

Stone Works Construction, LLC

Your Site Development Contractor!

Bill Whitaker, Owner of Stone Works Construction, LLC started business in August of 2018 along with his son Clayton Whitaker. Stone Works Construction, LLC specializes in demolition as well as asbestos abatement testing, asbestos abatement removal, site development, excavation, and trucking.

Stone Works Construction, LLC operates from 1115 Kendall Ave in Portsmouth, Ohio and from 642 Old Hickory Blvd in Old Hickory, TN with five dump trucks, three tractor trailers, as well as a large variety of excavating equipment and is more than equipped to perform almost any project need.

The company holds asbestos abatement certifications in Ohio, Kentucky, West Virginia and Tennessee by the company and employees combined. Stone Works Construction, LLC comes very highly recommended for performing abatement testing and/or removal on numerous projects, including schools, city governments and counties, etc.

Bill Whitaker coordinates operations in the field and office in TN and Clayton Whitaker coordinates operations in the field and office with two other office personnel in OH. Project site operations are overseen by Bill and Clayton Whitaker. Stone Works Construction, LLC has highly qualified supervisors who are in charge of daily operations on various types of projects. Four employees currently hold a commercial driver's license and operate tractor trailers and dump trucks for the purposes of hauling equipment, hauling demolition debris to landfills, etc. Stone Works Construction, LLC employs four equipment operators who are highly qualified to operate the variety of heavy equipment owned by the company, including excavators, loaders, etc.

Stone Works Construction, LLC holds certifications, are members or have been recognized for the following:

- BWC certification
- BWC Safety Council
- Asbestos Hazard Management Planner & Inspector
- Asbestos Hazard Asbestos Specialist
- Asbestos Hazard Evaluation Specialist
- Asbestos Hazard Abatement Contractor
