| Title:      | OnBase Software – Enterprise Application Enabler | Project:      | Enterprise Application Enabler |
| Date:       | 01/27/2015                                       |               |                                |
| Author:     | Robin A. Brockman                                | Organization: | VeBridge                       |
| Originator: | Brittany West                                    | Organization: | LFUCG                          |

**Proposed Change Description:**

LFUCG departments such as Fire have identified several applications that would benefit from accessing OnBase documents while working in their line of business application. Application Enabler provides image enabling to third-party software applications that are GUI, browser, or text-based. The Enterprise Application license will allow for any number of applications to be image-enabled within the enterprise providing the ability to extend this functionality across the enterprise to other applications such as PeopleSoft, etc. The software license is listed below:

| Product / Module Name          | Product Code | License Fee  | Qty | Extended Price | Extended Maintenance |
|--------------------------------|--------------|--------------|-----|----------------|----------------------|
| Enterprise Application Enabler | AEIPI2       | \$ 50,000.00 | 1   | \$ 50,000.00   | \$ 10,000.00         |

**Justification:**

To provide enhanced capability to provide access to OnBase documents while operating in familiar applications.

**Affected Requirements:**

Installation services for this application will be included in the specific project implementation associated with this product.

**Impact on Cost:**

- Software Licenses of \$50,000
- Annual Maintenance \$10,000 (Annual Maintenance will be prorated to align with LFUCG’s current renewal period.)

**Impact on Schedule**

VeBridge will dedicate staff to this project upon signature of this Change Control.

**Impact on Resources:**

VeBridge and LFUCG will dedicate resources as mutually agreed upon in the project schedule.

**Detailed Review Results:**

Approved       Defer Until: \_\_\_\_\_       Declined

Reasons/Comments:

**Payment Terms:**

All items previously contracted will follow the contracted payment terms. VeBridge will invoice LFUCG for work effort associated with this change control agreement.

**Final Approvals:**
