Scope Of Work

Unless otherwise noted, this proposal does not include lift rental, conduit, trench with conduit and or earth work, "Prevailing wages", union wages, plenum cabling, permit, labor for client required vendor or safety training and or submittal fees. Installation work will be performed during normal business hours, Monday through Friday. Client will provide dealer with the necessary electrical power (120VAC) and communications path for system communication as well as any dedicated phone lines or static IP addresses and or Internet connectivity as applicable at each head end and remote panel location.. Network connection with necessary IP information to be provided by client. Fire systems by code will require two telephone lines or an approved cellular or IP communications path. Client is responsible for the proper operation of all door hardware. Surge protection is not provided unless otherwise noted. Any surge protection provided is meant only to reduce risk of damage due to surge, but cannot and is not guaranteed to stop damage from surge that overwhelms or bypasses provided surge protection.

All monthly service investments exclude physically damaged equipment, network issues / troubleshooting, and scissor / boom lift charges if required for service.

Existing equipment, cabling, and infrastructure installed by others is assumed to be in good working order. Any additional labor and or materials spent due to servicing, repairing or replacing existing equipment, cabling, and infrastructure will be billed on a time and materials basis.

Bates Security will add the evidence room recently surveyed to the existing system on site. This area will arm and disarm independently of the other area of the building.
