TARGET AUDIENCE

- 1) **Education Partners:** Includes students, schools, teachers, libraries, etc. The LASC offers WOW outreach and field trips for over 12,000 school children; Urban Ecology program for over 400 school children in four at-risk elementary schools; Science Explorers program for over 240 students; Discovery Night program for over 3,500 children and adults; LASC classes and workshops for over 9,000 children and adults.
- 2) **Community-at-large:** LASC reaches the general public through the website, printed materials, e-newsletter and educational displays at LASC.

- 2) ***Martin Luther King / East End Neighborhood:*** Residents of the surrounding neighborhood attend Discovery Night and Family Fun Day, take classes at LASC, and visit regularly.

PROJECT PLAN ELEMENTS

- 1) ***DEVELOP ENVIRONMENTAL EDUCATION MATERIALS:*** Develop new and build upon existing curricula that focuses on water quality, stormwater issues, and water conservation. See below for details on each program. Additional educational materials focusing on water quality and quantity that are to be developed include:
 - Printed teacher lesson plans and best practices for implementation in classrooms.
 - E-tips added to LASC website, Email newsletters, and Twitter and Facebook sites.
- 2) ***INCORPORATE WATER QUALITY CURRICULA INTO EXISTING LASC PROGRAMS:*** Each of the established programs will have an area of focus on water quality, including:
 - a) ***Wonders on Wheels (WOW) – Wonderful Water:*** This program provides in-school, hands-on presentations. With funding from previous Stormwater Quality Incentive Grant programs, LASC was able to create “*Aquatic Habitat Adventure*”, a presentation to take into the schools and with further development, will be presented as a part of this grant program. Activities will focus on Core Content in the sciences through presentations that are taken into schools, libraries and community centers within Fayette County. Title One schools will receive first opportunity to take advantage of these programs.
 - b) ***Science Explorers:*** This 12 week after-school program is to be five Fayette County Elementary Schools. The lesson will focus on water for sustaining life, water sampling, testing, groundwater sources, conservation and animal habitats as part of this program.
 - c) ***Urban Ecology:*** This five-day program provided to 4th graders in four elementary schools will focus on the concepts in Kentucky’s Core Content for Science. Issues of conservation and water quality are taught through interactive games and hands on activities such as “stream in a bottle”, an activity which demonstrates the effects of pollution in a freshwater stream.
 - d) ***Rain Garden Education Workshops:*** LASC in partnership with Bluegrass Greensource will present a rain garden workshop to engage the residents of the N. Martin Luther King and William Wells Brown neighborhoods in learning about water conservation efforts. The workshop will walk the residents through the basics of creating, designing, installing, and maintaining rain gardens. Also, native Kentucky plants will be made available to participants for installation in their own rain gardens.
 - e) ***Ongoing educational displays within LASC:*** LASC displays educational content throughout its building and grounds each year. These semi-permanent displays showcase a wide range of educational content for visitors to the LASC including aquariums with live animals on display for public education, rain gardens, native Kentucky plant gardens and a waterfall and stream fed by collected rain water in a rain harvesting system.

PROJECT SUSTAINABILITY

- 1) The curricula and new program elements developed with this grant will be used in LASC programming for years to come.
- 2) LASC has dedicated personnel to plan and coordinate existing and future programs.

PROJECT SUCCESS MEASURES

- 1) LASC has established “full capacity” participation levels for each program and will track the numbers of participants in each program and event. LASC anticipates reaching over 12,000 children directly through WOW, Science Explorers, Urban Ecology, and field trips. LASC also anticipates reaching an additional 12,000 to 15,000 through exhibits and presentations at the LASC during public programs including Discovery Night, Gallery Hop, Discovery Saturdays, along with outreach including website, door-to-door, e-newsletters, and the public grounds.

- 2) Teachers involved with WOW, Science Explorers, Urban Ecology, and Professional Development will be provided program evaluations which will be reviewed and utilized for future program planning.
