## EQUAL OPPORTUNITY AGREEMENT

### Standard Title VI Assurance

The Lexington Fayette-Urban County Government, (hereinafter referred to as the "Recipient") hereby agrees that as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation, it will comply with Title VI of the Civil Rights Act of 1964, 78Stat.252, 42 U.S.C. 2000d-4 (hereinafter referred to as the "Act"), and all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, (49 CFR, Part 21) Nondiscrimination in Federally Assisted Program of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964 (hereinafter referred to as the "Regulations") and other pertinent directives, no person in the United States shall, on the grounds of race, color, national origin, sex, age (over 40), religion, sexual orientation, gender identity, veteran status, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Recipient receives Federal financial assistance from the U.S. Department of Transportation, including the Federal Highway Administration, and hereby gives assurance that will promptly take any necessary measures to effectuate this agreement. This assurance is required by subsection 21.7(a) (1) of the Regulations.

### The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states: *The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.*
- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states: *The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Thank you for the opportunity to offer a proposal for

**1 LR 64R G**

The accompanying proposal has been prepared to give you the complete specification and performance details of the unit best suited for your application. Today, as cost continues to rise, we know you demand a truck that will be the most economical in the long run. Several factors that I believe are important in achieving this goal are, improved fuel economy, reduced maintenance, improved productivity and high resale value.

The enclosed specifications and recommendations have been carefully designed to meet all these objectives. I think that after reviewing this proposal you will come to the same conclusion that so many operators have done before:

"MACK Has What It Takes!!"

I look forward to meeting with you and to discuss any questions you might have regarding this proposal.

Yours sincerely

## Premium Design and Hydraulic Components

From the steel line size to the large hydraulic filters, the EZ Pack Hercules sets the industry standard by offering a premium hydraulic system.

**HYDRAULIC PUMP** - At the heart of the Hercules hydraulic system is the Muncie MLS hydraulic pump. The Muncie MLS hydraulic pump is a flow regulated hydraulic system that offers a "No Kick Out" feature when dumping containers and allows the operator to "Pack on the Run" with no pump damage or over heating.

**HYDRAULIC FILTRATION** - Some manufactures talk about the small micron hydraulic filters as a fix all, but the Hercules also offers the largest return line filter with "In-Cab Service Indicators" for extended hydraulic service life.

**STEEL SCRAPER PACKER CYLINDER** - The HERCULES offers as standard equipment "Premium" Packer Cylinders that features steel "Scraper Rings" and harden cylinder stages for a long service life.

**RUSTPROOF HYDRAULIC LINES** - The Hercules Hydraulic system also offers maximum line sizes through out the system allowing less restriction and faster fluid cooling. Plus all steel lines are made from "Rust Proof" steel and are held in place with high quality clamps for a long service life.

VRS Max 1  
VOICE DISTANCE INDICATOR SONAR VEHICLE REVERSING SYSTEMS

**Commercial Grade Max 1  
VDI Sonar Reversing Aid System**

**Obstacle Detection Vehicle Reversing Aid Solution with  
Voice Distance Indication (VDI) Technology**

The MAX 1 is a heavy duty vehicle reversing system specifically designed for commercial vehicles. It is equipped with stainless steel sensors and a heavy duty weatherproof control box which can withstand harsh weather conditions without any problems. The system "WARNS" the driver or operator with a "beeping" sound indicating potential obstacles are at the rear of the vehicle and then a clear voice "TELLS" the operator the

countdown of the remaining distance in feet as the vehicle reverses. The device is activated when the driver puts the vehicle into reverse. Acoustic sensors installed at the rear of the vehicle will transmit a modulated beam signal that is capable of seeing through fog, rain, smoke and snow in any kind of weather, day or night. When the signal strikes a solid object, it bounces back to the sensor and instantaneously sends a detecting signal to the microprocessor

**VRS Max 1 Key Features:**

- Voice Distance Indication
- Blind Area Alerting
- Sonar Sensor Technology
- Wired or Wireless Amplified Speaker (optional)

**BLIND AREA ALERTING:**  
 As with all sensing systems there are blind areas in the sensing patterns due to the cone or triangular nature in the way the sonar pulse is emitted. Whenever an object moves from a covered area and into one of these blind areas a special warning alert message in a very loud tone "OBJECT IN BLIND AREA" will be transmitted twice or until the operator takes the vehicle out of reverse. This is especially helpful for detecting moving objects such as a pedestrian, an animal, a forklift or other moving vehicles that may be behind your vehicle and in harm's way.

**DETECTING PATTERNS:**  
 The typical performance detecting pattern for the follow object types are:

OBJECT	EFFECTIVE DISTANCE
Concrete Wall	9 to 12 feet
Vehicles	8 to 9 feet
Pedestrian	5 to 6 feet
Post - 3 in diameter	3 to 5 feet
