

**SITE SPECIFIC AGREEMENT:**  
**MADDEN KR LLC**

This Site Specific Agreement (the "Agreement") is made and entered into on the 28th day of April, 2026, by and among **LEXINGTON-FAYETTE URBAN COUNTY GOVERNMENT**, a Kentucky urban county government (hereinafter "**LFUCG**"), the **JESSAMINE-SOUTH ELKHORN WATER DISTRICT**, a Kentucky rural water and sanitation district (hereinafter "**JSEWD**"), and **MADDEN KR LLC**, a Kentucky limited liability (hereinafter "**MADDEN**").

**WITNESSETH:**

**WHEREAS**, **MADDEN** currently holds an equitable interest to acquire that certain real estate, located in Jessamine County, Kentucky located to the south of Brannon Road commonly known as 3255 Lexington Road, Nicholasville, Kentucky and being more particularly described in Exhibit "A" attached hereto (the "Property") pursuant to that certain Purchase and Sale Agreement dated as of January 12, 2025, between **MADDEN** as buyer and Porter Memorial Baptist Church of Lexington, as seller (the "Purchase Contract") and **MADDEN** anticipates completing its acquisition of the Property in May 2026; and

**WHEREAS**, the parties acknowledge that there is limited sanitary sewer capacity available; and

**WHEREAS**, the parties further acknowledge the importance of and the interrelationship of storm water as it may impact sanitary sewer collection and conveyance; and

**WHEREAS**, **JSEWD** and the Lexington- Fayette Urban County Government, hereinafter "**LFUCG**", are willing to provide sanitary sewer service to the Property.

**NOW, THEREFORE**, conditioned upon **MADDEN'S** compliance with and subject to the terms of this Agreement and for and in consideration of the premises, the mutual undertakings and agreements herein contained and assumed, **MADDEN** and **JSEWD** hereby covenant and agree as follows:

1. **Sewer Capacity.** The parties agree that the sanitary sewer capacity needed to provide service to the Property shall not exceed 89,761 gallons per day (average daily flow) for sewage collection and conveyance.

**Agreement to Serve.** Conditioned upon **MADDEN'S** full compliance with the **LFUCG'S** Code of Ordinances, including but not limited to Chapter 16, all administrative regulations, rules, practices and procedures of the **LFUCG** Department of Environmental Quality and Public Works ( i.e. Procedures Manuals for Infrastructure Development, Sanitary Sewers and Pump Stations), and the rates, rules and regulations of **JSEWD** and Jessamine County

relating to operation and use of the sanitary sewer system, as may be amended from time to time, (all entities' regulations hereinafter referred to as the "Code") and subject to the terms and conditions of this Agreement, upon the completion of the construction of the sanitary sewer facilities by MADDEN, JSEWD and LFUCG agree to permit connection of the sanitary sewer facilities installed by MADDEN to the existing facilities of LFUCG and JSEWD, if any, and to provide sanitary sewer utility service to the Property. MADDEN expressly agrees that it shall not make any agreements with (relative to capacity reservation or otherwise) or permit any adjoining property owner access to or use of the sanitary sewer infrastructure to be constructed without the prior written authorization from JSEWD and LFUCG. JSEWD shall have the right in its sole and unfettered discretion to require MADDEN to convey to JSEWD the sanitary sewer facilities constructed under this Agreement at no cost to JSEWD and subject to an operable and reasonable state of condition of the facilities conveyed, but JSEWD shall not be compelled to request or accept conveyance.

It is understood and agreed by the parties that this Agreement shall in no way constitute, nor shall be construed to be, a reservation of sanitary sewer treatment capacity for MADDEN by JSEWD or LFUCG, or an agreement by JSEWD and LFUCG to collect, convey, treat or in any way manage storm water. In order to secure a reservation of sanitary sewer capacity for the improvements shown in Group Exhibit "B", MADDEN must meet all terms and conditions of the Code, more specifically LFUCG Code of Ordinances Chapter 16, Article XIII, Sanitary Sewer Capacity Assurance Program (CAP). Furthermore, the parties hereto agree that in the event MADDEN fails to complete all requirements under this Agreement within 540 days from the date of same, this agreement shall automatically expire and become a nullity, but only as to facilities not constructed and connections not made.

3. **Connection Fees.** MADDEN agrees to be responsible for and pay all fees in the sum approved by the Kentucky Public Service Commission and, in addition, the amount of LFUCG sewer connection fees provided in the Code to JSEWD ("Connection Fees"). Said Fees are in consideration for the sewage collection, conveyance and treatment by JSEWD and LFUCG. The Connection Fees shall be paid as building permits are issued for each of the lots on the Property. In the event MADDEN does not construct the homes on the lots, then any successor in title shall be responsible for the Connection Fee at the time the building permit is issued.

4. **Additional Fees.** In addition to the Connection Fees heretofore referenced, MADDEN agrees to pay the full cost of sewer service to its Property, including, but not limited to the following additional charges and fees (the "Additional Fees"):

(a) MADDEN shall have paid all reasonable charges assessed by JSEWD and LFUCG for plan review, construction inspection, testing, and other services (legal and administrative) of JSEWD and/or LFUCG in any way related to the sanitary sewer system.

(b) MADDEN shall pay all sanitary sewer use fees ("Sewer User Fee") as provided in the Code, as may be amended from time to time. The Sewer User Fee is generally based on water consumption and MADDEN agrees to have the local water company which provides water to the Property, or any part thereof, provide duplicate billings to JSEWD, 802 South Main Street, Nicholasville, Kentucky (P.O. Box 731, Nicholasville, KY 40340-0731). JSEWD will calculate and bill MADDEN or the appropriate user for such Sewer User Fees which shall be due and payable as set forth in the Code. All unpaid Sewer User Fees shall be subject to a late penalty and interest as set forth in the Code. Further, JSEWD shall be entitled to recover all its costs of collection of same, including reasonable attorney fees.

(c) If required, MADDEN shall pay a surcharge for odor control chemicals on a monthly or less frequent basis as determined by JSEWD. LFUCG retains, in perpetuity, the right to approve or disapprove the use of any odor control chemical for the Property.

(d) Pre-treatment permit fees/extra strength fees (when applicable) shall be paid to LFUCG in accordance with the Code, Section 16-46 and Schedule B of Section 16-49.

5. **Lien to Secure Payment of Connection Fees and Additional Fees.** JSEWD shall have a lien against the Property to secure the payment of all Connection Fees and Additional Fees, interest, penalties and the costs of collection, including reasonable attorney fees. The lien shall attach to the Property, or applicable part thereof, as the Connection Fees and/or Additional Fees become past due without necessity of filing any lien statement by JSEWD.

6. **Sanitary Sewer and Storm Water Management Installations.** To induce JSEWD and LFUCG to provide sanitary sewer service to the Property, MADDEN agrees to rehabilitate and construct, according to the plans and specifications approved by JSEWD and LFUCG as reflected in Group Exhibit "B", all on-site and off-site installations and facilities required by LFUCG and JSEWD to connect to the existing facilities of LFUCG and JSEWD, if any, to provide sanitary sewer service to the Property, including but not limited to all equipment, fixtures, pumps, lines, mains, manholes, lift stations, pumping stations, laterals, service connections, and to obtain appurtenances thereto together with all real property, easements and rights of way as necessary. To also induce JSEWD and LFUCG to provide sanitary sewer service to the Property, MADDEN shall size, rehabilitate and construct, at its sole cost and expense, the proposed sanitary sewer facilities in a manner that provides the sanitary sewer capacity necessary to service all 1) developed/un-served upstream properties; 2) undeveloped upstream properties in accordance with JSEWD'S Sanitary Sewer Master Plan, LFUCG Watershed, North Jessamine County, Kentucky, Jessamine-South Elkhorn Water District, March 2006. The construction of infrastructure to serve developed/unserved and undeveloped upstream properties is in no way an approval or endorsement by LFUCG and JSEWD to provide future sanitary sewer service to those properties. Future developers of properties upstream of the Property may be required to improve downstream LFUCG and JSEWD infrastructure in order to secure a Site Specific Agreement for those properties. To further induce JSEWD and LFUCG to provide sanitary

sewer service to the Property, MADDEN agrees to rehabilitate and construct, according to the plans and specifications approved by THE CITY OF NICHOLASVILLE, JSEWD, LFUCG and the Kentucky Division of Water as reflected in Group Exhibit "B", all on-site storm water facilities. The procedures for the design and construction of the storm water system shall comply with the same procedures outlined in numerical paragraph eight (8) herein for sanitary sewer systems, except that the applicable regulations for storm water management installations shall be substituted for those applicable to sanitary sewers and THE CITY OF NICHOLASVILLE, as the appropriate authority exercising control over storm water management, shall inspect and accept the storm water management installations. The foregoing improvements, both sanitary and storm water systems, may be referred to as the "Improvements" and Group Exhibit "B" may be referred to as the "Plans".

If the Improvements will require a pump station, the peak discharge into the JSEWD and/or LFUCG gravity system shall be specified by JSEWD and LFUCG. Design of the pump station shall include a meter capable of recording all flow discharging from the pump station and telemetry equipment as specified by JSEWD. Odor control facilities shall be constructed as directed by JSEWD and LFUCG. LFUCG retains, in perpetuity, the right to approve the use of any odor control chemical for the Property. If any pump stations are classified as "temporary" on the Plans, MADDEN will, at its own cost and secured by a bond or a letter of credit, connect to the gravity line as same becomes available and shall remove such "temporary" stations.

**7. Procedures for the Property Sewer System.** MADDEN agrees that the design and construction of the Improvements shall be subject to and in accordance with the Code and all administrative regulations, rules, practices and procedures of the LFUCG Department of Environmental Quality and Public Works and JSEWD relating to the Improvements and the following requirements, whether or not these requirements are contained in the foregoing ordinances, regulations, administrative rules, practices and procedures:

(a) During construction of the Improvements, LFUCG and JSEWD shall have the right to inspect such installations, including but not limited to the materials, equipment, piping, and connections to determine compliance with the approved Plans and JSEWD shall also have the right to halt construction, if necessary, in the event of non-compliance by MADDEN. JSEWD agrees to issue a stop work order to MADDEN, if requested to do so in writing by LFUCG. MADDEN shall also provide JSEWD and LFUCG with periodic written certifications by MADDEN's engineer that all construction is in full compliance with the approved Plans and any applicable permits or other requirements.

(b) At least seven (7) days prior to final inspection by JSEWD and LFUCG, MADDEN shall provide JSEWD and LFUCG with three (3) sets of digital (AutoCAD) of the "as-built" plans, prepared by MADDEN's engineer, showing the location of all installations related to the Improvements as constructed. MADDEN shall provide JSEWD five (5) sets of as-built sanitary and storm water drainage plans, two (2) copies of the recorded subdivision plat of the Property and three (3) copies (DVD and inspection log) of a TV inspection of the sanitary and storm sewer systems. MADDEN shall also

deliver to JSEWD, seven (7) days prior to final inspection, its engineer's certification and test results of the Improvements.

(c) Upon completion of construction of the Improvements or any part thereof, MADDEN's engineer shall deliver a signed certificate of completion to JSEWD certifying to JSEWD and LFUCG that the construction is completed, that the construction has been completed in accordance with all permits, approved Plans, and any applicable legal requirements, and as constructed it will function for the purpose for which it was designed. MADDEN shall provide proof satisfactory to JSEWD that all contractors, subcontractors, materialmen and laborers have been paid in full. Upon receipt of all of the above, payment of all fees, a deed of conveyance of the sanitary sewer system and final inspection by JSEWD and LFUCG of the Property sanitary sewer system, a letter of acceptance shall be delivered to MADDEN by JSEWD. No connection of any building located on the Property to the sanitary sewer system shall occur prior to the issuance of said letter of acceptance.

**8. Use of Property Sanitary Sewer System.** The use of the Property sanitary sewer system shall be subject to full compliance with the Code. All connections of any building constructed on the Property, or any part thereof, to the Property sanitary sewer system shall require a tap-on permit, inspection and approval by the JSEWD and LFUCG. Any connection of a building to the Property sanitary sewer system without a tap-on permit, inspection and approval may result in immediate disconnection by JSEWD.

**9. Representation and Warranties of MADDEN.** In order to induce JSEWD and LFUCG to enter into this Agreement, MADDEN hereby represents and warrants to JSEWD and LFUCG as follows:
