A. Yes, sand filter media was installed at similar slopes in the other stormwater improvement areas in Southland Park. The sand filter media is only to be installed at the downstream end of the project, below elevations of 974'.

5. Q. Can a portion of parking lot be used for laydown area?

A. Yes. Contractors will be required to repair any damage to the parking lot or existing structures that may occur during construction. The existing gravel road along the project area will also need to be restored following construction.

6. Q. Are all materials excavated to be left onsite?

A. From our earthwork volume estimates, there will be approximately 20 cubic yards of soil that will need to be hauled off site.

#### 4. BID SCHEDULE - SCHEDULE OF VALUES

The Bidder agrees to perform all the Work described in the Specifications and shown on the Plans for the following proposed lump sum and/or unit prices, if applicable, which shall include the furnishing of all labor, materials, supplies, equipment and/or vehicle usage, services, all items of cost, overhead, taxes (federal, state, local), and profit for the Contractor and any Subcontractor involved, within the time set forth herein. If unit prices are applicable, Bidder must make the extensions and additions showing the total amount of bid.

Form of proposal must include unit bid prices written in words, unit price written in numbers and total amount bid (unit price x quantity) per line item OR bid may be considered non-responsive. In case of price discrepancy, unit bid price written in words will prevail followed by unit price written in numbers then total amount bid per line item.

If a discrepancy between the unit price and the item total exists, the unit price prevails except: If the unit price is illegible, omitted, or the same as the item total, item total prevails and the unit price is the quotient of the item total and the quantity.

If the unit price and the item total are illegible or are omitted, the bid may be determined nonresponsive. If a lump sum total price is illegible or is omitted, the bid may be determined nonresponsive.

For a unit price based bid, the sum of the item totals is the bid amount the Division uses for bid comparison.

The LFUCG's decision on the bid amount is final.

Bids will be evaluated based on the following weighted criteria:

- 1. Past record and performance on contracts with LFUCG with respect to control of cost, quality of work and ability to meet schedule. Provide General Contractor's Project Experiences with LFUCG or similar Government agency in the past 15 years with contact info (10 points);
- 2. Capacity. Provide General Contractor's number of current active projects with associated % of completion (15 points);
- 3. References: Provide at least two client references and one subcontractor/supplier reference for General Contractor, including references for all active projects listed above related to Capacity (20 points);
- 4. References: Provide at least one client reference for the following Subcontractors (5 pts);

Cost of services (50 points).

Pricing should be submitted in the Line Items tab on IonWave. Pages P-8 must be fully executed and attached to bid submission or bid will be considered non-responsive.
