EQUAL OPPORTUNITY AGREEMENT

The Law

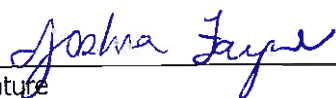

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:
The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.
- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:
The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

It is the responsibility of the Contractor to review each location visually prior to submitting a bid to verify mowing area, topography, site constraints, etc. Acreages provided in Section C are approximate mowing acreages. B.1.16 Selected contractors shall be prepared to meet the following mowing schedule, evenly staggered to minimize excessive clumping and provide for a manicured look:

Estimated Number of Cuts Per Month by Area Type

June	3 to 4	3 to 4	3 to 4	2
July	2 to 4	2 to 4	2 to 4	2

September	3 to 4	3 to 4	3 to 4	2
October	2 to 3	2 to 3	2 to 3	1

B.1.17 The estimated number of cuts per month provided in the above table is not a guarantee of work. Number of cuts is variable and will be determined by the Division of Environmental Services each month depending upon weather and budgetary constraints.

B.1.18 LFUCG may request additional cuts due to special events or other unforeseen circumstances. Contractor is to respond to additional cut requests as soon as possible but no longer than 48 hours. Verified weather conditions at mowing locations may extend contractor response time.

B.2.1 Turf mowing shall consist of using a zero turn mower or similar mower including a push mower to cut grass to a maximum height of 4 inches.

B.2.2 String trimming / weedeating shall consist of using a string trimmer to cut areas that a mower cannot maintain.

- North Zone - the area of Fayette County located north of Versailles Road and Winchester Road, including Winchester Road.
- South Zone - the area of Fayette County located south of Versailles Road and Winchester Road, including Versailles Road.
- Obstacles - any objects that stand in the way or holds up the mowing process. This may include but not limited to sign posts, light posts, fences, guard rails, headwalls, utility boxes, bridge end abutments, trees and landscape plantings.

- No mow zones - areas along creeks and drainage areas that will not be mowed to help reduce soil erosion. Once established these areas are not to be mowed unless with prior written authorization.
- Litter / Debris - non-organic items that have been discarded or washed or blown into a work area such as tires, plastic, paper, metal, glass, cans, bottles, etc.
- Hardscapes - any asphalt or concrete surface including but not limited to sidewalks, curbs, gutters, parking lots, roads, etc.

B.3 Specifications for Mowing

- B.3.1 Practice safety first; all safety measures, equipment, guards, and chutes are in place while mowing. Always mow with the safety of the operator, others, vehicles, and property in mind. Contractors are required to follow OSHA and Department of Transportation regulations regarding employee safety.
- B.3.2 All mowing along roadways shall follow all requirements for traffic control and traffic control devices of the MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (MUTCD), published by the Federal Highway Administration.
- B.3.3 Contractor employees shall wear HI VISIBILITY clothing (i.e. vest, shirt, or jacket) and proper attire remaining fully dressed during the performance of all work under this contract, whether in a roadway or not. Working without a shirt or appropriate closed toe protective footwear is prohibited.
- B.3.4 Public walkways and sidewalks shall not be blocked to pedestrian traffic while performing mowing operations.
- B.3.5 All mowers used for mowing ROW and Medians shall be fitted with mulching blades with the discharge pointing down.
- B.3.6 All mowing associated with this contract shall be turf mowing to a grass height between 3 and 4 inches in height. Scalping shall be avoided.
- B.3.7 All mowing shall be performed to minimize and/or eliminate projection of grass onto hardscapes, streets, sidewalks, trails, or gutters. All grass clippings shall be removed off of hardscapes prior to leaving the work site with a backpack blower, sweeping, raking, etc.
- B.3.8 Shred all excess clumps of grass. Reduce speed to reduce clumping of grass. Mowing blades are to be sharp to prevent tearing of grass and minimize clumping. In the case of excessive grass clippings or other material which could cause a stormwater blockage or other potential problem, the Contractor shall remove it from the site and properly dispose of it.

B.3.9 At no time shall the Contractor allow mowed clippings or litter or debris to be blown, swept, or raked into any planting bed, tree mulch ring, gutter, storm drain, yard inlet, curb inlet, or drainageway, swale, or creek.

B.3.10 All designated "no mow zones" shall be off limits to mowing or string trimming. These areas will be defined for the selected contractors prior to the first mow.

B.3.11 Trees, shrubs, and landscaping shall be protected at all times.

- ROW and Medians: Most trees will have been protectively mulched by the Division of Environmental Services prior to start of mowing operations. This mulch is placed in part to keep mowing equipment from coming too close to the trees or shrubs and eliminate the need for string trimming. If the Contractor comes across trees or landscaping in ROW or median areas that have not been mulched, the Contractor shall immediately inform the Division of Environmental Services contract manager. The Contractor shall stay 2 feet away from unmulched landscaping or trees if found during mowing operations in ROW or medians (Environmental Services staff shall address these areas once informed).
- Greenways and Water Quality Lots: The Contractor shall keep mowing operations 2 feet away from landscaping and trees. Typically, string trimming around trees or landscaping will not be required in greenway or water quality lots, except in areas of mulched or clearly defined planting beds.
- Facilities: The Contractor shall keep mowing operations 2 feet away from landscaping and trees. The Contractor shall carefully string trim around landscaping and trees, avoiding hitting them with the string. (It is LFUCG's preference to leave some higher grass around a tree than damage a tree.)
- The Contractor shall not blow grass clippings onto planter beds, landscaping, or mulch rings.

B.3.12 The Contractor shall string trim to remove vegetation around obstacles such as utility poles, guard rails, fences, buildings, steps, and headwalls. The Contractor shall also string trim grass and weeds growing in cracks on sidewalks and along street curbs abutting the properties.

B.3.13 The following activities are **not** included in this contract and will be handled by others:

- Edging of sidewalks
- String trimming of concrete medians
- Weed pulling/ maintenance of landscaping beds, trees, and mulched areas
- Use of herbicide.

B.4 Litter and Debris Removal

- B.4.1 This operation shall include the removal of **all** litter and/or debris from all designated mowing areas including landscaped areas, hardscapes, curbs and gutters **prior to mowing.**
- B.4.2 The Kentucky Pride Litter Grant requires additional recordkeeping for picking up litter and debris. The records consist of street name, road miles, date serviced, and number of bags collected or weight of debris (see Section B.5 Invoicing and Inspection).
- B.4.3 The Contractor shall be responsible to remove and dispose of limbs smaller than three (3) inches in diameter. Contact the Division of Environmental Services to remove limbs of three (3) inches in diameter or larger.

B.5 Invoicing and Inspection

- B.5.1 Payment Terms are Net 30.
- B.5.2 Invoices must list each location serviced, date serviced, and reference purchase order number.
- B.5.3 (Right of Way and Median Mowing Only): Invoices must list the following Kentucky Pride Litter Grant information: street name, road miles, date serviced, number of bags collected or weight of debris.

Invoicing cost for litter pickup will be ten percent (10%) of the cost of mowing the ROW and Medians area. *Example: Mowing of Richmond Road ROW and Medians unit price is \$1,000 per cut. Invoice litter pickup as \$100.00 and mowing as \$900.00.*

- B.5.4 Invoices may be emailed to both **splueger@lexingtonky.gov** and **cclay@lexingtonky.gov**, or mailed or hand-delivered to:

LFUCG DIVISION OF ENVIRONMENTAL SERVICES
200 E. MAIN STREET, FLOOR 9
LEXINGTON, KY 40507

Emailing is preferred.

- B.5.5 Work sites must be inspected by LFUCG personnel prior to approval of invoices for processing.
- B.5.6 The Contractor shall inform the Division of Environmental Services contract manager via email or phone the same day that services are to be performed, preferably in the morning. Contact information shall be provided.
