

MAVRON, INC.

A SOLE-SOURCE PROVIDER of the *Bolt-Together Prisoner Transport Van Insert*

For over 50 years, MAVRON has manufactured both Prisoner and Animal transport units all over the world.

The MAVRON Bolt-Together Prisoner Transport Insert for vans is unique for the following reasons.

1. The unit has an all-aluminum construction. (.125 thick 3003 H-14 grade, .190 thick 3003 H-14 aluminum , and .100 thick 3003 H-22 bright aluminum diamond treadplate)
Unit door frames are made of 2" (6063 T52) aluminum tubing, with doors laser cut from .250 (1/4") 6061 T651 aluminum plate.
2. The ceiling is an integral part of the construction and design.
3. The unit is sealed after installation for easy washing and disinfecting of the inside of the unit.
4. The large emergency exit panels provide alternative prisoner removal in the case of some accidents situations.

MAVRON, INC. is the Sole-Source provider for the Bolt-Together units as we hold both a product patent (US 5,080,416) and a design patent (US DES 336,645) on this product line. MAVRON, INC. is the exclusive manufacturer of this product line as no other manufacturers are allowed under US Patent Law to produce these units without our expressed permission.

MAVRON, INC. sells its products directly to the end user. We do not have sales people on the road or distributors to handle our products.

If you have any further questions, please contact me.

Sincerely,

Terri Lambright
