This Agreement shall not become effective unless and until copies of all of the executed originals of the aforementioned tax returns filed for the Organization have been registered for the current tax year by the Organization in the office of the Sponsor, and the Organization shall not be compensated unless and until such registration has taken place.

The Government, its agents and employees, shall, at all times, have unrestricted access to all places where or in which the services required hereunder are being carried on and conducted. Inspection and monitoring of the work by these authorities shall in no manner be presumed to relieve in any degree the

responsibility or obligations of Organization, nor to constitute the Organization as an agent of the Government.

11. Organization shall provide equal opportunity in employment for all qualified persons, shall prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and shall cause each of its subcontracting agencies to do so. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

The trust department may utilize its regular short-term one hundred percent (100%) US Treasury Fund for daily funds investment.

The election of option 1 or 2 should be made consistent with the relative cost incurred and in the case of option 2 the cost shall be competitive among local trust departments.

C. Investment Policies - - Safety and Prudence.

(1) Short-term liquidity funds shall be invested in "riskless" investment, i.e., deposits in Kentucky commercial banks or savings and loan associations that are fully federally insured or deposits collateralized by U.S. Treasury securities with a current market value of at least one hundred percent (100%), or in direct obligations of U.S. Treasury securities.

Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, religion, sex (including pregnancy, sexual orientation or gender identity), national origin, disability, age, genetic information, political affiliation, or veteran status, and to promote equal employment through a positive, continuing program from itself and each of its sub-contracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;
- (3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and
- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers'

representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

EQUAL OPPORTUNITY AGREEMENT

Standard Title VI Assurance

The Lexington Fayette-Urban County Government, (hereinafter referred to as the "Recipient") hereby agrees that as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation, it will comply with Title VI of the Civil Rights Act of 1964, 78Stat.252, 42 U.S.C. 2000d-4 (hereinafter referred to as the "Act"), and all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, (49 CFR, Part 21) Nondiscrimination in Federally Assisted Program of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964 (hereinafter referred to as the "Regulations") and other pertinent directives, no person in the United States shall, on the grounds of race, color, national origin, sex, age (over 40), religion, sexual orientation, gender identity, veteran status, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Recipient receives Federal financial assistance from the U.S. Department of Transportation, including the Federal Highway Administration, and hereby gives assurance that will promptly take any necessary measures to effectuate this agreement. This assurance is required by subsection 21.7(a) (1) of the Regulations.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

1.1 **Background**

Each fiscal year the Mayor and Urban County Council allocate funds for use by selected 501(c)(3) non-profit partner agencies through the Department of Social Services' Extended Social Resource (ESR) Program.

This grant cycle shall cover Fiscal Years 2025 and 2026 (July 1, 2024 – June 30, 2026), and will award grants between the four Funding Priorities, which each have separate required Proposal Submittals and criteria, and awarded on an approximate scale, listed below.

Funding Priority Area: Community Wellness & Safety

Projected funding is approximately \$950,000 of total ESR Grant Program Community Based Initiatives Award. This amount is subject to change upon Council ratification of the Fiscal Year 2025 Budget.

LFUCG seeks to strengthen and enhance Community Wellness and Safety by supporting programs and services addressing ***Substance Use Disorder and Community Violence Intervention***. LFUCG intends to award grants for priority-rated programs and services based on documentation of marginalized client populations and articulated individual and community outcomes. The program should utilize best practices and evidence-based models when engaging, assessing, intervening, and terminating services with underserved population groups.

In evaluating whether to ultimately award funding to an agency, the Lexington-Fayette Urban County Government may consider how much funding, if any, an agency has previously received from LFUCG during the same funding cycle, and reserves the right to not fund, or to reduce the amount of funding that an agency might otherwise receive, based upon such an evaluation.

All proposals must be written in a clear and concise manner, as there will be no follow-up or clarifications to proposer's Proposal Submittal Form once the evaluation process begins.

Projected funding is \$950,000 of ESR Grant Program – Community Based Initiatives

LFUCG seeks to strengthen and enhance Community Wellness and Safety, by supporting programs and services addressing **Substance Use Disorder and Community Violence Prevention**. LFUCG intends to award grants for priority-rated programs and services based on documentation of marginalized client populations and articulated individual and community outcomes. The program should utilize best practices and evidence-based models when engaging, assessing, intervening, and terminating services with underserved population groups.

- **Community Violence Prevention**, which includes **Youth Violence Intervention**, including Gang & Gun Violence, Child Abuse & Neglect Services, Sexual Violence Prevention, Elder Abuse Prevention, Suicide Prevention and Intimate Partner Violence Prevention and Stalking.

The term “client” is used throughout this proposal; however, we understand that within the context of your work “client” may not mean an individual. For some agencies it may be helpful to think of “client” as whole system (such as a school) or as a neighborhood, group, or community.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement 15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

5.1.2 Service Delivery Model 15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

5.1.3 Client Eligibility and Requirements 5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

5.1.4 Evidence-Based/Best Practice 10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes 10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

5.2.2 Client Empowerment & Community Impact 10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

5.2.3 Data Assessment & Quality Improvement 10 Points

While it doesn't have to be complicated, evaluation is more than saying “we provided this many ‘units of service.’” How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

5.3.3 Outreach & Inclusion Strategy

15 Points

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

Addressing pressing community health needs in Lexington, Kentucky, is crucial, especially concerning African American and Hispanic populations, constituting 14.7% and 7.4% of the populace (U.S. Census, 2022). Despite their smaller share, both groups face significant health disparities, particularly in HIV/AIDS. Out of 7,885 Kentuckians living with HIV, 31% are African American and 7.2% Hispanic, underlining the disproportionate impact on minority populations (Kentucky Cabinet for Healthy and Family Services, 2023). There are 1,117 persons living with HIV in Fayette County.

While new HIV cases in Kentucky remain steady without an overall decrease, earlier diagnosis and access to consistent medical care are preventing advanced HIV disease. However, 20% of HIV-positive individuals are unaware of their status (Centers for Disease Control, 2024).

AVOL Kentucky conducted 1,810 HIV tests (9 positive), 98 Hepatitis C tests (4 positive), and 581 STI screenings (47 positive) in 2022-2023, successfully linking all reactive cases to treatment. The notably high rate of general STI infections raises concerns about increased vulnerability to HIV infection, especially among injection drug users (13.55%), those who have never tested for HIV (30%), African Americans (30%), Hispanics (6%), and individuals over 50 (14%). Given the persistent burden of HIV/AIDS among African Americans, addressing disparities and implementing culturally competent outreach efforts are crucial.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

At AVOL, we present options for all possible prevention measures to at-risk citizens, assisting them in developing their personal prevention plan and then helping them navigate the services selected through AVOL directly or by referral. This set of choices is empowering, and our approach builds trust.

Outreach includes providing education, offering prevention supplies, and sharing information about interventions such as HIV testing and connectivity to PrEP. This once-per-day medication prevents HIV transmission. Doxy-Pep is a day-after medication that prevents transmission of certain sexually transmitted diseases. HIV Prevention staff plan for a high degree of visibility in areas where we most likely will meet persons at risk, isolated, or underserved.

Our HIV prevention staff are community health workers. This model has served us well for over 35 years and is consistent with recommendations made by the Mayor’s Commission for Racial Justice and Equality Health Disparities Committee. AVOL has been able to expand harm reduction and prevention in Fayette County as an ESR grantee over the last eight years, providing outreach, counseling, harm reduction supplies, HIV/HCV/STI screenings, referrals, and follow-up. This year, we have added telehealth and mail-order PrEP and Doxy-Pep services. The activities in this proposal are designed to empower 3,000 high-risk individuals to make informed decisions related to their health over two years.

In 2022, AVOL's offices moved to 1824 Hill Rise Drive off Versailles Rd, and in 2023, our 'no appointment necessary' policy expanded to 40 hours weekly, including one evening time slot.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

HIV, HCV, and STI testing are easily accessible to anyone seeking counseling and testing services, with no charges or waiting lists. Walk-in, no appointment required testing is available 40 hours weekly, including one evening period. Also, our mobile testing unit extends testing services to neighborhoods.

The primary eligibility factor for participation in the HIV prevention program is engagement in behaviors or actions deemed high risk for contracting or transmitting HIV, HCV, or other STIs. While HIV can affect anyone, however, there are populations disproportionately impacted. Therefore, AVOL ensures the capacity to reach out to the groups most affected by the HIV epidemic, engaging them in education, harm reduction strategies, and testing. AVOL's community health workers focused on prevention in frequent areas where at-risk individuals are likely to be found, such as specific neighborhoods, businesses, and organizations.

AVOL also assists interested individuals in navigating their way to PrEP access. Navigation may include:

- Referrals to local medical providers
- Enrollment in financial assistance programs
- Reviewing current health coverage
- Accessing telehealth and mail-order PrEP services

PrEP clients are seen in person or via telehealth every three months, which requires meticulous tracking and communication.

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

AVOL's approach is grounded in evidence-based practices. We strictly adhere to the Centers for Disease Control (CDC) HIV testing protocols. CDC research consistently demonstrates that outreach, education, access to free prevention supplies, and HIV testing are the most effective methods for HIV prevention. The simplicity of administering HIV testing has elevated it to a primary intervention tool, empowering individuals to plan and take appropriate steps, regardless of their HIV status. Access to PrEP is now bringing about an actual hope to end HIV by 2030; however, in Kentucky, PrEP is currently underutilized as a primary prevention tool.

The theoretical framework underpinning HIV prevention programming was documented and evaluated by Tim Horn (2016), whose article – "Towards an Integrated Primary and Secondary HIV Prevention Continuum for the United States: A Cyclical Process Model" – was published in the Journal of the International AIDS Society. Horn's work emphasizes:

- The necessity for HIV prevention services to be repetitive, comprehensive, outcomes-oriented, and focused on reducing risk for vulnerable populations.
- HIV re-testing as a metric to assess the effectiveness of HIV intervention and the opportunity to streamline successful linkage to care and engagement.

With invaluable support from funding provided by LFUCG ESR, AVOL has successfully implemented HIV re-testing protocols that extend beyond a one-time transaction between AVOL and the client. As AVOL becomes more involved in delivering PrEP services, re-testing will become institutionalized in our work because individuals on PrEP must meet with their provider, undergo an HIV test, and have labs completed every three months.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define "successful" completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

AVOL aims to keep the person living with HIV maintaining low levels of the virus in the body, which will prevent them from passing the virus to others, and to keep the high-risk HIV-negative person negative.

Objective 1: Implement outreach initiatives targeting marginalized populations in Fayette County to enhance health literacy and healthcare access, emphasizing resident needs and provider engagement.

Objective 2: Expand HIV/AIDS awareness, testing, and access to PrEP medication and ensure linkages to culturally competent medical care.

HIV counseling and testing are complete if the client provides a comprehensive risk assessment, takes a test, receives their results, participates in harm reduction counseling, articulates a prevention plan, and receives needed prevention supplies.

For the high-risk, HIV-negative individual, the process is completed by attending regular check-ins and re-testing every three months. For the person who tests HIV-positive, success requires following through with scheduled medical appointments, attending the AVOL service intake appointment, meeting with Health Department staff who will assist in notifying sexual and drug use partners, and complying with medication adherence.

AVOL proposes testing 1,500 high-risk individuals per year. Our goal is that 99 percent will remain HIV-negative and that the 1 percent will likely test HIV-positive. Two hundred fifty (250) will enroll in a PrEP telehealth program. They will receive long-term follow-up and re-testing to maintain their negative status. 50% of clients will be African American, and 14% will be Hispanic, a 40% increase by the end of the grant period.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

Poverty and health disparities often go hand in hand, and the profound impact of HIV/AIDS underscores this reality. Delivering respectful, evidence-based, and culturally competent sexual health education through trained professionals enables individuals to make informed decisions regarding their bodies and relationships, fostering heightened self-esteem and personal empowerment. For AVOL's clients, empowerment arises from being presented with all available options and making informed choices based on personal comfort and beliefs. By facilitating access to possibilities for mitigating personal harm among at-risk individuals, AVOL nurtures trust and lasting relationships, leading to improved follow-up and support.

By offering HIV, HCV, and STD screenings, AVOL supports individuals in understanding their current health status and accessing necessary care. Early diagnosis and prompt treatments reduce the likelihood of health crises leading to hospitalization and substantial bills for indigent care. Properly treated individuals are significantly less likely to transmit the virus to others. Through educational empowerment regarding personal choices and sexual health, AVOL combats fear, ignorance, and misinformation surrounding healthcare access. Regular preventive healthcare visits and screenings often help individuals evade the higher medical costs associated with health emergencies.

Individuals living with HIV who receive adequate care and stable housing experience advantages in education, employment, and access to supportive services. Eligible low-income program participants diagnosed with HIV seamlessly transition to AVOL's Client Services Program for support with housing and utility expenses. Prevention Specialists can also connect clients with additional needs to vital resources, including substance use treatment, shelters, domestic violence support, and mental health counseling.

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

Evaluation activities will use quantitative data on 1,500 clients and qualitative feedback to assess the success of projected goals, objectives, and outcomes. Project evaluation and management-related data collected, maintained, or disseminated by the project will be handled in a manner that protects participants' confidential information.

AVOL's internal data tracking system collects pertinent information to evaluate the effectiveness of its prevention services. Data includes demographics, health history, risk factors, and follow-up contact schedule. All program data is also reported anonymously to the CDC in a system called EvalWeb, a dynamic database and reporting tool that provides necessary data for reporting progress.

AVOL will file quarterly evaluation reports with LFUCG ESR and discuss them at monitoring and evaluation meetings. Staff and the Board of Directors will review evaluation information for discussion and learning and consider it when planning future initiatives. In addition to service improvement, evaluation efforts uncover unmet needs for future planning. AVOL will share information and consult constituents, clients, donors, and volunteers to solicit additional feedback and insight. Several HIV-related planning and strategy groups exist at the state and federal levels and are always interested in a local perspective and learning. AVOL will share information and insights with the Kentucky HIV/AIDS Planning and Advisory Council, Dining Out for Life International, and the U.S. Housing and Urban Development's (HUD) Housing for Persons Living with HIV/AIDS planning group.

50% of clients will be African American, and 14% will be Hispanic, a 40% increase by the end of the grant period.

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

Cheyenne Robinson, RN, MPH, Director of Health Outreach Services (ESR Funded). Her unique contributions include being certified in HIV testing and a career developing outreach and education programs. She is an active member of the Kentucky Black Nurses Association. She has presented at the Kentucky Primary Care Association Annual Conference, discussing DEI in healthcare settings, and partnered with Strengthening Transformations, a non-profit focusing on mentoring and educating women of color. She has been a registered nurse since 2013. The Director oversees various health outreach programs to improve the community's health and well-being. *AVOL does not provide medical or pharmacy services directly.

Ronald Stone, BA, Prevention Team Leader/Health Equity Prevention Specialist (CDC Funded) – Mr. Stone has worked in HIV prevention and outreach services for over four years. Mr. Stone serves on the Board of Kentucky Black Pride and is a Georgetown Street Neighborhood Association member and the Alpha Phi Omega Fraternity. The Health Equity Prevention Specialist focuses on people and populations disproportionately impacted by HIV, specifically BIPOC. They reach out to establish trust and increase engagement of individuals and groups who are at risk for HIV, Hepatitis C, and STD infection and engage them in awareness, education, and direct interventions.

Ariel Norvell, MPH, HIV Prevention Specialist (CDC Funded). Ms. Norvell's previous employment has focused on preventing violence against women, sexual health education programs, and trauma-informed sexual health education facilitation training; Ms. Norvell has amassed six years of experience in the helping professions.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

AVOL has developed many community partnerships to reach high-risk individuals and offer outreach and testing. AVOL fights HIV stigma and supports other stigma-fighting organizations and gatherings. These organizations include Recovery Café (onsite at AVOL twice per week), Voices of Hope, New Vista, Mental Health America of Kentucky, Open Door Counseling, Kentucky Black Pride, Black Soil, Jubilee Jobs, Waypoint Centers, Lexington Pride Center, sober living houses, Chrysalis House, Dunbar Center, U.K., Transylvania University, Latino Mother's Day Festival, Shepherd's House, TransKY, Kentucky Refugee Ministries, Arbor Youth Services, Drug Court, Hope Centers, and Greenhouse 17.

AVOL and U.K.'s Bluegrass Care Clinic (BCC) maintain a close working relationship. BCC, a provider of medical case management, medical services, and pharmacy services to people living with HIV, also offers PrEP access services for persons on Medicaid. AVOL and BCC form a continuum of care: AVOL refers clients with confirmatory HIV diagnoses to BCC for medical services. BCC refers eligible clients to AVOL for housing/supportive services and prevention case management assistance. AVOL collaborates frequently with the LFCHD to ensure the best possible outcomes for high-risk patients. In this way, AVOL and BCC work hand in hand to provide comprehensive care and support to those in need.

With the help of Kynect, AVOL evaluates connectivity to health insurance or Medicaid when clients identify a lack of health insurance. Program income associated with AVOL Kentucky's PrEP access program will be used to initiate a financial assistance program for people without health insurance beginning in the third quarter of 2024. HIV prevention efforts are also funded by the Center's for Disease Control and Prevention.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency, including a language access plan; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?

Inspired by the Mayor's Commission for Racial Justice and Equality, the sum of an organization's people, systems, processes, and practices are prerequisites for greater competence and inclusion. In June 2023, AVOL's Board of Directors 2023 Strategic Plan includes, "In everything we do, AVOL Kentucky will prioritize diversity, equity, and inclusion with intentionality throughout the organization, within programs, through our work with the community, and through our actions and reactions to community conditions to fight HIV and other medically related stigma."

By restructuring our hiring, we have assembled a much more diverse staff, ensuring that those seeking services from AVOL Kentucky see people who resemble them among us. On an agency capacity level and before the end of 2024, AVOL Kentucky will select and finalize an appropriate cultural competency curriculum required for all staff and the Board of Directors.

In 2022, AVOL's offices moved near Versailles Rd. AVOL now resides close to neighborhoods where many clients live and work, such as Cardinal Valley, Whitney Woods, Pine Meadows, and Gardenside. AVOL is on a convenient Lextran route. Most of AVOL's prevention outreach occurs in the community rather than at the office. We travel to locations where high-risk activities occur. We are very close to downtown Lexington, and our mobile testing van circulates throughout greater Fayette County for outreach, education, supply distribution, and HIV testing.

We are challenged to continue working on our Spanish language capacity. We provide budgetary allowances for language access services; however, having this capacity on staff would be ideal.

6.0 Program Budget Summary Form Instructions

Proposal Submittal shall be considered incomplete and shall be rejected without completed Budget Summary Form. (Including total amount of ESR grant request for the first year of the cycle, Fiscal Year 2025.)
