Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;
- (3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and
- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

- (1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.
- (2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

III. Proposed Project Description

LFUCG wishes to retain an A/E team to provide services for the above mentioned project based upon the Programming and Planning Study and subsequent prototype concept plan design prepared by Schrader Group Architecture, LLC (SGA), dated August 15, 2012, as revised, and attached to this RFP.

LFUCG and the Federal Emergency Management Agency (FEMA) Chemical Stockpile Emergency Preparedness Program (CSEPP) anticipate renovating an approximately 32,000 square foot facility (formerly the LFUCG Youth Services Facility) located at 115 Cisco Road into a new Emergency Services Center. The LFUCG Department of Emergency Management (DEM) currently occupies temporary space to the south end of the building. A phased construction plan will be required that affords DEM continuity of operations during construction.

The new LFUCG Department of Public Safety (DPS) building will ultimately be a multi-function facility with multiple mission critical technology systems crucial to supporting CSEPP, local emergency management, LexCall 3-1-1, 911, public safety dispatch, first responders and LFUCG.

The conceptual floor plan provides for a public entry area allowing secure access to the LexCall 3-1-1 area, the DEM offices and the Press Briefing and conference spaces. The EOC, data rooms and Emergency Communications Center (ECC) are all located farther from the front entry to promote security for these spaces. The data center is located as central to the facility as possible to effectuate the shortest data runs possible to the various agencies.

The existing building shell, infrastructure, roof, systems and finishes will be upgraded in addition to the alterations that will be made to accommodate the program. The finished building will be energy efficient and contemporary in its final form.

The selected A/E firm shall take the concept plans developed by the CSEPP architect and provide the balance of schematic design, design development, construction and permitting documents, bid the project under Kentucky bidding requirements, and provide typical construction administration services per AIA B101-2007 documents.

The total construction budget for this project is \$6,900,000. The architect will be expected to maintain the proposed budget as part of the services provided to LFUCG. This is a fixed construction cost project and, in the event construction bids come in over this budget, the selected A/E firm will be expected to perform all activities, which

may include redesign and rebidding as needed, to bring construction costs within budget without any additional fees.

The selected A/E firm shall provide architecture, structural engineering, mechanical electrical, plumbing, fire protection, voice cabling, data cabling and security system design, including security camera systems and civil engineering. Site surveying and geotechnical engineering will be provided by LFUCG. Land development approval shall be provided by the selected A/E firm; however, actual time for the land development approval process shall be provided on an hourly basis.

The selected A/E firm shall provide all data cabling design as well as pathways and dry conduit design to support additional non-building technology requirements that will be installed in the facility under a separate project. These technologies can include wireless and data network equipment, 911 and administrative phones, audio visual and radio systems. LFUCG, in conjunction with FEMA Engineering Support, will work with the A/E firm to coordinate the inclusion of these additional requirements into their design.

Architectural oversight will be provided by FEMA Engineering Support/CSEPP. FEMA Engineering Support /CSEPP will provide document review at critical project milestones, project direction at the beginning of the project and several site visits during the construction period. The selected A/E firm will be contractually bound to LFUCG, not to FEMA CSEPP.

LFUCG will use separate funding to be applied toward demolition. The selected A/E firm will be required to prepare demolition instructions within four weeks of the kick-off to permit LFUCG to utilize this funding source.
