Agency: Mission Lexington, Inc.

Program Name: Adult Primary Care, Dental, Vision, and Mental Health

LFUCG Partner Agency Program Funding: \$44,720

Program Summary: Mission Lexington provides free mental health, dental, and medical care services in their facilities at 230 S. Martin Luther King Blvd. The Medical Clinic serves adult Lexingtonians without health insurance or Medicaid who earn up to 185% of the federal poverty line. The Dental Clinic serves adult residents of Fayette County who do not have dental insurance and who earn less than 100% of the federal poverty level. All services provided by their clinics are free, including dental exams, radiographs, restorative work, extractions, root canals, emergency dental care, complex oral surgeries, psychiatric counseling, wound dressings, medicines from our drug room, and all primary health care including lab testing such as urinalysis, pap smears, and blood tests.

Long-Term Program Goals: Mission Lexington's Medical Care, Dental, Vision, and Mental Health components are a portion of our work toward realizing our organization's vision: "a community where basic human needs are met."

ACTIVITIES	OUTPUTS	OUTCOMES
We will treat issues like high blood pressure, vision problems, depression, diabetes, anxiety, asthma, emphysema, and viral and bacterial infections.	The Mission Lexington Medical Clinic will be open 1.5x longer (792 hours) than prior to receiving funding (528 hours).	155 more working families will have more money to spend on rent, utilities, or house payments because their general practice health care is provided free.
We will provide treatment planning, oral surgeries, tooth extractions, partials, dentures, cleanings, and fillings for our most vulnerable neighbors.	The Mission Lexington Dental Clinic will be open 1.2x longer (2080 hours) than prior to receiving funding (1730 hours).	156 more homeless Lexingtonians will be better poised to obtain a job because they are pain-free and more hygienically appealing to potential employers.

INDICATOR	MEASUREMENT TOOL/APPROACH	SAMPLING STRATEGY & SIZE	FREQUENCY & SCHEDULE OF DATA COLLECTION
Total number of patients served	Aggregate data from actual medical records	100% of patient population	Daily
Total number of patient visits provided	Aggregate data from actual medical records	100% of patient population	Daily

Agency: Mission Lexington, Inc.—**MOVED FROM Repairers Lexington (Repairers), January 2015**

Program Name: Faith Pharmacy

LFUCG Partner Agency Program Funding: \$5,350

Program Summary: Faith Pharmacy is a state-licensed pharmacy providing free-medications to persons who are uninsured or under-insured. It is located in the East Seventh Street Community Center on the northeast side of Lexington. MSPC owns and operates the building, and generously donates the space, utilities and maintenance rent free. Patients are referred to Faith Pharmacy by various community organizations, such as the Health Department, Salvation Army, Hope Center, Community Action Council, Christians in Community Service, Catholic Social Service Bureau, Nathaniel United Methodist Mission, Central Baptist Hospital, the University of Kentucky and others. Each Saturday morning 15-50 patients are waiting at 8:30AM for patient check in. Along with a referral from a social services agency, patients complete a questionnaire and volunteers then take the prescriptions and update the patient's file with the medication they are seeking from the pharmacy's formulary. By 9:00 AM the pharmacy is in full operation with 2 to 3 volunteer pharmacists and 3 to 4 pharmacy students. The pharmacists counsel the patients and attempts are made to enroll them in Patient Assistance Programs. Church members, social workers and local physicians also volunteer their time to this humanitarian effort.

The mission of Repairers is to combat the negative effects of poverty by filling individual, family, and community needs unmet by available social programs. The specific goal of Faith Pharmacy is to provide necessary medications to indigent patients, provide pharmaceutical care by way of counseling and monitoring of disease states, and enroll eligible patients in PAPs.

Long-Term Program Goals: The goal of Faith Pharmacy is to provide free prescription medicine to those who cannot afford it, resulting in more Central Kentuckians actually taking their medicine and maintaining their health. The specific objective of this grant is to assist Faith Pharmacy in paying for both generic and name brand pharmaceutical drugs for its patients.

ACTIVITIES	OUTPUTS	OUTCOMES
filling prescriptions for up to 3 months	3500 prescriptions filled for 400 patients	Patients take their prescribed medications
enrollment in PAP's where patients will obtain the prescribed medications after 3 months	PAP administrators will conduct at least 7 interviews per week	Patients obtain prescribed medications through PAP's
pharmacists counsel patients	Pharmacists will counsel at least 7 patients per week	Medical problems and trips to the hospital/doctor/ emergency room will decrease among Faith Pharmacy Patients because they are taking their medications

INDICATOR	MEASUREMENT TOOL/APPROACH	SAMPLING STRATEGY & SIZE	FREQUENCY & SCHEDULE OF DATA COLLECTION
medication adherence	follow-up survey	as many as we can reach	December and June
PAP status	follow-up survey	as many as we can reach	December and June
better health	follow-up survey	as many as we can reach	December and June
fewer medical crisis visits	follow-up survey	as many as we can reach	December and June
