9. Books of accounts shall be kept by the Organization and entries shall be made therein of all money, goods, effects, debts, sales, purchases, receipts, payments and any other transactions of the Organization. Any examination shall be at the expense of the Government.

10. Government may designate such persons as may be necessary to monitor and evaluate the services rendered by the Organization. The Government, its agents and employees, shall, at all times, have unrestricted access to all places where or in which the services required hereunder are being carried on and conducted. Inspection and monitoring of the work by these authorities shall in no manner be presumed to relieve in any degree the

responsibility or obligations of Organization, nor to constitute the Organization as an agent of the Government.

11. Organization shall provide equal opportunity in employment for all qualified persons, shall prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and shall cause each of its subcontracting agencies to do so. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

12. Organization shall adopt a written sexual harassment policy, which shall, at a minimum, contain a statement of current law; a list of prohibited behaviors; a complaint process; and a procedure which provides for a confidential investigation of all complaints. 14. Organization agrees that it shall apply all funds received by it from the Urban County Government in accordance with the following investment policy guidelines:

(2) Utilize the professional investment management facilities of a local bank trust department acting in a fiduciary capacity within the same approved investment policies and federal, state, local and trust laws and regulation. The trust department may utilize its regular short-term one hundred percent (100%) US Treasury Fund for daily funds investment.

The election of option 1 or 2 should be made consistent with the relative cost incurred and in the case of option 2 the cost shall be competitive among local trust departments.

C. Investment Policies - - Safety and Prudence.

## 5.1 Program Proposal & Design

### 5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

The Human Immunodeficiency Virus (HIV) continues to have a disproportionate impact on certain populations in Fayette County, particularly racial and ethnic minorities. Despite making up 16% of the Fayette County population, African American residents make up 30% of persons living with HIV. AVOL Kentucky has continued to work toward improving its outreach in response. During 2021, 27% of persons tested at AVOL were African American. This percent has grown from 21% in 2016. 27.7% of new cases of HIV each year are among African Americans, the largest impact group according to the CDC. The disproportionality of HIV infections among Hispanics has flattened at this time (CDC, 2021; and AVOL, 2022).

Approximately 1,000 individuals in Fayette County are living with HIV. One in eight (13%) persons living with HIV, do not know they carry the virus (CDC, 2022), potentially infecting others. In Kentucky, people typically are unaware of their status until after advanced disease progression, which underscores the need for affordable and accessible neighborhood-based prevention and testing focused on our most impacted populations. Also, a growing number of individuals are living with Hepatitis C (HCV), mostly stemming from an increase in injection drug use. Fayette County is therefore vulnerable to an HIV and HCV outbreak related to injection drug use. About 10 percent of new HIV infections in Kentucky are present in people who inject drugs (PWID), and another 5 percent are men who have sex with men (MSM) and who also inject drugs (KDPH 2019).

### 5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

AVOL continues to emerge from the 2020/2021 COVID-19 pandemic with an increasingly stronger outreach presence and improved HIV and HCV testing numbers. We are currently testing about 119 individuals per month. AVOL’s HIV prevention specialist staff are community health workers, a model that has served us well for over 30 years. AVOL has been able to expand harm reduction and prevention in Fayette County as an ESR grantee for the last six years; providing outreach, counseling, harm reduction supplies, HIV/HCV/STI screenings, referrals, and follow-up. Activities in this proposal are designed to empower 1,428 high-risk individuals to make informed decisions related to their health.

AVOL’s prevention services are provided three days each week during afternoon/evening walk-in hours at our Lexington offices, via neighborhood-based outreach with our mobile testing unit, and by appointment. Each counseling session takes about 30 minutes and includes risk assessment, education and planning, supplies, and connection to medical and other resources. Mobile outreach takes place with individuals who might not otherwise seek AVOL’s services and takes place in environments where high-risk activity occurs.

Our community health workers provide group harm reduction education sessions 4-5 times a month for organizations serving at-risk youth, drug treatment, and drug court, among others. These sessions cover HIV/HCV/STI 101, transmission routes, and risk reduction options. Clients are introduced to prevention innovations (e.g., PrEP) and all service delivery is designed to increase awareness and reduce risk of HIV/HCV/STI transmissions. PrEP navigation and referrals to pharmacy now take place in-house at AVOL.

### 5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

HIV, HCV, and STI testing is free to anyone interested in receiving counseling and testing. There are no waiting lists. Testing times are available by appointment or during walk-in testing hours, which are designed for the convenience of served populations. Neighborhood-based testing is also available using our mobile testing unit.

The basic eligibility requirement for the expanded HIV prevention program is to be a person whose current behaviors and actions are considered high-risk for contracting or transmitting HIV, HCV, or other STIs. Though HIV can affect anyone, it disproportionately impacts racial and ethnic minority populations, including African Americans, Latinos, gay men, persons who inject drugs, as well as women and low-income individuals. For this reason, outreach and engagement is targeted to those groups most impacted by the HIV epidemic, engaging them in education, harm reduction methods, and testing. Using AVOL's mobile testing unit, prevention focused community health workers will frequent areas of town, businesses, and organizations where they are most likely to encounter at-risk persons.

Individuals involved in the enhanced program must be willing to share their contact information to facilitate communication and follow-up. To be eligible for HIV screenings, individuals must verbally consent to the test and participate in an individualized risk-reduction counseling session.

### 5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

AVOL adheres to Centers for Disease Control (CDC) HIV testing protocols. CDC research shows that outreach, education, access to free prevention supplies, and HIV testing are the most effective methods for HIV prevention. Because it is easy to administer, HIV testing has become a primary intervention tool as test results allow a person to plan accordingly and take appropriate steps whether they are HIV-positive or HIV-negative.

The theories of practice presented in this application for the expanded HIV prevention program are based on a model developed by Tim Horn (2016), whose article – "Towards an integrated primary and secondary HIV prevention continuum for the United States: a cyclical process model" – was published in the Journal of the International AIDS Society. Horn's work conveys:

- The need for HIV prevention services to be repeating, comprehensive, outcomes-oriented and fixated on the goal of reducing risk to vulnerable populations
- A focus on HIV retesting as a metric to gauge the effectiveness of HIV intervention and the opportunity to streamline successful linkage, engagement, and viral load suppression through the HIV care continuum

With the assistance of funding from LFUCG ESR, AVOL continues to implement HIV re-testing protocols, which differs from a one-time transaction between AVOL and the client. Over the course of the past five years, our program has moved 34.24% of our clients toward repeat testing. This is up from 24.6% previously reported.

## 5.2 Program Measures & Evaluation

### 5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

AVOL aims to keep the person living with HIV maintaining low levels of virus in the body, which will prevent them from passing the virus to others, and to keep the high-risk negative person, negative.

HIV counseling and testing is successfully finished if the client completes a comprehensive risk assessment, takes the test and receives results, participates in harm reduction counseling, articulates a plan of prevention, and receives needed prevention supplies. For example, if a client discloses to staff that they inject drugs, they will work together to decide upon a personalized, realistic harm reduction approach (e.g., utilizing a syringe exchange, referral to a drug treatment facility).

For the high-risk, HIV negative individual, the process is successfully completed by attending regular check-ins and re-testing every six months. For the person who tests HIV-positive, success requires following through with scheduled medical appointments, attending the AVOL service intake appointment, meeting with Health Department staff who will assist in notifying sexual and drug use partners, and complying with medication adherence.

AVOL proposes testing 1,428 high-risk individuals per year. Our goal is that 99 percent will remain negative, and that the 1 percent of individuals will likely test HIV-positive. Those testing positive will achieve reduced viral loads through support services, engagement in medical care, and medication adherence. 600 high-risk negative clients will receive long-term follow-up and re-testing with the goal of maintaining their negative status. AVOL has begun its PrEP-connection services, directly dispensing PrEP medication to prevent HIV infection to its HIV-negative clients.

### 5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

Poverty and health disparities go together. HIV/AIDS is no exception. Providing respectful, evidence-based, and culturally competent sexual health education allows individuals to make healthy, informed decisions about their bodies and relationships, which results in increased self-esteem and personal empowerment. By helping low-income people access free information and safer sex supplies, AVOL helps reduce barriers to engagement in healthy behaviors.

By providing HIV, HCV, and STD screenings, AVOL helps individuals know their health status and take necessary steps to access appropriate care. Through early diagnosis and timely treatment, individuals are less likely to suffer health crises that can lead to hospitalization and large bills for indigent care. People who are aware of their HIV status and who are receiving proper treatment are essentially unable to transmit the virus to others. Through empowerment education about personal choices and sexual health, AVOL helps reduce fear, ignorance, and misinformation about accessing health care in general. Individuals who engage in routine preventive health care visits and screening often avoid larger medical costs that arise during a health crisis.

People living with HIV who receive proper care and are stably housed enjoy an advantage in terms of education and employment as well as access to other supportive services. Eligible low-income clients of the program who receive an HIV diagnosis are seamlessly connected to AVOL's Client Services Program for assistance with housing and utility costs. Prevention Specialists can refer clients with additional needs to necessary resources, including drug treatment, domestic abuse shelters and mental health counseling.

### 5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

Using both quantitative and qualitative data, evaluation activities will ensure that all project goals, objectives, and outcomes are achieved in a satisfactory manner. Any project evaluation and/or management-related data that are collected, maintained, or disseminated by the project will be handled in a manner that will protect the confidential information of participants.

AVOL's own internal data tracking system collects pertinent information to evaluate the effectiveness of its prevention services. Data collected includes demographics, risk factors, etc. All program data is also reported to the CDC in a system called EvalWeb, a dynamic database and reporting tool that provides necessary data for reporting progress. Progress data reports will be filed with LFUCG ESR and discussed at monitoring and evaluation meetings. Outcome tracking outlined in Section 5.2.1 will be reported continually. Conclusions drawn from evaluation activities will be reviewed by staff and AVOL's board and will be considered when planning future initiatives. In addition to service improvement, evaluation efforts tend to uncover unmet needs and will be incorporated into long-term strategic planning and program development. AVOL will share information and consult constituents, clients, donors, and volunteers to solicit additional feedback and insight.

Several HIV-related planning and strategy groups exist at both the state and federal level and are always interested in a local perspective and learning. AVOL will share information and insights upward to the Kentucky HIV/AIDS Planning and Advisory Council, Dining Out for Life International, and the U.S. Housing and Urban Development's (HUD) Housing for Persons Living with HIV/AIDS planning group.

## 5.3 Capacity & Sustainability

### 5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

Matthew Brewer (BA) joined AVOL as Prevention Manager in 2015. Matt has provided support to individuals experiencing substance abuse issues, including those living with HIV, for several years. He manages AVOL's prevention activities and has directly contributed to a more effective and targeted team. He is a state-certified Harm Reduction Navigator and helps train community members on effective ways to reduce risk.

Phylcia Renaye joined AVOL in 2021 as our first Health Equity HIV Prevention Specialist. The position is entirely funded by LFUCG ESR to focus on outreach and engagement of African American populations in Lexington. Phylcia has extensive experience in community outreach and engagement and enters the position with extensive ties to the African American community in Lexington.

Andres Cruz joined AVOL as a Prevention Specialist in 2019. Andres has experience working in preventive medicine with migrant agricultural Hispanic workers in Kentucky and helped develop and support the Latino Health Promoters program with Adult Health Education Center. As an editor, photographer, writer, and publisher of La Voz of Kentucky Bilingual Newspaper, he has been able to develop many relationships within the Latino Community in Lexington.

Staff employed through the ESR program receive training opportunities available to prevention by the Kentucky Department of Public Health. This comprehensive resource is very adequate to keep any HIV prevention professional up to date.

**5.3.2 Partnership & Resource Leverage**

**5 Points**

How do your programs and services support our community’s comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

Over the years AVOL has developed many community partnerships to reach high-risk individuals and offer outreach and testing. AVOL fights HIV stigma and supports other stigma-fighting organizations and gatherings. These organizations include Voices of Hope, Bar Complex, Duncan Park, Goodwill Industries, New Vista, Bluegrass Black Pride, Kentucky Black Pride, Black Soil, Douglas Park, Jubilee Jobs, United Way Waypoint Center, Soundbar, Pride Center, Perfect Imperfections Sober Living Home, Chrysalis House, Dunbar Center, UK, Bryan Station Inn, Transylvania University, Latino Mother’s Day Festival, Shepherd’s House, Center for Behavioral Health, TransKY, Crossings Lexington, Kentucky Refugee Ministries, City Cutz Barber Shop, Arbor Youth Services, Drug Court, Family Care Center, BHG Suboxone Clinic, Hope Center for Men and Women, Recovery Café, and Greenhouse 17.

AVOL maintains a close working relationship with UK’s Bluegrass Care Clinic (BCC), which provides medical case management, medical services, and pharmacy services to people living with HIV. AVOL and BCC form a continuum of care: AVOL refers clients with confirmatory HIV diagnosis to BCC, and BCC refers eligible clients back to AVOL for assistance with housing/supportive services and for prevention case management. AVOL collaborates with the LFCHD frequently to ensure the best possible outcomes for those who are high-risk. AVOL refers those newly diagnosed with HIV to the BCC.

AVOL’s Board of Directors is entirely made up of volunteers, including individuals from high-risk populations. Volunteers, play crucial roles at our events and education sessions. AVOL’s major funders include HUD and the CDC.

**5.3.3 Outreach & Inclusion Strategy**

**15 Points**

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor’s Commission on Racial Justice & Equality?

AVOL’s offices are located close to the center of Lexington’s medical community and is fully accessible. It is within a few miles of the BCC, the primary area medical provider of most individuals living with HIV, a 10-minute walk to Lextran, and about two miles from downtown Lexington. AVOL has in place extensive non-discrimination policies and is considered a human rights organization. AVOL has staff who are bilingual in English and Spanish or utilize a telephone translation service for other languages. AVOL strives to be present at community and decision-making meetings, especially those associated with safe, affordable housing and public health. Most of AVOL’s prevention outreach takes place in the community - not the office. We travel to locations where high-risk activities occur. For example, by utilizing our Mobile Testing Unit, we can maintain a regular, consistent presence in areas of town frequented by sex workers.

Given this initiative’s focus on marginalized or underrepresented populations, individuals who assume the roles funded by this initiative have extensive social ties to minority populations, PWID, and LGBTQ+. They will strengthen AVOL’s connection with and outreach to focus populations.

AVOL advertises its services each month with Lextropolis, a local digital magazine with an urban influence. AVOL connects with other community influencers via social media and traditional media to better reach our focus population and address health inequities.

### **Laws and Regulations**

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

### **Equal Employment Opportunity**

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

### **Kentucky Equal Employment Opportunity Act**

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

### **LFUCG Non-Appropriation Clause**

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

**EQUAL OPPORTUNITY AGREEMENT**

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

*The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.*

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

*The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.*

\*\*\*\*\*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

## Funding Priority Area: Community Wellness & Safety

Projected funding is \$900,000 of ESR Grant Program – Community Based Initiatives

LFUCG seeks to strengthen and enhance Community Wellness and Safety, by supporting programs and services addressing **Mental Health, Substance Misuse Disorder, and Community Violence Prevention**. LFUCG intends to award grants for priority-rated programs and services which originate with demonstrated client needs, establish clearly-defined outcomes, and are designed to best practices or evidence-based models. These programs may address one or more of the following areas, but shall not be limited to:

- **Substance Misuse Disorder**, which include prevention of alcohol and drug abuse; prevention and treatment of addictive and mental disorders through programs and services for individuals who suffer from these disorders; and harm reduction.
- **Mental Health**, which is defined as a state of well-being in which every individual realizes his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community. Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.
- **Community Violence Prevention**, which includes **Youth Violence Intervention**, including Gang & Gun Violence, Child Abuse & Neglect Services, Sexual Violence Prevention, Elder Abuse Prevention, Suicide Prevention and Intimate Partner Violence Prevention and Stalking.

The term “client” is used throughout this proposal; however we understand that within the context of your work “client” may not mean an individual. For some agencies it may be helpful to think of “client” as whole system (such as a school) or as a neighborhood, group, or community.

### 5.1 Program Proposal & Design

#### 5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

#### 5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

#### 5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

#### 5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

## 5.2 Program Measures & Evaluation

### 5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

### 5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

### 5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn’t have to be complicated, evaluation is more than saying “we provided this many ‘units of service.’” How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

## 5.3 Capacity & Sustainability

### 5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

### 5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community’s comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

### 5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor’s Commission on Racial Justice & Equality?

## **6.0 Program Budget Summary Form**

Proposal Submittal shall be considered incomplete and shall be rejected without completed Budget Summary Form. *(Including total amount of FY23 ESR grant request.)*

**Budget Form will be for Fiscal Year 2023 ESR Request only. Funds awarded for Fiscal Year 2024 shall be the same amount as awarded for Fiscal Year 2023,** and contingent on Council approval of the Fiscal Year 2024 budget.

## EQUAL OPPORTUNITY AGREEMENT

### The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

*The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.*

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

*The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.*

\*\*\*\*\*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.
