DPP will provide a new or repaired part, at its election, in place of any part which is found upon its inspection to be defective in material or workmanship during the period prescribed above. Such part will be repaired or replaced without charge to initial user during normal working hours at the place of business of a DPP dealer authorized to sell the type of equipment involved or other establishment authorized by DPP. User may be required to present proof of purchase at the time of a warranty claim.

Arrange with warranty service provider to have the machine repaired per the terms of this Warranty Policy. Dealer travel up to 200 miles each way will be considered for warranty on machines that were manufactured without running gear or machines that have two or more axles. Single-axle machines must be presented at an authorized dealer location for warranty repairs.

Components such as non-DPP engines may require the component manufacturer's representative to perform warranty repairs.

Only an authorized Kubota dealer can perform Kubota® engine warranty repair.
