**Agency:** Hope Center

**Program Name:** Emergency Shelter

**LFUCG Emergency Shelter Program FY16 Funding:** \$260,000

**Program Summary:** The Hope Center Emergency Shelter provides lodging, food and clothing to homeless adult men in Fayette County 24-hours per day, 365 days per year. The shelter exposes participants to a comprehensive menu of services while providing basic needs. Hope Center provides lodging to about 180-220 men each night, for an average of 6,000 nights of lodging and 13,000 meals per month. In 2014, Hope Center distributed over 39,053 items of clothing.

The program's goal and overriding philosophy is to provide services to all who need them. The nature of the shelter is to provide services on a day-to-day basis, with provision of shelter, food and clothing the primary goal. The Shelter does this, and has never turned anyone away due to lack of capacity.

The Mayor's Task Force report developed in the 1980s which called for the establishment of the Emergency Shelter stated that needs must be met on a variety of levels – beginning with safe and accessible shelter. The report further recognized the need for services that encourage movement out of shelter dependency. The shelter is often the first exposure homeless men have to the Hope Center, and provides a way for trust to be established, allowing Hope Center to introduce its other programs and services which are designed to address factors that contribute to homelessness, including substance abuse, mental illness, employment, education, health needs, etc.

Services begin with the intake process. During business hours, each arriving participant will meet with an intake office representative to complete the comprehensive intake/needs assessment. Intake gathers information such as where the participant came from, why they are at the shelter, demographic information, medical history, criminal history, mental health and substance abuse issues, and what they want from the shelter. Each is provided with a photo ID. Those who arrive after business hours complete intake with help from the front desk, and are issued temporary IDs. They meet with someone from the intake office the next business day. Everyone is assigned and introduced to a caseworker.

Specific populations targeted include adult homeless men, including veterans and men with substance abuse and/or mental health issues.

**Agency:** Hope Center, Inc.

**Program Name:** Detention Center Recovery Program

**LFUCG Extended Social Resource Grant Program FY16 Funding:** \$105,000

**Program Summary:** Both innovative and creative, the Detention Recovery Programs provides daily, full-day recovery services Monday-Friday to inmates of the Fayette County Detention Center. To complete the program, participants take an average of 92 classes and attend 204 meetings. Program capacity is 15 women and 30 men, and the program serves about 106 participants annually. Program goals are successful completion of all program components. All participants receive daily lessons in the 12-Steps and Recovery Dynamics, supplemented with additional classes. Community Meetings, held 2-3 times weekly, address issues that arise from day-to-day community living. Participants hold themselves and their peers accountable for conduct and a commitment to change. The community meetings help participants by identifying specific issues that may be impeding recovery, such as loss of focus, reoccurring destructive behaviors or unacceptable program behavior. The community members make suggestions, and through a vote select a learning experience that will help the participant gain insight into the need for change. Cognitive Behavioral Intervention (CBI), is presented in two courses, Thinking for a Change, and Problem Solving for Offenders. Both courses are endorsed by the National Institute of Corrections to promote effective changes in offender thinking patterns. The courses teach offenders to change and manage antisocial feelings and thinking; increase self-control, self-management and problem solving skills; and to recognize risky situations and develop plans to deal with them. Transition planning starts about halfway through the program.

The Detention Recovery Program addresses the bonus point-eligible need area of substance abuse; and we request these bonus points.

**Long-Term Program Goals:** The long-term program goals are 1) to provide services that will result in reduced recidivism among program participants who complete the program; and 2) reduce homelessness in Fayette County. These goals are aligned with Hope Center's mission, which is to care for homeless and at-risk persons by providing life-sustaining and life-rebuilding services that are comprehensive and address underlying causes.
