FINDINGS OF FACT & CONCLUSIONS

The above matter having come before the Lexington-Fayette Urban County Council on January 19, 2017, and the Council having considered all of the evidence presented to it and being fully advised, makes the following Findings of Fact & Conclusions:

1. The subject properties are located in the southeastern portion of Fayette County, along Boone Creek and the Clark-Fayette County boundary. The subject properties front along Old Richmond Road (US 25 & 421) and Durbin Lane, just east of Interstate 75 and a short distance north of Exit 99.
2. The subject properties are located within the Rural Service Area of Lexington-Fayette County. The 1999 Rural Land Management Plan was developed to guide resource management in planning for this portion of the county, and the Plan recommends the subject properties be utilized for natural area (NAT) land use.
3. The petitioner has requested a zone change from an Agricultural Rural (A-R) zone to an Agricultural Natural (A-N) zone for approximately 41.5 acres of property.
4. The Petitioner has estimated that between 15,000 and 25,000 visitors per year will use the subject properties.
5. The area in which the subject properties and adjacent properties are located is characterized by steep slopes, forested areas, and thinner/poor soils and is known as a habitat for rare and unusual flora and fauna.
6. The subject properties are bordered on the east by Boone Creek, a tributary to the Kentucky River Pool 9.
7. Because these lands are environmentally sensitive, special care is needed to insure that the uses that are permitted are compatible with the goals of conservation and preservation of these lands.
8. Two properties that are immediately adjacent to the north and northeast of the subject properties have granted conservation easements to the Lexington-Fayette Urban County Government PDR Program (the "PDR Properties").
9. KRS 100.203(8) and Article 6-7 of the Zoning Ordinance authorize the Council to impose conditions on the granting of a zone map amendment if one or more of the uses permitted in the A-N zone would impair the integrity and character of the area, including (i) restricting the use of the subject properties to a particular use or a particular class of use; and (ii) imposing screening and buffering restrictions upon the subject properties.

Based upon the foregoing, the Lexington-Fayette Urban County Council:

1. Approves the requested Agricultural Natural (A-N) zoning for the subject properties for the following reasons:
 - A. The requested Agricultural Natural (A-N) zoning for the subject properties is in agreement with the Rural Land Management Plan's recommendations for Natural Areas (NAT) land use at this location.
 - B. The 2013 Goals and Objectives encourage the development of appropriate attractions as supporting uses that promote and enhance tourism (Theme C Goal 1 Objective e) and the rural character of the Rural Service Area (Theme E Goal 2), and protect the environment (Theme B).
- 2) Concludes that allowing the subject properties to be used for the following uses and other uses permitted in the A-N zone would (i) require grading and the construction of improvements on the land, (ii) result in the deforestation of the land and the destruction of rare and unusual flora and fauna and wildlife habitat, and (iii) cause erosion and the depositing of silt and sedimentation in Boone Creek, a tributary to the Kentucky River Pool 9, and would, therefore, impair the integrity and character of the area in which the subject properties and the adjacent properties are located:
 - A. Cemeteries, crematories, columbariums, and mausoleums;

- B. Churches, Sunday Schools, and parish houses;
 - C. Non-service facilities of public utilities and common carriers by rail, including office, garage, and warehouse space;
 - D. Outdoor rifle and other firearm ranges and outdoor rodeos;
 - E. Mining and/or quarrying of non-metallic minerals;
 - F. Radio, telephone, and/or television transmitting or relay facilities; and
 - G. Youth camps.
- 3) Pursuant to KRS 100.203(8) and Article 6-7 of the Zoning Ordinance, imposes the following conditions upon the granting of the zone map amendment:
- A. The use of the subject properties are restricted to only the following Conditional Uses:
 - (i) Commercial and non-commercial outdoor recreational facilities (without outdoor lighting, loud speakers, retail sales of merchandise, restaurants or food service, and the like), including fishing lakes, including private clubs for only these uses; but excluding zoological gardens; Sportsman's farms (including outdoor rifle and other firearm ranges); native animal game preserves; outdoor rodeos; hunting and trapping; and primitive campgrounds.
 - (ii) Agritourism activities, including farm gift shops (limited to 500 square feet), and educational classes relating to agricultural products and skills; but excluding corn mazes, horse shows, and seasonal activities.
 - (iii) Ecotourism activities, including hiking and bicycling trails, tree canopy tours; canoeing and kayaking launch sites; botanical gardens; nature preserves; but excluding equine trails and recreational outfitters.
 - B. The Applicant shall construct and maintain a diamond wire mesh boundary line fence between the subject properties and the adjacent PDR Properties to prevent the customers using the subject properties from encroaching or trespassing on the adjacent PDR Properties.
 - C. The Applicant shall preserve a 50 foot buffer area adjacent to Boone Creek and the PDR Properties in which no trees or other vegetation, except for invasive species, shall be removed or eradicated.
