Scope-of-Work

The purpose of this scope-of-work is to develop a small area plan for the Armstrong Mill West Neighborhood in Lexington, Kentucky. Development of the plan will require the consultant to serve as project manager (PM) and coordinate any related planning work performed by subcontractors, and to work closely with LFUCG staff, neighborhood liaisons, area residents, and other stakeholders to develop the plan. The consultant will be responsible for all public notices, meeting arrangements and summaries, and public information. The PM will be responsible for day-to-day contact with the designated Division of Planning staff project manager and should be designated by the consultant in their proposal.

There will be an advisory committee that will guide the planning work. The committee will be comprised of approximately 10 persons and will have a designated staff person to coordinate all committee activities. In consultation with the committee, some of the neighborhood meetings and tasks may be combined as determined useful and appropriate. Other tasks may also be modified upon mutual agreement and for the same reasons.

The consultant is invited to make or recommend changes or modifications to the scope in their proposal. LFUCG will consider any suggestions or comments from responders to this RFP which in their experience would improve the process or make it more effective or efficient.

Perform the following work. Expected deliverables are shown in **bold/italicized** typeface:

PHASE I, Task A. Site Program and Preliminary Site Survey: The PM will develop a project schedule coordinating all Phase I and Phase II project work to be reviewed in a meeting with LFUCG staff and revised as needed. The schedule will be a digital format and updated as needed. It should provide for site visits (for out-of-town consultants) that will combine other meetings and tasks as needed. All requirements of Kentucky Revised Statutes Chapter 100 as it relates to amendments to Comprehensive Plans shall be addressed in the project schedule. The PM and team shall visit the site and become familiar with the area, its general character, significant landmarks, initial impressions of opportunities and constraints, etc. as a part of preparation for Task B.

PHASE I, Task B. <u>Client/Community Meetings:</u> Organize and conduct preparatory staff meetings and neighborhood public meeting inviting all area residents, property owners, and adjacent neighborhood organizations. Provide appropriate visual aids and aerial maps for these meetings. Give a general presentation on the study process and answer questions. Develop preliminary neighborhood goals and objectives.

PHASE I, Task C. <u>Final Scope of Plan Project:</u> Using the information generated in Tasks A and B, develop the final small area plan scope in conjunction with, and subject to the approval of, the Division of Planning. This will likely include revision of the **project schedule.** Likely plan elements will include, but not be limited to:

- Neighborhood vision, goals
- Background data (history, infrastructure, social fabric, zoning/land use, etc.)
- Plan Principles
- Traditional plan elements such as recommended land use, transportation, including complete streets and connectivity, urban design, public improvements, parks/open space, historic considerations, etc.
- Special plan elements addressing special issues of neighborhood concern such as social programming needs, applicable best practices, recommendations for green infrastructure and development, complete streets, access to neighborhood grocery stores and other neighborhood businesses, etc.
- Action Plan/Implementation Projects, Programs, etc.

PHASE II, Task D. <u>Base Studies</u>: Collect and assess all information. This will require preparation of a **study base map and display** of all engineering data, topographic conditions, all public and private easements, condition assessment of streets and sidewalks, storm and sanitary sewer constraints and problem areas, existing land use, zoning, housing conditions, property values, property ownership, graphic site analysis, photo boards of existing conditions, physical and environmental site limitations, and site statistics pertaining to future redevelopment yields. All maps generated must be compatible with an ESRI format (shape file or a coverage and subject to staff approval). Interview all applicable public agencies for needed background and cost information. It is anticipated that LFUCG staff can provide much of the necessary background data.

PHASE II, Task E. Base Studies Reviews:

- a. Present **preliminary base studies and revised program goals and objectives** to staff and advisory committee, and revise as needed. Plan on in-person meeting.
- b. Conduct neighborhood meeting to present all study findings to date, work underway, and next steps in the process. Present proposed program.
- Analyze results of meeting. Refine base studies as needed.

Phase II, Task F. <u>Plan Alternatives</u>: Develop a minimum of 2 plan alternatives for the study area for staff review and comment, including land use plan recommendations for housing and commercial uses. Conduct a public meeting to take comment on the alternatives drafted.

Phase II, Task G. <u>Preferred Alternative</u>: Develop the refined preferred alternative based on comments of public, advisory committee, and staff.

Develop a draft **urban design element for the preferred alternative** recommending land uses, building types, public and private landscaping, applicable design guidelines, and public right-of-way treatments. This should be reviewed along with the site alternatives process. The graphics will include **site sketches** to allow the community to visualize the redevelopment potential of **several key locations** within the study area.

Phase II, Task H. Final Report: Prepare draft final report to include all elements as agreed upon for Phase II work. Allow four weeks for staff review:

Present final draft report at a community meeting.

Phase II, Task I. <u>Planning Commission Process</u>: Plan on two separate presentations, one for a Planning Commission work session and one for a Planning Commission public hearing. Allow two weeks for final client comments following public hearing.

Phase II, Task J. Final Deliverables: Revise final report deliverables.

EXHIBIT B
