**SUBJECT: Reallocate Position—Division of Streets and Roads**

The attached action amends Section 21-5 of the Code of Ordinances, reallocating one position of Director of Streets and Roads (Grade 123E) to Director of Streets and Roads (Grade 121E), upon passage of Council.

The Department of Environmental Quality and Public Works requested the approval to remove the Professional Engineering (P.E.) certification from the required minimum qualifications for the position due to the fact it is an unnecessary minimum requirement for the duties and job responsibilities of the position. This position does not supervise other Engineers with a P.E. as do the Director of Engineering and the Director of Water Quality. The Forestry Section is no longer a section within Streets and Roads which further justifies removal of the P.E. requirement.

The there is no fiscal impact for FY 2014.
