This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

- (1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance.

Provided, however, that in the event a contractor becomes involved in or is threatened with litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

REQUEST FOR PROPOSAL
RFP 21-2022
GREEN CHECK

OVERVIEW:

Purpose of Solicitation

The City of Lexington seeks proposals from qualified contractors to serve as the Green Check Outreach Specialist. Green Check recognizes businesses and organizations in Lexington-Fayette County for their green initiatives and helps them expand their sustainability efforts. Specifically, the Outreach Specialist will:

- Recruit and audit new Green Check businesses (8 to 10 per year)
- Renew certifications for current Green Check businesses as they expire (certification is valid for three years)
- Maintain relationships with current Green Check businesses
- Plan and execute Green Check networking and informational events (minimum of two)
- Plan and carry out the Green Check Recognition Ceremony
- Maintain the Green Check website
- Provide information on Green Check promotional opportunities to the city (i.e., What are the businesses doing and how?)

Background

The first Green Check businesses were certified in 2016. Currently, there are 46 certified businesses and 9 businesses in the process of being certified. The program is free, and certification is valid for three years. Members earn certification by completing a Sustainability Scorecard with the help of the Outreach Specialist, who then provides the business a comprehensive report and a sustainability score. Depending on their score, businesses are recognized as a member or as a bronze, silver or gold participant. Recommendations for expanded sustainability efforts are made, and ongoing support is available. The scorecard is designed to meet the needs of businesses and organizations of any size and type. Participating businesses may own or lease their property.

Budget

Responses shall account for the complete cost of carrying out the work proposed. With only limited exceptions (noted within the RFP), the city will not purchase materials for the contractor's use. Respondents should include budget lines for all related expenses, such as catering for events and tabling to promote the program, in their proposals. Reimbursement will only be provided for expenses directly and fully related to carrying out the activities outlined in this RFP. Other expenses, such as office technology and professional development for the

contractor's staff, should be reflected in the hourly rate charged for staff time as part of the contractor's overhead costs. The contractor will not be reimbursed for any expenses or activities not directly and fully related to the scope of work outlined in this RFP unless approved in advance by the city's contract manager.

The total annual cost for the Green Check Program should not exceed \$65,000. If the respondent believes they cannot complete the scope of work outlined in the RFP within that budget, they should submit a complete proposal that reflects the full budget required for the requested work. The respondent has the option of identifying which component(s) of the requested work they would omit in order to meet the budget, with an explanation of why they recommend cutting the identified activity(s). Ultimately, the city will work with the selected contractor to finalize the scope of work within the constraints of the budget.

Invoicing and Reporting

The selected contractor should invoice the city monthly or quarterly. Each invoice shall be accompanied by an activity report. Proposal budget and invoice templates are provided with this RFP. Respondents should use the budget template when presenting their proposed budget. A report template and checklist is also provided. The invoice template, report template and report checklist may be modified by mutual agreement between the selected contractor and the city's contract manager. Invoices to the city that include reimbursable expenses should include documentation of the expenses such as receipts and copies of paid invoices. Travel logs should be kept, and may be requested by the city at any point. The full cost of mileage should be passed on to the employee traveling in their personal vehicle. If a business vehicle is used, the contractor may keep the reimbursed mileage.

Ultimately, staffing changes must be approved by the city's contract manager.

It is anticipated that the term of this agreement will be effective through June 30, 2023, assuming a contract start date in July 2022, pending Urban County Council approval.

SCOPE OF WORK:

GENERAL TASKS

Project Management

The selected contractor shall provide project management services to ensure fulfillment of the Scope on schedule and within budget. A contract manager from the city will be identified. This person will serve as the single point of contact for all aspects of the contract.

The business or organization awarded this contract will identify a single individual to serve as the Green Check Outreach Specialist.

Meetings

The Outreach Specialist will meet at least once a quarter with the city's contract manager. They may also be invited to meetings with EQPW staff to provide updates on tasks completed and work in progress. Additional task-specific meetings may also be required. The Outreach Specialist has the option to work part or full-time out of LFUCG offices in order to better collaborate with city staff. The Outreach Specialist will also provide a year-end summary presentation to key city staff in mid to late May each year.

Attribution and Review

When engaged in Green Check work, the contractor shall make all reasonable efforts to communicate that the program is a city-provided service. If the Outreach Specialist wears gear (shirts, jackets, etc.) with the contractor brand when conducting contract-related outreach, the gear must be co-branded with the city logo as approved by the city contract manager. The budget for contractor proposals should take the cost of this gear into account; the city will not purchase gear for the selected contractor.

When presenting the program, all parties will describe Green Check as "a program of the City of Lexington." Materials should include the Green Check and/or city logo provided to the contractor by the city's contract manager. Some materials will be created by the city and provided to the contractor for production or in printed format.

Content and specifications (e.g., paper type, ad buy details, etc.) for all contractor-created Green Check materials distributed to businesses or the public, whether online or in print, must be approved by the city's contract manager in advance. Materials should be provided to the city's contract manager allowing for a minimum five day turn-around. Preferably, the city's contract manager will be given advance notice that the materials will be submitted for review so that they can schedule a time to do so. More lead time may be required during especially busy times of year (i.e., spring) if such notice is not made.

RECRUITING NEW BUSINESSES

The selected contractor shall recruit 8 to 10 new Green Check participants each year, representing a diversity of businesses. Businesses must be located in Lexington-Fayette County. Participating businesses can be a local branch of a regional or national chain or a Lexington-based business. Businesses may own or lease their property. All types and sizes of businesses are welcome.

Recruitment may occur through paid ads (digital or print), social media outlets, tabling at appropriate conferences, the Green Check networking and informational events (details below), etc. EQPW will provide a Green Check tablecloth and display. The brochure will be created and ordered by EQPW. Other Green Check promotional items (pens, post-it notes, etc.), if used, should be purchased through this contract, though the designs and specs must be approved by the city's contract manager. Paid ads, conference registration and other expenses should be covered through this contract, though the city's contract manager should approve the item/event prior to purchase. Social media ads should originate from the city's Live Green Lexington platforms. The contractor and participating businesses are encouraged to share them. The city will cover the cost of ads placed through the Live Green Lexington platforms.

Interested businesses must apply using the application form at LexingtonKY.gov/GreenCheck. The contractor will recommend new enrollees to the city. The city's contract manager will have the final decision on which businesses are accepted. The application form and/or process may be amended by mutual agreement of the contractor and the city's contract manager.

A proposed recruitment plan should be included in the contractor's response to this RFP.

Timeline

Recruitment should take place throughout the year with a draft recruitment plan presented to the city's contract manager by August 1. The plan should be finalized no later than August 31, though adjustments may be made as opportunities present themselves (e.g., conferences for tabling). The heaviest push for applicants will take place in September, October and early November, around the time (re)certifying businesses are being recognized. Green Check applications will be reviewed in early winter, with new businesses selected no later than mid-December.

SUSTAINABILITY AUDITS and REPORTS

New businesses must earn the certification by completing a sustainability audit (using the Sustainability Scorecard) with the help of the Outreach Specialist, who will then provide a sustainability score along with a comprehensive Sustainability Report.

Depending on their score, businesses are recognized as a member or as a bronze, silver or gold participant. There are minimum requirements for businesses to receive certification, even at the member level. The Outreach Specialist will help an interested business achieve certification

at whichever level they desire, though it may take several years for a business to move to a higher status.

The selected contractor will also assist certified businesses in maintaining their status by updating their sustainability audit every three (3) years. Businesses that wish to upgrade their certification may choose to complete an audit before their required renewal period. The process for renewal is the same as the certification process for new businesses, though typically takes significantly less time.

Best practices identified through the audit process should be featured on the Green Check website in the business' profile and through the blog, as well as provided to the city's contract manager in formats that can be shared through social media (e.g., short videos, photos with short descriptions, etc.).

Content

The selected contractor shall use the provided Green Check Sustainability Scorecard and a similar template to the Sustainability Reports found at www.LexingtonKY.gov/GreenCheck. The Scorecard and/or report template may be modified by mutual agreement between the contractor and the city's contract manager. Changes must be agreed to in writing.

Timeline

All audits for the year, new and renewals, should be complete by June 30 each year. The contractor will complete the audits on a schedule as they see fit to meet the targets outlined in this RFP (i.e., 8-10 new businesses; updating audits for businesses that are currently certified to keep them active in the program).

Sustainability reports should be provided to the businesses within two weeks of completing the audit. Final sustainability reports should be uploaded to the Green Check website as part of each business' profile within two weeks of providing it to the business.

Information on best practices should be provided to the city throughout the process to ensure there is shareable information available year-round.

ONGOING SUPPORT

The selected contractor will actively assist Green Check businesses in achieving sustainability improvements. This support may be offered to help new businesses meet minimum member requirements or to assist current businesses in new initiatives that may improve their Sustainability Score on a future audit. Support may take the form of employee workshops, policy or procedure templates, business-specific signage, displays, meetings with the city's Sustainability Program Manager, etc. The EQPW Public Information and Engagement section will provide materials such as fats, oils and grease (FOG), flushable and/or recycling signage, display materials, handouts for workshops and other "Live Green Lexington" branded items. If the Outreach Specialist would like to offer materials that are not currently available, s/he

should work with EQPW to determine what materials are needed and who will create and purchase them. In general, materials specific to the Green Check businesses should be purchased through this contract; materials that would have a broader application may be created and purchased by EQPW.

At a minimum, the Outreach Specialist should check in with all Green Check businesses twice per year (not just those undergoing (re)certification), in addition to the invitations to networking and informational sessions. Support may be requested by a business at any time. Or, the support may be offered in response to a conversation that happens as a result of one of the check-ins.

Content

The ongoing support should directly relate to items covered by the Sustainability Scorecard.

Timeline

The contractor will offer support to Green Check businesses throughout the contract period.

NETWORKING and INFORMATIONAL EVENTS

The Outreach Specialist will coordinate a minimum of two networking and informational sessions per year. These events will target current Green Check participants as well as other businesses interested in sustainable practices, even those not currently ready to join the Green Check program.

The purpose of these events is threefold:

1. Highlight and engage current participants.
2. Facilitate networking among sustainability-minded business leaders.
3. Provide practical, proven information on green business practices to any business in Lexington-Fayette County.

These sessions may also assist with recruiting businesses for future years.

The Outreach Specialist will plan and promote these events. Planning includes identifying a topic of interest, recruiting speakers (often from a Green Check business or the city), securing the venue, providing food and beverage and anything else needed to make the event a success. The goal is to have a minimum of 20 participants representing at least 12 businesses at each event.

Promotional costs should be covered by the contract, though the city's contract manager must approve ads before they are placed. Social media ads should be placed through the city's Live Green Lexington platforms.

The events will be free to Lexington-Fayette business representatives. Tickets will be managed through EventBrite or a similar website.

The City of Lexington will be listed as the hosting organization for all networking and information events on promotional materials and the ticket site. Businesses and organizations that want to co-host by offering space, financial support, in-kind donations, promotional support or similar are welcome.

Content

Topics of the networking and informational events should be in keeping with those covered by the Sustainability Scorecard. Topics that will draw in a diverse group of Green Check and non-Green Check businesses should be given priority.

Timeline

All networking and informational sessions should be complete by June 30 each year. The contractor can schedule these sessions as they see fit to meet the targets outlined in this RFP. However, a draft schedule of sessions should be presented to the city's contract manager by mid-August, and the schedule, topics and locations for the year should be finalized before the Green Check Recognition Ceremony in September (details below).

Targeted promotion for each event should begin 4 to 6 weeks out, with the full schedule of events available at www.LexingtonKY.gov/GreenCheck as soon as it is finalized.

RECOGNITION

The Outreach Specialist will plan and execute a recognition ceremony for businesses who complete their Green Check (re)certification during the preceding year. All Green Check certified businesses will be invited, as will businesses who have expressed interest in the program.

The ceremony should be held at a participating business, with tours of the business available after the ceremony highlighting their sustainability efforts. Beverages and light snacks should be available, ideally provided by a GreenCheck business(es). Email invitations are acceptable. Registration should be managed through EventBrite or a similar website. Each business will receive a plaque, window clings for their storefront(s) and/or vehicle(s), and brag sheets highlighting their sustainable practices. The contractor will order and pay for the plaques and brag sheets which will be the same or similar to what has been provided in the past. Past awards were purchased at a cost of approximately \$100 each. The city will provide templates for creating the awards and brag sheets in InDesign or Illustrator; the city's contract manager will approve them before they are ordered. The city will provide the window clings and a photographer to take group and individual business photos.

In addition to the ceremony, the (re)certified businesses will be recognized with media – a press release, social media posts and paid ads. The Outreach Specialist will draft a press release that the city will distribute. Throughout the contract period, the Outreach Specialist will provide social media-friendly content (still images, short videos, short text, etc.) on each of the

business' sustainable practices that can be used on the Live Green Lexington platforms. The city will share information on individual businesses leading up to the award ceremony, and will post about the award ceremony once it is over. The city will incorporate Green Check business recognition in its annual media contracts through outlets such as local print publications and public radio. Those costs will be covered directly by the city.

The recognition plan may be altered by mutual agreement between the Outreach Specialist and the city's contract manager. Changes must be agreed to in writing.

Content

The ceremony will start with a statement of welcome from a representative of the host business and the Outreach Specialist. Then, the Commissioner of Environmental Quality and Public Works or other city official will make a brief statement before distributing awards. Each Green Check business being recognized will have time (approximately 3 minutes) to make a statement about why they chose to participate, what they found helpful and/or what they've achieved/hope to achieve in the future.

Timeline

The event is held during the work week in mid to late September each year, either during an extended lunch period or late afternoon (e.g., 3:00 p.m. to 5:00 p.m.).

PROGRAM COMMUNICATION

The Outreach Specialist will work closely with the city to effectively communicate with program participants, potential participants, Lexington businesses interested in sustainable practices (but not necessarily the Green Check program) and the general public.

Website

The Outreach Specialist will be responsible for creating and uploading content to the Green Check website. Businesses selected for Green Check should be added to the site within 30 days of notification. Reports should be updated using the schedule outlined in the Sustainability Audits and Reports section. Resources that would be helpful to Lexington businesses interested in sustainable practices should be added to the resource page as they are discovered. This includes information on all upcoming networking/informational sessions. Resources may need to be created if an unmet need is discovered through conversations with engaged businesses. The Outreach Specialist will work with the city's contract manager to determine which entity is best positioned to create the resource.

The contact section of the website should include the Outreach Specialist's name and phone number with GreenCheck@LexingtonKY.gov as the email address.

The alias www.LexingtonKY.gov/GreenCheck will be the web address included in all communications about the program, though the primary address is www.greenchecklex.org.

The city's contract manager may request changes to content, format or layout if s/he deems that such changes are in the best interest of the program.

Blog

The blog should be updated regularly. At a minimum, a blog highlighting key points, participant takeaways, etc. from each networking/informational session should be posted within two weeks of the session. Additionally, quarterly posts should be created on topics of interest to or about the Green Check (and potential Green Check) business audience. The city will promote blog posts via Live Green Lexington social media outlets once the Outreach Specialist has informed the city's contract manager a new post is available.

Email

GreenCheck@LexingtonKY.gov will be the contact email address listed on all official Green Check documents. The Outreach Specialist will be responsible for responding to emails sent to that address. The city's contract manager should be copied on all initial responses.

Photographs and Videos

The Outreach Specialist is encouraged to capture still photos and short videos showing Green Check businesses' best practices in action. As the audit is being completed, the contractor should highlight key features at each business with high quality stills, high quality short videos and longer form videos. The city will provide photographers and videographers for this purpose, if needed. The stills and short form videos will be shared via the Live Green Lexington social media outlets.

Social Media

The Live Green Lexington outlets will serve as the primary social media outlets for Green Check. The city will manage the Live Green Lexington outlets and pay for ads/boosted posts placed there, up to \$300. The Outreach Specialist will provide content for all outlets throughout the year, along with social media handles for the businesses involved. The contractor is encouraged to share these posts if they have social media accounts. The Outreach Specialist should communicate with businesses when they are featured, and encourage them to share the posts as well.

Timeline

There should be regular updates to the website. A summary of website updates and metrics (number of: visitors, unique visitors, visitors to the blog, etc.) should be submitted with the invoices, covering the period since the previous invoice. Social media content should be provided to the city's contract manager for the Live Green Lexington social media outlets on a regular basis promoting upcoming networking/informational sessions and highlighting participating businesses. Email inquiries should be responded to in a timely manner, ideally

within a business day. Photographs and videos for all businesses receiving (re)certification in September should be complete by June 30.
