Addendum

Agency: Baby Health Service, Inc.

Priority Area: Community Wellness & Safety

Program Name: BHS Clinic – Medicine, Hearing, Vision & Dental Services

LFUCG Extended Social Resource Grant Program FY18 & FY19 Funding: \$77,280 (\$38,640 per FY)

Program Summary: Baby Health Service (BHS) is the only completely free healthcare clinic in Fayette County that treats uninsured children from birth through age 17. According to the U.S. Census Bureau, 4.2% of Kentucky's children don't have health insurance. The Centers for Medicare and Medicaid Services are creating a new plan for Kentucky Medicaid and if Governor Bevin cannot come to an agreement with them, 430,000 Kentuckians may lose their coverage. Until this under-served population can obtain health insurance through the state/federal system or private companies, BHS clinic is where they can go.

Desired Outcomes for Clients: BHS hopes to continue to provide quality healthcare that is patient centered and respectful of each child and family, regardless of race, religion or nationality. We hope to provide each child with 1) preventative and primary health care free of charge, 2) immunizations free of charge, 3) appropriate medications free of charge, 4) labs and x-rays as needed free of charge, 5) services and counseling to help reduce the BMI of our obese patients and 6) basic dental exams and cleanings.

One of our goals is to continue to aid in the reduction of childhood obesity rates in Fayette County through education, counseling, and tracking of patients with high BMIs. Children with an overweight diagnosis (BMI > 85%) get enrolled in the "Stars" program, which includes: monthly visit for labs and weight check, pedometer check, \$10 fruit and vegetable voucher to Save-A-Lot, and portion control discussion with the Nurse Practitioner. In 2015, 150 children with BMI's over 85% were seen, counseled and monitored.

Our service philosophy is to continue to provide each child and family with educational information regarding the CDC immunization schedules, developmental milestones and health maintenance of their children, as well as providing immunizations, medications, labs, x-rays, and dental care as needed to our patients free of charge.

Each of these individuals are able to help in assisting the health and well-being of the children who come to the BHS clinic.
