s direct operational control.

Allied Technical Services, Inc. shall exercise reasonable care in the operation of equipment and performance of services directly under its control; however, Allied does not warrant or guarantee:

- Accuracy or completeness of utility locates;
- Existing infrastructure condition or integrity;
- Sewer system hydraulic performance;
- Prevention of all flooding, backups, or surcharge events;

- Protection from unknown subsurface conditions;
- Accuracy of Owner-provided system information; or
- Performance of infrastructure outside Allied's direct control.

Owner shall remain responsible for:

- Providing accurate utility and system information;
- Existing sewer system conditions and capacity;
- Coordination of system operations;
- Approval of bypass and operational sequencing; and
- Risks associated with unknown or concealed site conditions.

Any specification language stating that the Contractor/Vendor shall be responsible for "all physical damage" shall be interpreted only to the extent such damage is directly caused by the proven negligence or willful misconduct of Allied Technical Services, Inc.

Allied Technical Services, Inc. shall not be liable for damages arising from pre-existing conditions, inaccurate locates, hidden utilities, existing infrastructure failure, excessive wet weather events, Owner-directed operations, or conditions beyond Allied's reasonable control.

Owner waives and releases any indemnification or defense claims against Allied arising from such excluded conditions.

Overtime / Extended Run Time

The pricing provided on attached bid sheet is based on a standard operating period of eight (8) hours per day. Should actual run time exceed eight (8) hours in any given day, additional overtime charges may apply. Overtime will be billed at the applicable rates in effect at the time of service, and will be reflected as a separate line item on the final invoice.

Equipment Scope Clarification

All pricing included in this proposal is limited to pumps only. Any additional equipment or materials required for proper setup and operation, including but not limited to discharge and suction hoses, piping, fittings, connections, and ancillary items, are excluded. These items will be provided as required and will be subject to additional rental charges and associated labor costs.
