This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded

- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

- (1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.
- (2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

- (1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification

shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

LFUCG STATEMENT OF GOOD FAITH EFFORTS

Bid/RFP/Quote # _____

By the signature below of an authorized company representative, we certify that we have utilized the following Good Faith Efforts to obtain the maximum participation by MWDBE business enterprises on the project and can supply the appropriate documentation.

_____ Advertised opportunities to participate in the contract in at least two (2) publications of general circulation media; trade and professional association publications; small and minority business or trade publications; and publications or trades targeting minority, women and disadvantaged businesses not less than fifteen (15) days prior to the deadline for submission of bids to allow MWDBE firms to participate.

_____ Included documentation of advertising in the above publications with the bidders good faith efforts package

_____ Attended LFUCG Central Purchasing Economic Inclusion Outreach event

_____ Attended pre-bid meetings that were scheduled by LFUCG to inform MWDBEs of subcontracting opportunities

_____ Sponsored Economic Inclusion event to provide networking opportunities for prime contractors and MWDBE firms

_____ Requested a list of MWDBE subcontractors or suppliers from LFUCG Economic Engine and showed evidence of contacting the companies on the list(s).

_____ Contacted organizations that work with MWDBE companies for assistance in finding certified MWDBE firms to work on this project. Those contacted and their responses should be a part of the bidder's good faith efforts documentation.

_____ Sent written notices, by certified mail, email or facsimile, to qualified, certified MWDBEs soliciting their participation in the contract not less than seven (7) days prior to the deadline for submission of bids to allow them to participate effectively.

_____ Followed up initial solicitations by contacting MWDBEs to determine their level of interest.

_____ Provided the interested MWDBE firm with adequate and timely information about the plans, specifications, and requirements of the contract.

_____ Selected portions of the work to be performed by MWDBE firms in order to increase the likelihood of meeting the contract goals. This includes, where appropriate, breaking out contract work items into economically feasible

units to facilitate MWDBE participation, even when the prime contractor may otherwise perform these work items with its own workforce

_____ Negotiated in good faith with interested MWDBE firms not rejecting them as unqualified without sound reasons based on a thorough investigation of their capabilities. Any rejection should be so noted in writing with a description as to why an agreement could not be reached.

_____ Included documentation of quotations received from interested MWDBE firms which were not used due to uncompetitive pricing or were rejected as unacceptable and/or copies of responses from firms indicating that they would not be submitting a bid.

_____ Bidder has to submit sound reasons why the quotations were considered unacceptable. The fact that the bidder has the ability and/or desire to perform the contract work with its own forces will not be considered a sound reason for rejecting a MWDBE quote. Nothing in this provision shall be construed to require the bidder to accept unreasonable quotes in order to satisfy MWDBE goals.

_____ Made an effort to offer assistance to or refer interested MWDBE firms to obtain the necessary equipment, supplies, materials, insurance and/or bonding to satisfy the work requirements of the bid proposal

_____ Made efforts to expand the search for MWBE firms beyond the usual geographic boundaries.

_____ Other - any other evidence that the bidder submits which may show that the bidder has made reasonable good faith efforts to include MWDBE participation.

Failure to submit any of the documentation requested in this section may be cause for rejection of bid. Bidders may include any other documentation deemed relevant to this requirement. Documentation of Good Faith Efforts are to be submitted with the Bid, if the participation Goal is not met.

The undersigned acknowledges that all information is accurate. Any misrepresentations may result in termination of the contract and/or be subject to applicable Federal and State laws concerning false statements and claims.

Versailles Road Corridor Improvements Alternatives Analysis Study

SCOPE OF SERVICES

The Lexington Fayette Urban County Government is accepting proposals from qualified firms for professional engineering and landscape architectural services, to undertake planning and preliminary design work for public infrastructure improvements along a portion of the Versailles Road corridor. The Scope of Services is for the development of roadway, roadside and streetscape elements, formulating the basis for future design and construction of improvements along Versailles Road, between Oliver Lewis Way and Parkers Mill Road, a distance of approximately 2.4 miles.

Consultants must have the experience necessary such as civil and traffic engineering, landscape architecture, environmental engineering and transportation planning to professionally evaluate current conditions and to capably capture, portray and quantify all elements proposed for corridor improvements. Firms submitting proposals must be prequalified with the Kentucky Transportation Cabinet in Urban Roadway Design, Highway Planning Services and Pedestrian and Bicycle Facility Planning and Design.

Background

Versailles Road in western Fayette County is an arterial roadway that serves a variety of users. It serves as a major commuter route between downtown Lexington and Versailles in Woodford County, as well as areas farther west. As US 60, Versailles Road is a state primary route, a part of the Federal Aid System and a National Truck System route, providing for the movement of goods, livestock and people in the region. It functions as a gateway to Lexington for travelers utilizing Blue Grass Airport; it provides a conduit for patrons of Keeneland and fans of University of Kentucky sporting events. Traffic volumes of 25,000 vehicles per day are typical.

The corridor is comprised of a variety of land uses: commercial, industrial, single-family residences, apartment complexes, churches, neighborhood businesses, and institutional and social services. This mix of uses generates a considerable volume of pedestrian traffic. And the resulting socioeconomic mix of residents and users along the corridor provides one of the highest levels of LexTran ridership within Fayette County.

Overview

The design group will need to work closely with the Lexington-Fayette Urban County Government, the Kentucky Transportation Cabinet, corridor neighborhoods, organizations and businesses.

The feasibility study and preliminary design work will utilize local funding; however, there is the potential that state and/or federal money may be used to fund subsequent stages of project development. Therefore, procedures and reporting will require adherence to applicable state and

federal requirements and the Federal-Aid Highway Program Project Development Guide for Local Public Agencies.

A significant study, entitled *Versailles Road Multi-modal Enhancement Design Alternatives Study*, was recently completed by the Kentucky Transportation Center (KTC) for much of this same Versailles Road corridor. That study evaluated roadway utilization options, based on current traffic counts and the components of the traffic flow. The Consultant will need to be familiar with this KTC study and should be in a position to build upon it or to refute its findings. The study may be accessed at the Lexington Area MPO website:
http://www.lexareampo.com/images/stories/DocumentLibrary_PDFs/r_versaillesmodal_20130506final.pdf.

The Consultant should be familiar with past corridor and landscaping studies, with applicable elements of the 2007 Bicycle and Pedestrian Master Plan, and generally with “complete street” concepts as they may be incorporated into redevelopment and adaptive re-use scenarios.

If funds become available at some future date to pursue design and implementation of some or all recommended improvements, this scope of services may be expanded to include this next step, with the cost of additional services negotiated at that time. LFUCG reserves the right to change consultants for future work or continue with the selected consultant.

General Work Elements

1. Environmental Assessment

This study will not directly involve any environmental assessment but should identify environmental requirements that would need to be met in future design scenarios and estimate the costs for doing so.

2. Cost Estimates:

The Consultant shall prepare cost estimates for each design alternate developed, to include costs for associated utility work and right of way acquisitions.

3. Rights-of-Way and Easements

Right of way and easement requirements for developed alternates shall be estimated and documented. This may be done primarily via spreadsheet. Sufficient typical or critical cross sections are to be provided to demonstrate the basis for the estimated right of way and easement acquisition requirements.

4. Drawing Scales

All quantities measured, calculated, and specified shall be in English units (e.g., feet, pounds).

All drawings and sheets shall conform to the follow scales:

- | | |
|--------------------------|---|
| a. Plan Sheets | 1" = 50' |
| b. Profile sheets | 1" = 50' horizontal 1" = 5' vertical |
| c. Cross sections sheets | 1" = 5' horizontal 1" = 5' vertical |

In order to show sufficient detail in critical locations, the Consultant will need to work up detail sheets that deviate from the above scales. It is not anticipated that profile sheets will be needed for the full length of roadway under study, but only at intermittent locations where greater clarity may be needed.

LFUCG will provide the Consultant with the most recent aerial photography available and GIS information for the Consultant's use in preparing base sheets.

5. Plans, Specifications, and Bid Documents

The Consultant's work under this contract does not include preparation of construction-related plans, specifications and bid documents.

6. Utility Company Coordination

The Consultant will need to coordinate with each utility company that has facilities within the roadway corridor. Options and costs for moving facilities, either laterally as necessitated by proposed improvements, or moving from overhead to underground, are to be explored as necessary to properly evaluate, compare and contrast alternatives.

7. Public Meetings

Interactions with the public will be an important part of this project. Following are the public meetings anticipated at this time. The Consultant should consider adequacy of the meeting list and outline in the proposal all meetings proposed. Consultant is responsible for conducting all public meetings and shall provide color renderings/illustrations, survey forms, agenda, etc. for them. The proposal shall include hourly rates in the proposal for

additional services, should additional public meetings beyond those outlined in this phase be required.

| | |
|---------------------------|------------|
| Corridor Public Meetings | 2 meetings |
| Businesses, Associations | 2 meetings |
| Intergovernmental | 2 meetings |
| LFUCG Council, Committees | 2 meetings |
| Combined utilities | 1 meetings |

One-on-one or informal meetings with other corridor stakeholders such as LexTran, FCPS, utility providers and various local government service providers will also be expected as part of the general work effort, outside the “public meeting” format.

8. Schedule and Completion

Contract time for this project is 180 calendar days from the date of the Notice to Proceed. Within the proposal, the Consultant shall provide a schedule showing milestones, deliverables and the number of calendar days into the contract period that each milestone occurs.

9. Method of Invoice and Payment:

The Consultant may submit monthly invoices for basic services or rendered work, based upon the Consultant’s estimate of the portion of the total services actually completed during the billing period. Each invoice shall be accompanied by a breakdown of hours attributed to each company comprising the design team, for both the billing period and the cumulative project period. A monthly report (in digital format) and an invoice summary are to be submitted with each invoice. Specific project time sheets and other payroll information may be subject to reviews and audits by the LFUCG.

Regardless of the invoices submitted by the Consultant, the Division of Engineering shall not approve a greater percentage of payment than outlined in the following schedule, as based upon the completion schedule of the previous section:

| | |
|--|------|
| Submission of preliminary concept drawings and plans | 40% |
| Submission of draft final report and drawings | 85% |
| Submission of final report and drawings | 95% |
| Final public presentation | 100% |

10. Deliverables

- Five bound copies of the final report
- CD or flash drive with:
 - Any PowerPoint presentations created
 - Final report in Word format

- Final report in PDF format
- Drawings/graphics in PDF format
- Drawings/graphics in AutoCad dwg format, if applicable

Versailles Road Corridor Improvements Alternatives Analysis Study

This purpose of this alternatives analysis is to evaluate various improvement options for Versailles Road between Oliver Lewis Way and Parkers Mill Road. The options should generally be evaluated in terms of feasibility and future costs for design, right of way, utilities and construction (D,R,U,C)

Key points that this analysis is intended to address include:

- Identify the best cross sections for improvements. Essential elements to be considered include: accommodations for pedestrians, cyclists, busses and the motoring public; access management; aesthetic streetscape features; total costs for improvements.
- Identify properties involved or affected, describe the best instrument for acquisition and estimate the costs involved.
- Identify any potential environmental impacts.
- Identify any Environmental Justice issues that would need to be addressed in a future design phase.
- Identify any roadway drainage problem areas that would need to be addressed in a future design phase.
- Identify any potential issues related to regulatory agencies such as FEMA, Division of Water and Corps of Engineers.
- Estimate costs of design, with typical sections, alignments and profiles.
- Estimate cost of construction of each alternative.
- Evaluate possibilities for burial/modification of private utility overhead facilities along Versailles Road, including estimated costs.

The Study will identify and develop cross-section types and any associated right of way requirements and recommend a preferred cross-section alternative. This study will help the LFUCG decide which cross sections to pursue.

Information relative to alignment, grade, typical cross sections and unique or unusual construction situations identified or anticipated is to be included to the extent necessary to evaluate and compare alternatives.

Although it is assumed that these improvements will eventually be built with funds from federal and/or state sources, the Alternatives Analysis Study should explore options utilizing other sources of funding.

The budget established for this study is \$150,000; no contract modifications increasing that amount should be anticipated.
