The goal of the Computer Lab is to hone participants' computer, internet, writing and research skills. The field trips are extra enrichment opportunities for the participants to further broaden their horizons. The tutoring program addresses the issues of low self-esteem, poor academic achievement, and school drop-out. Through tutoring, students improve their skills, thus giving them the confidence needed to succeed in school. The specific measurable goals of the tutoring program are as follows:

- 75% of tutoring program participants meet their initial learning objectives within 3 months
- 75% of tutoring program participants will show improved school grades
- 50% of tutoring program participants will show improved results on teacher evaluations
