Bid 137-2021 CED Lexington.pdf

CED Lexington - Electrical and Lighting Materials Bid.

Bid Lines

1	Lighting and Lighting Controls <i>(Line excluded from response total)</i> Quantity: <u> 1 </u> UOM: <u>Percent Off</u> Total: <input type="text" value="45%"/> Supplier Notes: There are a large range of categories covered within this. On average, the discount off list for LFUCG is 45%. There will be some exceptions due to items having entirely different cost structures based on materials used to manufacture the individual category items. An example would be the vastly different construction of an explosion proof fixture and an LED tube. The explosion proof fixture will have a lower discount off list, but the LED tube will most likely have a discount better than 45%. We will make sure that the CEDNet Online Portal reflects our actual price to LFUCG for better accuracy and discounted price.
2	Wiring Devices <i>(Line excluded from response total)</i> Quantity: <u> 1 </u> UOM: <u>Percent Off</u> Total: <input type="text" value="45%"/> Supplier Notes: There are a large range of categories covered within this. On average, the discount off list for LFUCG is 45%. There will be some exceptions due to items having entirely different cost structures based on materials used to manufacture the individual category items. An example would be the vastly different construction of a surge protection strip and a wall plate. The surge strip will have a lower discount off list, but the wall plate will have a discount off list much better than 45%. We will make sure that the CEDNet Online Portal reflects our actual price to LFUCG for better accuracy and discounted price.
3	Boxes and Enclosures <i>(Line excluded from response total)</i> Quantity: <u> 1 </u> UOM: <u>Percent Off</u> Total: <input type="text" value="47%"/> Supplier Notes: There are a large range of categories covered within this. On average, the discount off list for LFUCG is 47%. There will be some exceptions due to items having entirely different cost structures based on materials used to manufacture the individual category items. An example would be stainless steel vs regular galvanized enclosures. We will make sure that the CEDNet Online Portal reflects our actual price to LFUCG for better accuracy and discounted price.

4 Conduit, Raceway and Fittings

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Supplier Notes: The response given is an average discount off list for some of CED's heavy moving items. However, there are a large range of categories covered within this. On items such as EMT couplings and connectors, LFUCG gets a 92% discount off list. With conduit, the volatility of the steel market forces the discount off list to be much lower... near 15% on some items and our multiplier for conduit changes weekly at times. We will make sure that the CEDNet Online Portal reflects our actual price to LFUCG for better accuracy and discounted price. I will provide alternate lines for this category to show some of the ranges.

Alternate 1

Regular Conduit Bodies, Covers, and Gaskets.

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

Alternate 2

Form 7 Conduit Bodies, Covers, and Gaskets.

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

Alternate 3

Locknuts

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

Alternate 4

4 Square Boxes

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

Alternate 5

Liquidtight Connectors

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

Alternate 6

EMT Couplings and Connectors

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

5 Power Distribution

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Supplier Notes: There are a large range of categories covered within Power Distribution. On average, LFUCG will get a 50% discount off list. There will be some exceptions due to items having entirely different cost structures based on materials used to manufacture the individual category items. There will be certain items that receive a discount better than 50%. There will also be times where the discount off list will be lower. We will make sure that the CEDNet Online Portal reflects our actual price to LFUCG for better accuracy and discounted price.

6 Area/Street lighting poles

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Supplier Notes: There are a large range of categories covered within this. On average, the discount off list for LFUCG is 45%. There will be some exceptions due to items having entirely different cost structures based on materials used to manufacture the individual category items. We will make sure that the CEDNet Online Portal reflects our actual price to LFUCG for better accuracy and discounted price.

7 Wire and Cable

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Supplier Notes: *Note - this 50% off list discount is based off of Industry Level Sheets. These can change from each individual wire manufacturer, and sometimes can change daily. The copper market is very volatile and we update our prices constantly. The 50% represents THHN construction wire, which is the majority of what we stock and sell. There will be exceptions for specialty wire and cable. We will make sure that the CEDNet Online Portal reflects our actual price to LFUCG for better accuracy and discounted price.

8 Tools and Meters

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Supplier Notes: There are a large range of categories covered within this. There will be some exceptions due to items having entirely different cost structures based on materials used to manufacture the individual category items. We will make sure that the CEDNet Online Portal reflects our actual price to LFUCG for better accuracy and discounted price.

Alternate 1

Fluke and Amprobe Meters

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

Alternate 2

Klein Tools

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

Alternate 3

Milwaukee Tools

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Manufacturer:

Manufacturer #:

9 Generators

(Line excluded from response total)

Quantity: 1 UOM: Percent Off

No Bid

10 Solar lighting and system components

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Supplier Notes:

11 Miscellaneous: Data, fasteners, safety, and other materials not covered in the other categories.

(Line excluded from response total)

Quantity: 1 UOM: Percent Off Total:

Supplier Notes:

Response Total: \$0.00
