Program Name: New Beginnings Outreach Services

LFUCG Partner Agency Program Funding: \$61,780

Program Summary: The goal of New Beginnings Outreach Services is to provide community-based, recovery-oriented housing supports to persons with SMI in the least restrictive environment possible. We currently have an extensive waiting list for our services and this request will allow us to assist an additional 16 individuals by funding a full-time Outreach Worker.

Permanent Supportive Housing (PSH), which is independent housing coupled with the provision of community-based services, is viewed as an ideal and cost-effective model that offers independence and an opportunity for community integration for persons with SMI. Within 7 days of starting the program, the Outreach Worker will begin providing multiple contacts each week to assist participants with identifying permanent housing options and developing the skills necessary for independent living.

For this expansion, priority will be given to individuals transitioning from a higher level of care, such as hospital or personal care home, to a more appropriate setting. Some of these individuals will require extra support and skill building services during this step-down process. To meet this need, funds will be used to establish a transitional housing unit where we will partner with the referring agency to wrap intensive supports to help ensure successful transition to permanent housing. As soon as participants feel ready to make the move to independent housing, we will assist them with accessing needed furnishings and permanent rent subsidy programs. Once established in an apartment, services will taper down to a weekly contact, but remain flexible to meet individual needs as they arise.

Long-Term Program Goals: Assist 16 individuals with severe mental illness with obtaining safe, affordable permanent housing in the community.

Assist 16 individuals with developing or re-learning independent living skills necessary to maintain tenure in the community.

Transitional Housing Services	4 individuals will step down from a higher level of care (hospital or personal care home) to transitional housing with daily supports in the community.	80% of individuals (3) will successfully move from a hospital or personal care home to transitional housing with intensive supports and on to independent housing in the community.
