6.5. Disputes

Except as otherwise provided in this Agreement, any dispute hereunder may be resolved by agreement of the **OWNER'S** Agent (Section 8.1.1) and the **CONSULTANT**. EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Request for Qualifications (RFQ) for Professional Engineering Services Contract 1 – Roadway Corridor and Intersection Design/Planning

1. Background

Lexington-Fayette Urban County Government (LFUCG) is accepting Statements of Qualifications (SOQs) from interested consulting engineering firms for professional engineering services, including design, bidding assistance and construction administration for infrastructure improvements. This RFQ shall serve as the initial step in solicitations for specific projects. Prequalification of firms will be followed by solicitation of design fee bids for specific projects from select firms. Prequalification of consultants does not constitute a guarantee of being awarded projects at any point in the future; **there will be no guarantee of work for any firm or firms.**

Currently there are eight (8) active prequalification categories, as listed below. Historically, only Contract 1: *Roadway Corridor and Intersection Design/Planning* has been significantly utilized. Current Contracts 2-8 are being renewed, per terms of the 2014 contract. Therefore, **this Request for Qualifications shall only address Contract 1.** The current Contract 1 will expire upon passage of new Contract 1; therefore, all firms interested in Contract 1 will have to re-submit for this RFQ. The possible number of firms that will be prequalified in this process shall be increased from six (6) to ten (10).

Contract 1 - Roadway corridor and intersection design/planning – re-bid in this RFQ package.

Contract 2 - Right-Of-Way or easement acquisition – renewed.

Contract 3 - Construction drawings review for DOE manual compliance – renewed.

Contract 4 - Structures or bridge design – renewed.

Contract 5 - Pedestrian, bike, or multimodal trail design/planning – renewed.

Contract 6 - Traffic signal design – renewed.

Contract 7 - Geotechnical testing, analysis and design (subgrade improvements, foundations, pavement design or rehabilitation, etc.) – renewed.

Contract 8 - Construction inspection – renewed.

Engineering services for other disciplines not detailed above may be solicited in a separate procurement.

The Urban County Government reserves the right to periodically re-solicit for qualifications. Furthermore, if a firm that submitted qualifications in response to this solicitation experiences a change in staffing or expertise that substantially changes their qualifications to perform work under this program, they must communicate the change in qualifications to LFUCG in written addenda.

2. Contracting Process

Each prequalified firm shall be awarded with an indefinite service delivery contract. Projects assigned to prequalified consultants shall be completed on a fee basis, authorized in an approved Project Assignment. Only the approval of a project-specific Project Assignment shall constitute a notice to proceed on specific projects.

The intent of this procurement process is to assign projects to contracted firms on a rotational basis. LFUCG will rank proposers and select a specified number of qualified consultants in each project category for design work for a 365 day period beginning from contract execution date. LFUCG will have the option to renew the indefinite delivery contracts on an annual basis, at its sole discretion. LFUCG will also reserve the option to add additional qualified firms using another, identical RFQ process.

Once selections are made for the specified number of qualified consultants, the firms will be ranked as follows: The firm with the highest total dollar value of Division of Engineering (DOE) contracts or additions to existing contracts over the last 24 months (from the date of advertisement of this RFQ) will be placed at the bottom of the list for new project work. The process will continue until all firms with recent DOE work have been ranked from highest value of DOE contracts to the lowest value of DOE contracts over the last 24 months. The remaining firms that have not been awarded any DOE contracts over the last 24 months will then be ranked according to their point totals from the initial rankings with the highest scored team being the number one firm on the list.

When LFUCG initiates a particular project, the three highest ranked firms in that particular category of project will be asked to submit a fee proposal to perform the engineering services described by LFUCG, which will generally include the provisions of Section 3 below. Exhibit 1 is a template for a typical fee proposal. In addition to furnishing lump sum line items costs, the consultant shall address DBE utilization, current qualification status, and shall acknowledge receipt of addenda.

The firm submitting the lowest cost proposal will be offered a written Project Assignment. If for any reason the firm currently under consideration rejects the project assignment, the firm submitting the next lowest fee may be offered the project assignment. If the second firm does not accept the project assignment, DOE may then offer the project assignment to the third firm. If that offer does not result in an accepted project assignment, DOE may solicit cost proposals from the next three ranked firms. The cycle will continue until the project is assigned or canceled. Any firms who provided written cost proposals and were offered a project assignment that was then rejected, will be placed at the bottom of the list. Firms that provide a written cost proposal but are not offered a project assignment shall not lose their place on the consideration list. For project categories with three or less pre-qualified firms, all firms will be asked to submit a fee proposal each time.

As each firm is issued a Project Assignment for a specific project, they will then be moved to the bottom of the list, giving the next three highest ranked firms the opportunity to provide bids for the next project. When LFUCG initiates a particular project, any of the current highest ranked firms may choose not to submit pricing if they do not have current capacity to complete the work. A firm may decline up to two projects without being moved to the bottom of that category's list. After declining a third project, the firm will then be moved to the bottom of the list. Excessively high fee proposals (more than twice the lowest proposal) may be counted as declined bids for this purpose.

3. General Project Description

The Consultant shall perform professional services as hereinafter stated which include customary civil, mechanical, structural, electrical, storm, and sanitary engineering services as related to the design, bidding, and construction administration of LFUCG projects. FIRM QUALIFICATIONS

EA Partners, PLC is a Lexington based consulting firm, founded in 1979, specializing in the planning, design and construction management of transportation networks, stormwater management facilities, and sanitary sewer systems. Joining our team will be J.M. Crawford & Associates for Structural Engineering and Magna Engineers for Electrical and Mechanical Engineering. Magna Engineers is a certified Disadvantaged Business Enterprise with the Kentucky Transportation Cabinet (KYTC). All firms are founded and headquartered in Lexington, and all work will be completed in Lexington.

EA Partners, as one of a handful of locally headquartered, still locally maintained firms, have prided ourselves in delivering quality, cost-effective designs throughout Fayette County. EA Partners is pre-qualified with the KYTC in numerous categories as are listed in Figure 1. We have also served on multiple Statewide Contracts for the KYTC, including Statewide Pavement Rehabilitation and Statewide Roadway Design. These contracts maintain a rotating pool of 3-4 consultants who are hired to perform work on varied projects from intersection re-alignments to rehabilitating a roadway for better access and drainage. In essence, these contracts are the KYTC's equivalent of the LFUCG's Professional Engineering Services Contract #1-Roadway Corridor and Intersection Design Planning. In each KYTC Statewide Contract, EA Partners delivered studies and/or plans under accelerated schedules and on budget. A list of our relevant Statewide projects are shown in Figure 2.

"EA Partners has performed design services for the LFUCG Division of Engineering on a number of projects for a number of years. As the Project Manager for some of these projects I have been keenly aware of the work that EA has performed. EA Partners innovative approach to design and construction has produced unique opportunities for the citizens of Lexington. The plans and specifications that they have produced represent EA's level of professionalism and accountability and I would expect this to continue.

I believe EA Partners possess the creativity, the innovation and the technical skill set to effectively complete any project required by the LFUCG."

Keith Lovan, P.E./LFUCG

"I have had the pleasure of working with EA Partners on two Statewide Roadway Design Projects and two sections of the Mountain Parkway. Each time I have found them to be thorough, knowledgeable, easy to work with, and extremely responsive. Their designs are well thought out, with "The Big Picture" of the project in mind. They always go the extra mile and don't nickel and dime on any of our projects. Most recently they were contracted to develop one alternate for a Statewide Roadway Project in Wolfe County. At a Project Review Meeting they arrived with three separate alternates, one of which had not been considered and was ultimately chosen as the preferred alternate for a substantial cost savings."

SIMILAR PROJECTS—CONTRACT #1

Versailles Road Corridor Study | Fayette County

EA Partners performed a planning study for the LFUCG to provide gateway corridor improvements along Versailles Road from Parkers Mill Road to Oliver Lewis Way. An extensive site inventory was performed and cataloged to assist in developing improvement concepts. EA Partners analyzed lane diet opportunities to add multi-modal connectivity, provide separation between pedestrians and vehicles and improve pavement drainage while avoiding large utilities. The study also assessed using landscaped medians to provide aesthetic entry ways and to provide access management. EA Partners provided detailed cost estimates for use in obtaining future funding.

KY 298 | Roundabout | Daviess County

The KY 298 intersection improvement project examined an existing four-legged, signalized intersection in Owensboro, Kentucky. Located in an urban setting, KY 298 had single lane approaches, no turning lanes and heavy AM and PM turning movements resulting in significant delays. The addition of turn lanes required excessive storage lengths and cycle times. A solution with dual-left turn lanes proved problematic due to buildings on either side. Ultimately a Multi-lane Roundabout was selected by the Public and KYTC; which reduced the typical section and storage requirements. All alternates were evaluated for approach and intersection Level of Service; queue length; approach delay; intersection delay; Right of Way impacts; Utility relocations; construction cost and constructability. VISSIM traffic simulations were used to visually the operation of each chosen alternate.

Versailles Streetscape Renovation | Phase III | Main Street | Woodford County

The LPA project was for three blocks of streetscape design on North Main Street in downtown Versailles, Kentucky. The project provided new curbs, sidewalks, landscaping and other fixtures to complete the Main Street corridor. The project involved a considerable amount of coordination with the LPA Coordinator for District 7 and BGADD. It began with a project walk through to assess, evaluate and coordinate potential environment issues and concluded with successful consent releases from several properties for easements.

Old Frankfort Pike (KY 1681) Re-alignment/Widening | Town Branch Trail Mid-Block Crossing | Fayette County

EA Partners was contracted by the LFUCG to create a mid-block crossing of Old Frankfort Pike at McConnell Springs Road for a multi-modal trail. As part of this crossing, approximately 1,750-ft of Old Frankfort Pike was widened and added turn-lanes, curb and gutter, and storm sewers. The grade of Old Frankfort Pike was modified to achieve adequate sight distance, which resulted in re-aligning the road to avoid a rock wall. The project required EA Partners to perform traffic and signal warrant analyses. In addition to the construction plans, specification documents and KYTC Encroachment Permit, EA Partners prepared legal descriptions and plats for Right of Way and Easement acquisition.

LFUCG Expansion Area Boulevards & Parkways | Fayette County (Hays Boulevard, Polo Club Boulevard, Blackford Parkway, and Providence Place Parkway)

In July 1996 the LFUCG adopted the Expansion Area Master Plan which defined proposed public improvements (roadways, sanitary sewers, stormwater management areas, etc.). Since 1996, EA Partners has designed, bid, and managed construction of over 70% (5.25 miles) of the currently built boulevards and parkways. Being reimbursable public improvements, each project required strict adherence to LFUCG Regulations, Procedures and Policies relative to design, bidding, and construction. In each project EA Partners successfully oversaw all phases of project development to insure that LFUCG regulations were met. Each project presented its own challenges, one of which was closing of Man O War Boulevard for multiple months to raise its elevation 20-ft for the construction of Blackford Parkway and its associated 2,000 acre stormwater management facility.
