Reference No. MTKY-A010417-04A

MorphoTrak's Automated Fingerprint Identification System (AFIS) is currently installed at Kentucky State Police (KSP). MorphoTrak is the owner of the software and design, sole developer and sole provider for the AFIS.

The proposed MorphoTrak Latent Expert Workstation is specifically designed to work with the existing AFIS located at KSP.

As the manufacturer of the existing KSP AFIS and software application, only MorphoTrak can provide the MorphoTrak Latent Expert Workstation that uses the same Software processing, searching and matching technology used by the KSP AFIS. These devices use a proprietary software application that incorporates specific encoding algorithms and search routines developed and patented by MorphoTrak.

Specifically:

MorphoTrak does not have other sales channels, partners or resellers. The proposed solution can only be procured and implemented directly from MorphoTrak. As the manufacturer of the existing KSP AFIS subsystem, software applications, and MorphoTrak Latent Expert Workstation, only MorphoTrak can provide the required hardware, software and support.

Should you require further assistance, please contact George Hodges, MorphoTrak Senior Sales Manager, Telephone (407) 595-4438 or Email [george.hodges@morpho.com](mailto:george.hodges@morpho.com)

Sincerely

A handwritten signature in blue ink that reads 'Barry Fisher'.

Barry Fisher  
Vice President, Sales - MorphoTrak
