3.0 REQUIREMENTS

3.1 Selected Contractor shall provide electrical inspection services at the request of any person or entity in the Lexington-Fayette Urban County who holds the requisite electrical permit (except as otherwise provided) to allow any person or entity to obtain all necessary building permits, certificates of occupancy, or other code compliance. Any person, firm or other entity installing electrical wiring or conductors in the urban county shall contact Selected Contractor to schedule requisite electrical inspections, whether for a rough-in, final, or other inspection purposes.

Electrical inspections shall be provided for any construction, alteration or repair of electrical wiring, including but not limited to electrical wiring and conductors installed in public and private buildings and other premises, including yards, athletic fields, carnivals, parking lots, swimming pools, and industrial substations; conductors that connect installations to a supply source of electricity and other outside conductors adjacent to the premises; and, electrical service to mobile homes and recreational vehicles.

Selected Contractor shall also provide electrical inspection services at the request of the Division of Building Inspection and the Division of Fire and Emergency Services for complaint investigation purposes, emergency safety inspections, and other related purposes.

3.2 Selected Contractor shall perform all inspection services in accordance with the publications cited in Section 2.0 above, these specifications, any rules and regulations established by the Division of Building Inspection, and any proposal conditions attached hereto.

AMERICAN RESCUE PLAN ACT

AMENDMENT 1 — CERTIFICATION OF COMPLIANCE FOR EXPENDITURES USING FEDERAL FUNDS, INCLUDING THE AMERICAN RESCUE PLAN ACT

The Lexington-Fayette Urban County Government ("LFUCG") may use Federal funding to pay for the goods and/or services that are the subject matter of this bid. That Federal funding may include funds received by LFUCG under the American Rescue Plan Act of 2021. Expenditures using Federal funds require evidence of the contractor's compliance with Federal law. Therefore, by the signature below of an authorized company representative, you certify that the information below is understood, agreed, and correct. Any misrepresentations may result in the termination of the contract and/or prosecution under applicable Federal and State laws concerning false statements and false claims.

The bidder (hereafter "bidder," or "contractor") agrees and understands that in addition to all conditions stated within the attached bid documents, the following conditions will also apply to any Agreement entered between bidder and LFUCG, if LFUCG uses Federal funds, including but not limited to funding received by LFUCG under the American Rescue Plan Act ("ARPA"), toward payment of goods and/or services referenced in this bid. The bidder also agrees and understands that if there is a conflict between the terms included elsewhere in this Request for Proposal and the terms of this Amendment 1, then the terms of Amendment 1 shall control. The bidder further certifies that it can and will comply with these conditions, if this bid is accepted and an Agreement is executed:

1. Any Agreement executed as a result of acceptance of this bid may be governed in accordance with 2 CFR Part 200 and all other applicable Federal law and regulations and guidance issued by the U.S. Department of the Treasury.

2. Pursuant to 24 CFR § 85.43, any Agreement executed as a result of acceptance of this bid can be terminated if the contractor fails to comply with any term of the award. This Agreement may be terminated for convenience in accordance with 24 CFR § 85.44 upon written notice by LFUCG. Either party may terminate this Agreement with thirty (30) days written notice to the other party, in which case the Agreement shall terminate on the thirtieth day. In the event of termination, the contractor shall be entitled to that portion of total compensation due under this Agreement as the services rendered bears to the services required. However, if LFUCG suspects a breach of the terms of the Agreement and/or that the contractor is violating the terms of any applicable law governing the use of Federal funds, LFUCG may suspend the contractor's ability to receive payment by giving thirty (30) days' advance written notice. Further, either party may terminate this Agreement for cause shown with thirty (30) days written notice, which shall explain the party's cause for the termination. If the parties do not reach a settlement before the end of the 30 days, then the Agreement shall terminate on the thirtieth day. In the event of a breach, LFUCG reserves the right to pursue any and all applicable legal, equitable, and/or administrative remedies against the contractor.

3. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

(1) Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and

applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part, and the contractor may be declared ineligible for further government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance.

Provided, however, that in the event a contractor becomes involved in or is threatened with litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

4. If fulfillment of the contract requires the contractor to employ mechanic's or laborers, the contractor further agrees that it can and will comply with the following:

(1) *Overtime requirements: No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such a workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such a workweek.*

(2) *Violation: liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory) for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.*

(3) *Withholding for unpaid wages and liquidated damages. LFUCG shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.*

(4) *Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower-tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower-tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.*

5. The contractor shall comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

6. The contractor shall report each violation to LFUCG and understands and agrees that LFUCG will, in turn, report each violation as required to assure notification to the Treasury Department and the appropriate Environmental Protection Agency Regional Office.

7. The contractor shall include these requirements in numerical paragraphs 5 and 6 in each subcontract exceeding $100,000 financed in whole or in part with Federal funding.

This assurance is required by subsection 21.7(a) (1) of the Regulations.

The Law

- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.

****

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

RE: Qualifications of Electrical Inspectors

To Whom It May Concern:

This letter is to advise that all the electrical inspectors employed by Commonwealth Inspection Bureau, Inc. have met or exceed the minimum education and training requirements, or they have met or exceed the minimum standards for other education and experience as required in paragraph 3.6 of the Specifications of RFP #49-2024. As can be seen from their attached resumes, all employees are state certificated electrical inspectors with many years of experience in the electrical trades. We submit that each one of the persons now in our employment and submitted with this bid package have sufficient other continuing education and experience to meet or exceed the expectations of the Lexington-Fayette Urban County Government in fulfilling the duties of a governmentally approved electrical inspector.

Each of these individuals has performed their duties as an employee of Commonwealth Inspection Bureau, Inc. in a professional manner without any claim, to our knowledge, of any lack of expertise or skill on the part of any contractor or the Lexington-Fayette Urban County Government. Please give due consideration to the experience and other education of any employee you believe does not meet the specific educational requirements of paragraph 3.6. Thank you in advance for your prompt attention.

Very truly yours,

M. Jones Jr.

Marshall Jones, Jr.
President

Commonwealth Inspection Bureau, Inc.
Resume

Commonwealth Inspection Bureau, Inc. began its business in 1993 and since December 1998, has contracted with the Lexington-Fayette Urban County Government for the provision of electrical inspection services for Fayette County. Commonwealth Inspection Bureau, Inc. has not only met, but has exceeded, the requirements of its contracts with the Lexington-Fayette Urban County Government in each of these years. These services have been provided for almost twenty (26) full years without a single complaint regarding its electrical inspection services being filed with the Lexington-Fayette Urban County Government or the Commonwealth of Kentucky Office of Housing, Building and Construction.

The term of the electrical inspection services contract held by Commonwealth Inspection Bureau, Inc. included a major ice storm in 2003 resulting in an extraordinary need for electrical repairs and replacements requiring electrical inspections. In the aftermath of this ice storm, Commonwealth Inspection Bureau, Inc. opened its offices from 6:00 a.m. to 9:00 p.m. to meet the electrical inspection needs of the citizens of Fayette County whose electric service was affected by the ice storm. During the severe ice storm, Commonwealth Inspection Bureau, Inc. brought in a total of fourteen (14) state certified inspectors to work in the field and a total of nine (9) office staff persons to handle all the incoming telephone calls and process all of the paperwork required for the electrical inspections and for Kentucky Utilities Company. Commonwealth Inspection Bureau, Inc. performed all of their work during this trying time without a single complaint filed by any citizen whose electric service had been affected by the storm, by any contractor performing work for those citizens or by any employee of the local electric utility companies providing electric service to the citizens of Fayette County.

Commonwealth Inspection Bureau, Inc. currently employs four (4) full-time state-certified electrical inspectors as well as two (2) part-time state certified electrical inspectors. Their experience, training, technical competence and continuing education have been a major factor in Commonwealth Inspection Bureau, Inc.'s record of service to Fayette County and to the Lexington-Fayette Urban County Government. While finding available state certified electrical inspectors to employ can be difficult at times, Commonwealth Inspection Bureau, Inc. has been able to meet and exceed the minimum number of state certified electrical inspectors since December 1998 and will be able to employ additional state certified electrical inspectors should an increase in the workload create a need for more inspectors. At the current time Commonwealth Inspection Bureau, Inc. exceed the minimum number of three (3) state certified electrical inspectors by having three (3) additional state certified electrical inspectors under its employment.

Commonwealth Inspection Bureau, Inc. believes its job performance history in Fayette County along with its working relationship with local electrical contractors, local electrical utility companies and the public constitute an invaluable part of this proposal. Commonwealth Inspection Bureau, Inc. takes pride in its spotless compliance record and performance of the prior and existing contracts with the Lexington-Fayette Urban County Government as well as its record of service to this community. Commonwealth Inspection Bureau, Inc. submits that its past performance is the best indicator of its future ability to perform the work required under this proposal.

In a small number of cases the Subrogation Recovered Amount includes the return of Loss/ALAE overpayments.

Typically on first party claims, Deductibles are represented as $0 (zero) as they are netted from paid amounts.

Amounts do not reflect reimbursements to the insured.

As of September 4, 2019, the Loss Run Reporting totals will reflect ground up values which include Insured Obligation Payments. Reports accessed prior should not be directly compared with versions pulled after September 4, 2019.

LFUCG STATEMENT OF GOOD FAITH EFFORTS
Bid/RFP/Quote # RFP 49-2024

By the signature below of an authorized company representative, we certify that we have utilized the following Good Faith Efforts to obtain the maximum participation by MWDBE and Veteran-Owned business enterprises on the project and can supply the appropriate documentation.

_____ Advertised opportunities to participate in the contract in at least two (2) publications of general circulation media; trade and professional association publications; small and minority business or trade publications; and publications or trades targeting minority, women and disadvantaged businesses not less than fifteen (15) days prior to the deadline for submission of bids to allow MWDBE firms and Veteran-Owned businesses to participate.

_____ Included documentation of advertising in the above publications with the bidders good faith efforts package

_____ Attended LFUCG Procurement Economic Inclusion Outreach event

_____ Attended pre-bid meetings that were scheduled by LFUCG to inform MWDBEs and/or Veteran-Owned Businesses of subcontracting opportunities

_____ Sponsored Economic Inclusion event to provide networking opportunities for prime contractors and MWDBE firms and Veteran-Owned businesses

_____ Requested a list of MWDBE and/or Veteran subcontractors or suppliers from LFUCG and showed evidence of contacting the companies on the list(s).

_____ Contacted organizations that work with MWDBE companies for assistance in finding certified MWBDE firms and Veteran-Owned businesses to work on this project. Those contacted and their responses should be a part of the bidder's good faith efforts documentation.

_____Sent written notices, by certified mail, email or facsimile, to qualified, certified MWDBEs soliciting their participation in the contract not less than seven (7) days prior to the deadline for submission of bids to allow them to participate effectively.

_____ Followed up initial solicitations by contacting MWDBEs and Veteran-Owned businesses to determine their level of interest.

_____ Provided the interested MWBDE firm and/or Veteran-Owned business with adequate and timely information about the plans, specifications, and requirements of the contract.

_____ Selected portions of the work to be performed by MWDBE firms and/or Veteran-Owned businesses in order to increase the likelihood of meeting the contract goals. This includes, where appropriate, breaking out contract work items

into economically feasible units to facilitate MWDBE and Veteran participation, even when the prime contractor may otherwise perform these work items with its own workforce

_____ Negotiated in good faith with interested MWDBE firms and Veteran-Owned businesses not rejecting them as unqualified without sound reasons based on a thorough investigation of their capabilities. Any rejection should be so noted in writing with a description as to why an agreement could not be reached.

_____ Included documentation of quotations received from interested MWDBE firms and Veteran-Owned businesses which were not used due to uncompetitive pricing or were rejected as unacceptable and/or copies of responses from firms indicating that they would not be submitting a bid.

_____ Bidder has to submit sound reasons why the quotations were considered unacceptable. The fact that the bidder has the ability and/or desire to perform the contract work with its own forces will not be considered a sound reason for rejecting a MWDBE and/or Veteran-Owned business's quote. Nothing in this provision shall be construed to require the bidder to accept unreasonable quotes in order to satisfy MWDBE and Veteran goals.

_____ Made an effort to offer assistance to or refer interested MWDBE firms and Veteran-Owned businesses to obtain the necessary equipment, supplies, materials, insurance and/or bonding to satisfy the work requirements of the bid proposal

_____Made efforts to expand the search for MWBE firms and Veteran-Owned businesses beyond the usual geographic boundaries.

__X__ Other--any other evidence that the bidder submits which may show that the bidder has made reasonable good faith efforts to include MWDBE **and Veteran participation.**

NOTE: Failure to submit any of the documentation requested in this section may be cause for rejection of bid. Bidders may include any other documentation deemed relevant to this requirement which is subject to approval by the MBE Liaison. Documentation of Good Faith Efforts must be submitted with the Bid, if the participation Goal is not met.

The undersigned acknowledges that all information is accurate. Any misrepresentations may result in termination of the contract and/or be subject to applicable Federal and State laws concerning false statements and claims.

LFUCG STATEMENT OF GOOD FAITH EFFORTS Bid/RFP/Quote # 49-2024

Response:

The contract awarded by this RFP prohibits subcontracting, so all electrical inspection work will be self-performed. Thus, there can be no dealings with MBE/WBE subcontractors. Due to the mature of electrical inspection work, there is no need for the purchase of construction supplies or materials from any MBE/WBE suppliers.

We have requested a list of the Certified Business for the Lexington- Fayette Urban County Government's minority business liaison and will utilize services of these business when possible.
