Mobilization, Traffic Control (Maintenance of Traffic), Construction Staking and E&S Permitting will be paid on a sliding percentage scale for increments of the final price for Work, per the table below.

(For example, if the final total of Bid Item Prices for the work is \$24,000, Mobilization would be (\$10,000 X 15%) plus (\$10,000 X 10%) plus (\$4,000 X 5%) = \$2,700)

No additional compensation will be paid beyond a contract price of \$100,000. For example, the mobilization cost for a \$100,000 price of work will be identical to that for a \$110,000 price of work.

Applicability of Traffic Control, Construction Staking and E&S Permitting will be agreed upon individually for each Purchase Order.

**Table of Incremental Costs for Mobilization and Additional Services**

### DOCUMENTATION REQUIRED FOR GOOD FAITH EFFORTS AND OUTREACH PLANS

As affirmed in Resolution Number 272-2024, the Urban County Council has adopted an annual aspirational goal of utilizing at least seventeen percent (17%) of public funds spend from certain discretionary agreements with certified Minority Business Enterprises (MBEs) and certified Woman Business Enterprises (WBEs); utilizing at least three percent (3%) of public funds from certain discretionary agreements with Certified Veteran-Owned Small Business and Certified Service-Disabled Veteran-Owned Small Businesses (VOSBs); and utilizing Disadvantaged Business Enterprises (DBEs) where applicable. Bidders should make every effort to achieve these goals.

Therefore, as an element of the responsiveness of the bid, all Bidders are required to submit documentation of their good faith and outreach efforts to ensure all businesses, including small and disadvantaged businesses such as minority-, woman-, and veteran-owned businesses, have an equal opportunity to compete for and participate in the performance of any subcontracts resulting from this procurement. Examples of good faith and outreach efforts that satisfy this requirement to encourage the participation of, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs include:

1. Advertised opportunities to participate in the contract in at least two (2) publications of general circulation media; trade and professional association publications; small and minority business or trade publications; and publications or trades targeting minority, women, and disadvantaged businesses not less than fifteen (15) days prior to the deadline for submission of bids to allow, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs to participate.
2. Attended LFUCG Procurement Economic Inclusion Outreach event(s) within the past year to meet new small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs to partner with on LFUCG contracts and procurements.
3. Attended pre-bid/pre-proposal meetings that were scheduled by LFUCG to inform small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs of subcontracting opportunities.
4. Sponsored Economic Inclusion event to provide networking opportunities for prime contractors and small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs.
5. Requested a list of certified small, DBE, MBE, WBE, VOSB and/or SDVOSB subcontractors or suppliers from LFUCG and showed evidence of contacting the companies on the list(s).
6. Contacted organizations that work with small, DBE, MBE, WBE, and VOSB companies for assistance in finding certified DBEs, MBEs, WBEs, VOSB and/or SDVOSBs to work on this project. Those contacted and their responses must be a part of the bidder's outreach efforts documentation.

7. Sent written notices, by certified mail, email, or facsimile, to qualified, certified small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs soliciting their participation in the contract not less than seven (7) days prior to the deadline for submission of bids to allow them to participate effectively.
8. Followed up initial solicitations by contacting small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs via tailored communications to determine their level of interest.
9. Provided the interested small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs with adequate and timely information about the plans, specifications, and requirements of the contract.
10. Selected portions of the work to be performed by small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs in order to increase the likelihood of subcontracting participation. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate small, DBE, MBE, WBE, VOSB and/or SDVOSB participation, even when the prime contractor may otherwise perform these work items with its own workforce.
11. Negotiated in good faith with interested small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs, not rejecting them as unqualified without sound reasons based on a thorough investigation of their capabilities. Any rejection must be so noted in writing with a description as to why an agreement could not be reached.
12. Included documentation of quotations received from interested small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs that were not used due to uncompetitive pricing or were rejected as unacceptable and/or copies of responses from firms indicating that they would not be submitting a bid.
  - a. Bidder has to submit sound reasons why the quotations were considered unacceptable. The fact that the bidder has the ability and/or desire to perform the contract work with its own forces will not be considered a sound reason for rejecting a small business', DBE's MBE's, WBE's, VOSB's and/or SDVOSB's quote. Nothing in this provision shall be construed to require the bidder to accept unreasonable quotes in order to satisfy the participation goals.
13. Made an effort to offer assistance to or refer interested small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs to obtain the necessary equipment, supplies, materials, insurance and/or bonding to satisfy the work requirements of the bid proposal.
14. Made efforts to expand the search for small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs beyond the usual geographic boundaries.

15. Other – any other evidence that the bidder submits that may demonstrate that the bidder has made reasonable efforts to include small, DBE, MBE, WBE, VOSB and/or SDVOSB participation.

Bidder must document, with specificity, each of the efforts it made to include small businesses, DBEs, MBEs, WBEs, VOSBs and/or SDVOSBs as subcontractors in the procurement, including the date on which each effort was made, the medium through which each effort was made, and the outcome of each effort.

**Note:** Failure to submit the documentation requested in this section may be cause for rejection of bid. Bidders may include any other documentation deemed relevant to this requirement which is subject to review by the MBE Liaison. Documentation of Good Faith and Outreach Efforts must be submitted with the Bid, regardless of the proposed level of small, DBE, MBE, WBE, VOSB and/or SDVOSB participation in the procurement. If the Good Faith and Outreach Effort documentation is not submitted with the bid response, the bid may be rejected.

#### OUTREACH EFFORTS EVALUATION

Outreach efforts demonstrated by the bidder or respondent will be evaluated on a pass/fail basis.

This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

The Kentucky equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any count, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

- (2) *The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age or national origin;*

The Act further provides:

KRS 45.610. Hiring minorities – Information required

- (1) *For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetable.*
- (2) *Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.*

- (2) *If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. **TO ALL PROSPECTIVE SUBMITTERS:**

**Please be advised of the following clarifications to the above referenced bid:**

1. See attached 09-2023 Certified Bid Tabulation.
2. See attached revisions to Technical Specifications Sections 25.3 and 25.6.
3. Replace **Information for Bidders, 17. Contract Time**, with the following:  
  
"Unit Price Contract (UPC) is anticipated to be in effect for two years. For individual projects undertaken under this UPC, the time to completion for each project will be agreed upon between the OWNER and the CONTRACTOR and reflected in the Notice to Proceed."  
  
4. Contract will become effective with Council approval and will be in place for two (2) years. No extensions are expected.
5. **Question:** Can the difference between excavation and placement and embankment be elaborated on?  
**Answer:** There is no bid item for Embankment in this contract. Work for shaping embankments is described in Technical Specification Section 3. Please see Item E in Section 25 of Part 2 of the Contract Documents which describes changes made to the Earthwork Technical Specification: E. Technical Specification, Section 3: Earthwork. This section was revised to clarify that forming embankments, including compacting materials to density requirements, is included in the scope of

work for Excavation and Placement and will not be measured and paid for separately. The bid item for Embankment is removed. Additionally, the definition of rock excavation was moved to Section 5: Rock Excavation (Mechanical).

Additionally, some non-exhaustive examples are given here:

- If earthen material, classified by the Engineer as Excavation and Placement, is removed and transported offsite for disposal, the Contractor will be paid once at the Contract Unit Price for Excavation and Placement per cubic yard of material based on the calculated quantity of materials removed.
- If earthen material is removed, placed on-site for embankment, and compacted to conform to lines, grades, and cross-sections specified on the Plans or Purchase Order, the Contractor will be paid once at the Contract Unit Price for Excavation and Placement per cubic yard of material based on the calculated quantity of materials removed.
- If fill material is required to be delivered from off-site because of a deficit of suitable excavated material, the Contractor will be paid once at the Contract Unit Price for Excavation and Placement per cubic yard of material delivered, based on weight tickets and an assumed soil density of 1.55 tons per cubic yard. This payment shall include placement and compaction to conform to lines, grades, and cross-sections specified on the Plans or Purchase Order.

**TO ALL PROSPECTIVE SUBMITTERS:**

**Please be advised of the following clarifications to the above referenced bid:**

1. Bid opening has been extended to February 20, 2025, 2:00 pm.
2. **Question:** The unit prices for pipe removal and pipe installation spec section 6 indicate all materials are incidental to removal of pipe. If the pipe removed requires stone backfill due to the above surface or otherwise, will we be paid for the stone on the unit price per ton?  
**Answer:** If a pipe is to be removed but not replaced with new pipe and is to be backfilled with any material other than borrow/earthwork, then the quantity for the backfill material (stone, flowable, etc.) will be paid for separately.
3. **Question:** Spec section 25 Indicates all bedding and backfilling (even if flowable fill) is incidental. Also it includes concrete cap in this section as incidental. Will those be paid out by their respective unit prices for stone backfill or flowable fill, and would concrete cap need to be included or would it fall under unfinished concrete unit prices?

**Answer:** Those items listed in the question (bedding, backfilling, flowable fill, and concrete cap) will not be paid out by their respective unit prices but shall be incidental to the cost of the pipe. This is described in the Basis of Payment for Storm Sewer Pipe (Sections 25.3 and 25.6).
