The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

#### F. STATISTICS & QUANTITY ESTIMATES

Please see Tables 1, 2 and 3 for information from the last two Household Hazardous Waste Collection events held by the LFUCG in 2014, 2016 and 2017. Approximately 1,500 vehicles were serviced at these three events. The quantities are presented below to aid vendors in pricing and preparing estimations for the 2018 event. These quantities are not guaranteed for the 2018 event. Invoices from 2018 event and prior Vendor pricing are attached for information purposes.

Respondents should note the LFUCG reserves the right to divert select wastes from the waste stream on the day of the event so that these can be optimally managed and to reduce costs to the LFUCG. For example, the LFUCG desires that some of the usable water-based (latex) paint be diverted out of the collection process at the event for reuse through our existing partnership with Habitat for Humanity ReStore to the extent practical.

Similarly, it may be advantageous for the LFUCG to contract directly with vendors (to include vendors that may not have responded to the RFP) that would pay for materials received during the HHW event that have an obvious marketable value (such as lead acid batteries). Respondents are encouraged to indicate how they would manage these types of materials and how much they will credit (pay) the LFUCG for these materials in Part III – Household Waste Collection Proposal Price sheet. The LFUCG reserves the right to utilize vendors other than the successful vendor for these marketable items should we determine it is advantageous to do so.

LFUCG is restricted from paying for disposal of certain materials using Kentucky Department of Environmental Protection grant funds. The LFUCG may want to accept these materials but manage them in alternate ways if that proves acceptable to the state. Used oil is one example. The LFUCG may enter into a recycling arrangement with vendors to recycle used oil at no cost to the state.

LFUCG asks that the contractor be staffed and prepared for LFUCG Divisions to drop off materials on the Friday afternoon prior to the public event. Materials to be expected during this internal collection will be consumer products that had been abandoned at public properties, consumer materials separated out of solid waste collection and recycling processes, and expired or unused products from LFUCG operations. For this internal collection only, LFUCG will be the generator as a Conditionally Exempt Small Quantity Generator (CESQG) for all materials. Contractor will collect, package, manifest, and bill separately. Disposal will be at the same waste category rates as quoted for the public HHW event unless otherwise indicated by the vendor in the RFP response. Although types and quantities will vary, Table 4 below shows for purpose of example the materials collected at last internal collection event.

### Important Information

The Total Disposal Cost (Part III- Household Hazardous Waste Collection Proposal Price Sheet) should be calculated by using the quantities listed in Table 4 below. The amounts listed below are estimates for price comparison only and are not guaranteed. Note: the quantities are specified in **pounds**, the preferred pricing method, unless otherwise stated. Respondents should also specify in their pricing the amount to be remitted/credited to the LFUCG (if any) for any items that have marketable value such as lead acid batteries.

The estimated amounts on the Pricing Sheet are to be used by LFUCG to compare proposals. The actual characterization of the material collected at the event will likely be different. See Tables 1 – 3 for previous collection totals.

**Household Hazardous Waste Collection Proposal**

**Part I: Vendor Qualifications**

Please describe vendor qualifications, including examples of relevant work performed in the recent past. Include the name and phone number of a contact person for each example provided. Attach to this sheet proof of all necessary state and federal licenses and permits needed for the transportation and disposal of wastes; copies of any notices of violations, administrative orders, or other enforcement actions taken by regulatory agencies within the last five years against the primary vendor, parent company, or probable sources of waste disposal; and copies of any letters of recommendation, awards or other recognition received in the last five years.

**Spring 2018**  
**Household Hazardous Waste Collection Proposal**  
**Part II: Site Set-up**

The event will take place at the LFUCG old landfill pad, located at 1631 Old Frankfort Pike, Lexington, KY. Cars will enter the site through Jimmie Campbell Drive and exit on Old Frankfort Pike. (Aerial photo of site is attached).

Please provide examples of set-up diagrams for events conducted by your company, especially those with a high volume of traffic that include four lanes. Diagrams should include the following areas: Vehicle Unloading, Material Identification and Separation, Material Bulking, Non-Regulated Waste Disposal, and Truck Loading. Please include plans for handling overflow of traffic and materials, including plans to add more lanes for unloading and plans to bring in materials from outside to accommodate excess wastes. Please attach a description of spill and fire prevention plans, an emergency response plan, and a detailed outline of any volunteer training program provided by the vendor. The protocols for testing for unknown substances and packaging/transporting lithium batteries should also be attached.

Please note that the site of the event is a landfill cap with an asphalt pad cover. Tents cannot be staked and grounding rods cannot be used on the asphalt. Grounding rods can be driven off the pad. The pad and surrounding area will need to be maintained to be in the same condition that existed prior to the event.

### Pricing Item #5: Mercury

Liquid Mercury is priced at \$27.00 per pound due to changes in US Regulations directed towards the shipment of Liquid Mercury being shipped outside the borders of the continental United States.

This pricing however does not affect Mercury Compounds and Mercury Pesticides which remain classified as Toxic Lab Packs and Pesticides Liquids and Solids which remain at normal HHW prices of \$1.05 per pound and follow the same packaging requirements which allow them to be packaged as like materials for Toxics (Mercury Compounds) and Pesticides (Pesticide Liquids or Solids).
