On October 21, 2010 (Ordinance 184-2010), Council approved the acceptance of federal funds from the Kentucky Transportation Cabinet for Loudon Avenue Sidewalk Project. This project provides for the construction of 4,000 feet of a five-foot wide sidewalk on the south side of Loudon Avenue from Newtown Pike to Russell Cave Road. Total project cost is \$300,000. Federal funds are from the federal Congestion Mitigation/Air Quality Program (CMAQ) allocation.

Division of Engineering issued RFP #3-2011, a qualifications-based selection process for procurement of an engineering design consultant for this project. Eight firms submitted statements of qualifications. A selection committee reviewed the responses and selected CDP Engineers, Inc., as the most qualified firm with the ability and expertise to complete the work in a timely manner. The scope of work includes design, right-of-way acquisition, coordination of utility relocation, environmental and legal analyses, and the development of construction contracts. The negotiated cost of these services is \$44,652. Funds are budgeted as follows:
