

**ADDENDUM TO
CREATIVE CONTRACT FOR
LEAF COLLECTION ASSETS**

This Addendum amends the July 5, 2022 Contract for Services, to the extent of the new services provided by increasing the services provided by Mackey Group LLC and the funds provided by LFUCG, as described herein.

Project Goals and Objectives

The leaf vacuum program is a service offered to Fayette County residents with city waste collection once each fall. A primary benefit of this program is diverting leaves from the landfill to the city's mulching program. Communication to folks who benefit about this program, both its timing and purpose, is important to the program's success.

In FY23, vacuum collection will take longer and the schedule is anticipated to shift more frequently than in past years. EQPW needs updated assets that prepare the public for the realities of this season's vacuum program – assets that more strongly emphasize use of bags and carts along with mowing leaves back into the lawn.

This \$10,000 amendment will be optionally renewed with the rest of the contract given that continued adjustments to the leaf vacuum program are anticipated.
