## EQUAL OPPORTUNITY AGREEMENT

### The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

*The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.*

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

*The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

2. **Water** shall be clean and free from deleterious materials.

#### PART 2 - PERFORMANCE

##### A. Subgrade Preparation

Any pockets of soft material that cannot be compacted shall be removed and replaced with suitable material. 2. Longitudinal and transverse joints shall be at regular intervals as shown on plan.
3. The required contraction joint spacing is 5' o. c., typical, or as noted on the plan. Expansion joints as per plan or 25' o. c. on sidewalk max.
4. Expansion joints shall be continuous across the slab and must extend completely.
5. Full depth expansion (isolation) joints, 1/4" to 1/2" thick, shall be installed to isolate fixed objects and where fixed objects abut, and as noted on plans. Use fiber filled boards or strips made with asphalt impregnation or approved equal. Caulk or seal with an approved sealant.

##### D. Concrete Placing, Finishing and Texturing

1. Concrete shall be properly placed on the prepared sub-grade, adequately consolidated and struck off to the proper elevation. Concrete shall be placed continuously to prevent the formation of "cold joints." Wherever placing operations stop, a bulkhead will be installed to form a straight joint. See plans and details for depth of concrete.
2. The sequence of finishing operations shall be the strike off and consolidation, floating (if necessary), straight edging and texturing.

3. Adding water to the surface of the concrete to assist in finishing operations shall not be permitted, it shall be applied as a fog spray.

A liquid membrane-forming compound shall be uniformly sprayed on all exposed surfaces. If the contractor chooses not to protect the concrete and cracking occurs, the work will be rejected and the contractor shall replace it at their expense including all materials, labor and incidentals.

**2. Winter - (October 15 - April 15)**

Concrete shall be covered with a plastic sheet 5 to 7 days. In areas that will receive de-icing applications, concrete shall be sealed with a penetrating sealant material such as linseed oil and thinner at a ratio of 50:50 on each material, 200 sq. ft. per gallon, prior to opening to traffic.
