RE: Transfer of Control Agreement

Time Warner is acquiring Insight Communications. As result, LFUCG's franchise agreement with Insight would be impacted as Time Warner would control the operations of Insight. Ms. Linda Ain has been retained to assist in reviewing this matter, which involves determining whether Insight is in compliance with the terms of its franchise agreement and whether Time Warner is capable of adequately providing cable service.

Council approval of the attached Transfer of Control Agreement is recommended and sought. This agreement would not materially impact the current franchise, which runs to September 2012.

Ms. Ain will be available at the December 6, 2011 work session should you have any questions.
