Re: Lynn Imaging – Cx MFP Series

To whom it may concern:

Please be advised that Lynn Imaging remains the only Authorized Dealer for Service and Support in that great state of Kentucky for the Contex/Canon CSCx3615R MFP System with Nextimage Repro software. With offices in Frankfort, Lexington and Louisville, Lynn Imaging sales and support staff are uniquely qualified to sell and support Contex/Canon MFP technologies including the HD, SD, XD and IQ series of camera and contact array technologies as well as the various Contex Nextimage software applications that drive and enhance the features of the Contex MFP line.

I have personally been associated with the Lynn Imaging team for over a decade, and having attended various training sessions, sales demonstrations and product installations with their dedicated staff and I can personally recommend them as one of the most outstanding organizations representing the Contex/Canon MFP line in North America.

National Azon Equipment is very fortunate to distribute Contex/Canon technologies across the United States and are also proud to represent this fine technical product line and to have Lynn Imaging as one of our Authorized Resellers. We remain available to discuss product technology, workflow application and support at any time. On behalf of Lynn Imaging, we thank you for your interest in Contex / Canon MFP System.

Sincerely,

A handwritten signature in black ink, appearing to read "Rich Gigl", written in a cursive style.

Rich Gigl  
Vice President of Sales & Marketing
