LETTER OF INTEREST

RE: RFP #16-2024 DESIGN SERVICES FOR DUNBAR COMMUNITY CENTER MAINTENANCE AND IMPROVEMENTS PROJECTS

Selection Committee Members,

We are excited to submit our proposal to consult with you on the renovation of the Dunbar Community Center. NOMI has the breadth of design experience in public projects as well as a unique approach to creative problem-solving that will make us a valuable part of your team as you evaluate and reimagine your existing property.

1. SPECIALIZED EXPERIENCE AND TECHNICAL COMPETENCE (20%)

The NOMI team has over two decades of experience working on public projects. Our company began in 1989 under the name Lucas/Schwering Architects. Since then we have worked with over 50 K-12 and library districts.

Most recently we have completed selective renovations at Campbellsville Independent Middle School and Campbellsville Independent Elementary School and a total renovation of the International Book Project's headquarters. In early 2019 Marion County Public Library (MCPL) will open after a total renovation and addition. MCPL includes many community-oriented functions such as meeting spaces, program rooms, and maker spaces.

2. PROJECT MANAGER FIRM'S CURRENT CAPACITY AND ABILITY (15%)

Your project manager will be Matthew Brooks AIA, Principal of NOMI. A graduate of the University of Kentucky School of Architecture, Matthew has over 25 years of experience in the design and construction industry. His work with Nomi over the last 7 years has focused primarily on educational library and historic renovation and large scale industrial.

Matthew has successfully completed projects that vary in scale from under one million dollars to 30 million dollars.

Though NOMI has had a busy year in 2023, we are currently seeking new work for 2024 and are excited at the possibility of working with LFUCG on a public project that serves our community. We are a medium-size firm with the proven ability to successfully complete projects over 30 million dollars but the bulk of our work is in the five to ten million dollar range. We are therefore confident we have the experience and resources to deliver this project.

3. PAST RECORD AND PERFORMANCE (5%)

Our track record demonstrates you can count on us to deliver a high-quality design on time with an accurate opinion of cost. And our extremely low percentage of errors and omissions means you are less likely to incur unexpected costs during construction.

Comparisons of our cost opinions before bidding with the bid amounts and final construction costs reveal we have knack not only for designing to your budget but also for producing clear and correct documents that allow contractors to bid accurately.

For more information regarding the schedule and budget of relevant projects, please refer to the sections titled “How We Do It” and “Track Record” in our attached firm profile.

4. FAMILIARITY WITH DETAILS OF THE PROJECT (25%)

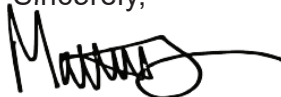

NOMI Design is headquartered in Lexington, KY just off of Winchester Road about two miles from the project site. Three of our team live in the neighborhood of the community center and have personal knowledge and interest in the well-being of the neighborhood. NOMI + KFI successfully completed Phase 1 of the project and is well versed with the scope, team, and existing space

5. DEGREE OF LOCAL EMPLOYMENT (5%)

NOMI and the consultants included in this proposal have offices based in Lexington where 100% of the work for this project will take place.

Thank you for considering NOMI to consult with you on your upcoming project. We invite you to read more about who we are, what we do, and how we do it in the attached firm profile. We look forward to speaking with you soon in more detail.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew Brooks", with a stylized flourish at the end.

SMART DESIGN

Our unique approach to design is collaborative, creative and human-centric.

VARIETY IS THE SPICE OF LIFE

We work successfully on multiple project types of varying scope and scale. This diversity is a cornerstone of our practice; it means we must remain nimble and continue to learn, research and develop. The experience we gain from one type of project often affects others in unexpected and exciting ways. Sharing of knowledge allows us to develop truly innovative solutions for our clients.

DESIGN THINKING

Design projects can seem overwhelming. They are huge puzzles filled with moving pieces. Time, space, light, gravity, structure, electricity, function, comfort, cost, legality, psychology, communication, health and safety all come into play and are all equally important components of a successful project.

That's where we come in. Our training and nature as architects and designers enables us to simultaneously envision all of these elements coming together in different ways, creating multiple outcomes. This unique skill set is our most valuable asset. It is our job to not only predict all of these scenarios but to critique and evaluate them, guiding you toward the best possible solution for your needs.

PEOPLE-FIRST APPROACH

It's not about us. It's about you.

Throughout the process our focus remains on you and the people who will ultimately be using the building or product we are designing. Our job is to be your advocate, guiding you through the design and construction process and delivering a completed project that will help your organization be successful in meeting its goals. For us the health, safety and experience of the user is paramount. It is not enough for our projects to be functional and comfortable, they must also inspire the people who use them.

HOW WE DO IT

COLLABORATION, CONTINUITY & COMMUNICATION

COLLABORATION

As a mid-size firm we wear many hats. Our office is an open, collaborative space that encourages the cross-pollination of ideas between project team members and project typologies. Every member of our firm will, at some point, provide input on your project and vet the design. **When you work with Nomi, you receive the sum of our collective experience, talent and creativity.**

CONTINUITY

Though many Nomies will participate, **the manager assigned to your project at the beginning will be with you through the end of construction.** As part of our commitment to you, this continuity of ownership ensures your vision is realized in the completed project.

COMMUNICATION

We specialize in creativity and out-of-the-box thinking but on any given day you will also find us *taking care of business.* **We believe in clear, straight forward communication and transparency.**

- JIM AKERS
COO, BLUEGRASS STOCKYARDS

Early in the process we map out a work plan (aka time line) of all project milestones and action items. We share this living document with you through cloud-based services so you can track the entire design process from beginning to end.

TRACK RECORD

HIGH QUALITY DESIGN ON BUDGET & ON SCHEDULE

What does this all mean for you? According to our track record it means **you can count on us to deliver a high-quality design on time with an accurate opinion of cost.** And our extremely low percentage of errors and omissions means your are less likely to incur unexpected costs during construction.

COST TO AREA RELATIONSHIP OF RECENT PROJECTS

VARIETY

We operate successfully at many different scales and types of projects. The chart below demonstrates the wide range of project sizes and costs we have completed recently. Perhaps even more important is the diverse ratios of cost to area (or dollars per square foot). **Nomi has a proven record of collaborating with our clients and using creative problem solving to help them accomplish their goals within their budget.** We are committed to finding the best design solution for you.

ABILITY TO COMPLETE

Comparisons of our cost opinions before bidding with the bid amounts and final construction costs reveal we have knack not only for designing to your budget but also for producing clear and correct documents that allow contractors to bid accurately.

MINORITY PARTICIPATION

DEMONSTRATE A FULL GOOD FAITH EFFORT TO IDENTIFY AND INCORPORATE MINORITY BUSINESS ENTERPRISES (MBE) FIRMS AS PART OF THE DESIGN TEAM

NOMI is an inclusive, diverse company and we make a conscious effort to seek out minority business partners. We build relationships with minority-owned businesses in the design and construction industry as well as in our local communities. We keep our contacts up-to-date with public and private bid opportunities, participate in mentoring programs that encourage diversity in architecture and design, and donate time each year toward a number of local organizations that support minority populations.

NOMI is proud to have a racially and ethnically diverse team with 50% of our leadership positions held by women.

AFTER

For the past ten years the majority of our work has been renovation and/or the adaptive re-use of historic properties. We have a passion for preserving architecture and the shared history of communities.

Most recently we completed the renovation of the International Book Project (IBP). In 2016 they developed a strategic plan that committed to increasing the number of books shipped to at least 500,000 per year. One of the major obstacles they faced was the condition of their facility.

Although it was in poor condition, inefficiently organized and uncomfortable for visitors, staff and volunteers, IBP's leadership wanted to salvage the building if possible.

Working closely with IBP, we evaluated their current structure and helped them decide whether to relocate or renovate. Of the three firms interviewed, Nomi was the only one to recommend preserving their historic warehouse property.

While salvaging the existing structure, bearing walls and roof, we introduced a new mechanical system and generated a flexible, open layout that allows staff and volunteers to operate efficiently now and into the future. IBP's headquarters is now a comfortable, safe work environment that supports the long-term logistical goals of their organization while showcasing the beauty of their historic structure.

FOCUS ON

FOR OVER 10 YEARS THE MAJORITY OF OUR WORK HAS BEEN FOCUSED ON RENOVATIONS AND ADAPTIVE RE-USE PROJECTS.

WE HAVE ACCEPTED AND SUCCESSFULLY DELIVERED RENOVATION PROJECTS SO CHALLENGING OTHER FIRMS CALLED THEM IMPOSSIBLE.

DUNBAR COMMUNITY CENTER PH I

NOMI partnered with Dunbar to repurpose a single computer room into ganged restrooms. The restroom included ten plumbing fixtures along with drinking fountains and required floor drains and hose bibbs. Electrical work to support the restroom addition included lighting, power receptacles, and fire alarm work in the restrooms as well as in the remainder of the computer room. HVAC work was included in the new restrooms.

CAMPBELLVILLE INDEPENDENT ADDITION + RENOVATION

The new Campbellsville Middle School is an 80,000 square foot addition/renovation to the Middle/High School Complex. It is set to transform the educational landscape. With a vision to create a cutting-edge project-based learning hub for our middle school, this project encompasses the demolition of the 1930's section, selective revamping of the 1950's areas, and new construction. Our focus is on technological innovation and adaptability, crafting a space that not only meets the current needs of our diverse student body but also anticipates and embraces future educational requirements. To ensure an uninterrupted academic journey, the project will unfold in carefully planned phases across 18 months, prioritizing the continuous growth and success of every student.

Executed in multiple phases, this project provides additional space and program while branding the campus with an identity that reflects tremendous school pride.

In addition to increased usable area, NOMI Design strengthened the relationship between the existing school and the back part of the site by strategically setting up new views and space. This was achieved by re-positioning the new athletic fields and new buildings and cutting specific views into the spaces. Students and visitors now have better access to sporting events and comfortable circulation across the site. The architect limited the material palette and invented a language of form to brand the school identity.

Working closely with IBP, we evaluated their current building and helped them make the difficult decision whether to abandon or renovate their existing location. Of the three firms interviewed, Nomi was the only one to recommend preserving their historic warehouse property.

We hosted a weekend Charrette (aka visioning session) for IBP administrators, staff and board members during which we facilitated a discussion about their operations and environment then translated that information into a working program. Using that program we generated a flexible, open layout that would allow staff and volunteers to operate efficiently now and into the future.

Brand reinforcement is essential for non-profit organizations who rely on community awareness to bring in volunteers and donations. Unique design elements like the re-purposed shipping container reinforce their mission of promoting global literacy by shipping books to over 50 countries.

MOOSE LODGE (RESPEC, INC. OFFICES)

What began as a renovation to a dilapidated 1840's Federal Style Residential structure, quickly turned into a large-scale Preservation and Architectural undertaking. With an important history as a residence, having been constructed for the first editor of Lexington's newspaper, the building served many uses over the years. Most recently the building had been a Moose Lodge and WellCare facility. Having been abandoned over a decade ago, the current owners, Linda Carroll and John Morgan, sought to renovate as a headquarters for a noted natural resources firm, Respec, Inc.

The entry is a blend of old vs. new with exposed, once-exterior, brick walls. An open floor plan creates meeting, library and lounge space which gives way to a kitchen, bath and shower suite. On the second floor the original sleeping porch now houses an open office. A large window provides access to a roof top terrace with sweeping views of downtown Lexington. The rear stair tower provides views and engagements with the existing building as you pass from the original brick building into the modern concrete addition then back into the historic space.

Construction Costs Consultants

[RP]+A

Cost Planning a construction project and controlling costs within a firm plan is a technique designed to assist Building Owners and Architects to obtain maximum value for the funds available. Most design contracts require the Architect to provide estimates of overall probable construction cost at various stage of design development, however, construction complexity makes it essential to contain such costs within a pre-established cost plan at the component, or element, level of detail rather than simply on the aggregate or "bottom line".

Robert Pass + Associates is a firm of construction cost consultants with considerable experience in cost planning and control. As a member of the design team, we can assist in developing a feasible program budget and maintaining cost control throughout the design period. This is accomplished as a constructive part of the design team at such time as is most beneficial to the design effort rather than producing cost estimates retrospectively after much design effort has been expended, some of which may subsequently prove to be abortive.

Construction Estimates.

- Establishing a realistic budget and initial cost plan for the required development or defining the extent of the project with the funds available.
- Advice to the Architect/Owner on the effects on costs of alternative structural systems, building configurations, materials and mechanical and electrical systems.
- Preparation of a detailed cost plan from the Architect's drawings for all phases of the work. This constitutes a reference against which all design developments are checked during the preparation of the working drawings.

These professional services, which go far beyond the normal cost opinions required from Architects and other design consultants, maintain a tight control of construction costs during design development. They help to provide the Owner with maximum value for the available funds and frequently effect substantial reduction of construction costs and prevent delays due to bids exceeding the budget.

AMERICAN RESCUE PLAN ACT

AMENDMENT 1 — CERTIFICATION OF COMPLIANCE FOR EXPENDITURES USING FEDERAL FUNDS, INCLUDING THE AMERICAN RESCUE PLAN ACT

The Lexington-Fayette Urban County Government (“LFUCG”) may use Federal funding to pay for the goods and/or services that are the subject matter of this bid. That Federal funding may include funds received by LFUCG under the American Rescue Plan Act of 2021. Expenditures using Federal funds require evidence of the contractor’s compliance with Federal law. Therefore, by the signature below of an authorized company representative, you certify that the information below is understood, agreed, and correct. Any misrepresentations may result in the termination of the contract and/or prosecution under applicable Federal and State laws concerning false statements and false claims.

The bidder (hereafter “bidder,” or “contractor”) agrees and understands that in addition to all conditions stated within the attached bid documents, the following conditions will also apply to any Agreement entered between bidder and LFUCG, if LFUCG uses Federal funds, including but not limited to funding received by LFUCG under the American Rescue Plan Act (“ARPA”), toward payment of goods and/or services referenced in this bid. The bidder also agrees and understands that if there is a conflict between the terms included elsewhere in this Request for Proposal and the terms of this Amendment 1, then the terms of Amendment 1 shall control. The bidder further certifies that it can and will comply with these conditions, if this bid is accepted and an Agreement is executed:

1. Any Agreement executed as a result of acceptance of this bid may be governed in accordance with 2 CFR Part 200 and all other applicable Federal law and regulations and guidance issued by the U.S. Department of the Treasury.
2. Pursuant to 24 CFR § 85.43, any Agreement executed as a result of acceptance of this bid can be terminated if the contractor fails to comply with any term of the award. This Agreement may be terminated for convenience in accordance with 24 CFR § 85.44 upon written notice by LFUCG. Either party may terminate this Agreement with thirty (30) days written notice to the other party, in which case the Agreement shall terminate on the thirtieth day. In the event of termination, the contractor shall be entitled to that portion of total compensation due under this Agreement as the services rendered bears to the services required. However, if LFUCG suspects a breach of the terms of the Agreement and/or that the contractor is violating the terms of any applicable law governing the use of Federal funds, LFUCG may suspend the contractor’s ability to receive payment by giving thirty (30) days’ advance written notice. Further, either party may terminate this Agreement for cause shown with thirty (30) days written notice, which shall explain the party’s cause for the termination. If the parties do not reach a settlement before the end of the 30 days, then the Agreement shall terminate on the thirtieth day. In the event of a breach, LFUCG reserves the right to pursue any and all applicable legal, equitable, and/or administrative remedies against the contractor.
3. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:
 - (1) Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and

applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

- (2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.
- (3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.
- (4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- (5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- (6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- (7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part, and the contractor may be declared ineligible for further government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- (8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance.

Provided, however, that in the event a contractor becomes involved in or is threatened with litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

4. If fulfillment of the contract requires the contractor to employ mechanic's or laborers, the contractor further agrees that it can and will comply with the following:

- (1) *Overtime requirements: No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such a workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such a workweek.*

- (2) *Violation: liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory) for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.*
- (3) *Withholding for unpaid wages and liquidated damages. LFUCG shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.*
- (4) *Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower-tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower-tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.*

5. The contractor shall comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

6. The contractor shall report each violation to LFUCG and understands and agrees that LFUCG will, in turn, report each violation as required to assure notification to the Treasury Department and the appropriate Environmental Protection Agency Regional Office.

7. The contractor shall include these requirements in numerical paragraphs 5 and 6 in each subcontract exceeding \$100,000 financed in whole or in part with Federal funding.

8. The contractor shall comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. § 1251 et seq.

9. The contractor shall report each violation to LFUCG and understands and agrees that LFUCG will, in turn, report each violation as required to assure notification to the Treasury Department and the appropriate Environmental Protection Agency Regional Office.

10. The contractor shall include these requirements in numerical paragraphs 8 and 9 in each subcontract exceeding \$100,000 financed in whole or in part with Federal funds.

11. The contractor shall comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. § 1251 et seq.

EQUAL OPPORTUNITY AGREEMENT

Standard Title VI Assurance

The Lexington Fayette-Urban County Government, (hereinafter referred to as the "Recipient") hereby agrees that as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation, it will comply with Title VI of the Civil Rights Act of 1964, 78Stat.252, 42 U.S.C. 2000d-4 (hereinafter referred to as the "Act"), and all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, (49 CFR, Part 21) Nondiscrimination in Federally Assisted Program of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964 (hereinafter referred to as the "Regulations") and other pertinent directives, no person in the United States shall, on the grounds of race, color, national origin, sex, age (over 40), religion, sexual orientation, gender identity, veteran status, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Recipient receives Federal financial assistance from the U.S. Department of Transportation, including the Federal Highway Administration, and hereby gives assurance that will promptly take any necessary measures to effectuate this agreement. This assurance is required by subsection 21.7(a) (1) of the Regulations.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

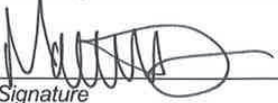

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

LFUCG STATEMENT OF GOOD FAITH EFFORTS

Bid/~~RFP~~/Quote # 16-2024

By the signature below of an authorized company representative, we certify that we have utilized the following Good Faith Efforts to obtain the maximum participation by MWDBE and Veteran-Owned business enterprises on the project and can supply the appropriate documentation.

_____ Advertised opportunities to participate in the contract in at least two (2) publications of general circulation media; trade and professional association publications; small and minority business or trade publications; and publications or trades targeting minority, women and disadvantaged businesses not less than fifteen (15) days prior to the deadline for submission of bids to allow MWDBE firms and Veteran-Owned businesses to participate.

_____ Included documentation of advertising in the above publications with the bidders good faith efforts package

_____ Attended LFUCG Procurement Economic Inclusion Outreach event

☒ Attended pre-bid meetings that were scheduled by LFUCG to inform MWDBEs and/or Veteran-Owned Businesses of subcontracting opportunities

_____ Sponsored Economic Inclusion event to provide networking opportunities for prime contractors and MWDBE firms and Veteran-Owned businesses

_____ Requested a list of MWDBE and/or Veteran subcontractors or suppliers from LFUCG and showed evidence of contacting the companies on the list(s).

_____ Contacted organizations that work with MWDBE companies for assistance in finding certified MWBDE firms and Veteran-Owned businesses to work on this project. Those contacted and their responses should be a part of the bidder's good faith efforts documentation.

_____ Sent written notices, by certified mail, email or facsimile, to qualified, certified MWDBEs soliciting their participation in the contract not less than seven (7) days prior to the deadline for submission of bids to allow them to participate effectively.

_____ Provided the interested MWBDE firm and/or Veteran-Owned business with adequate and timely information about the plans, specifications, and requirements of the contract.

_____ Selected portions of the work to be performed by MWDBE firms and/or Veteran-Owned businesses in order to increase the likelihood of meeting the contract goals. This includes, where appropriate, breaking out contract work items

into economically feasible units to facilitate MWDBE and Veteran participation, even when the prime contractor may otherwise perform these work items with its own workforce

Any rejection should be so noted in writing with a description as to why an agreement could not be reached.

_____ Bidder has to submit sound reasons why the quotations were considered unacceptable. The fact that the bidder has the ability and/or desire to perform the contract work with its own forces will not be considered a sound reason for rejecting a MWDBE and/or Veteran-Owned business's quote. Nothing in this provision shall be construed to require the bidder to accept unreasonable quotes in order to satisfy MWDBE and Veteran goals.

_____ Made an effort to offer assistance to or refer interested MWDBE firms and Veteran-Owned businesses to obtain the necessary equipment, supplies, materials, insurance and/or bonding to satisfy the work requirements of the bid proposal
