### 3.0 REQUIREMENTS

3.1 Selected Contractor shall provide electrical inspection services at the request of any person or entity in the Lexington-Fayette Urban County who holds the requisite electrical permit (except as otherwise provided) to allow any person or entity to obtain all necessary building permits, certificates of occupancy, or other code compliance. Any person, firm or other entity installing electrical wiring or conductors in the urban county shall contact Selected Contractor to schedule requisite electrical inspections, whether for a rough-in, final, or other inspection purposes.

Electrical inspections shall be provided for any construction, alteration or repair of electrical wiring, including but not limited to electrical wiring and conductors installed in public and private buildings and other premises, including yards, athletic fields, carnivals, parking lots, swimming pools, and industrial substations; conductors that connect installations to a supply source of electricity and other outside conductors adjacent to the premises; and, electrical service to mobile homes and recreational vehicles.

Selected Contractor shall also provide electrical inspection services at the request of the Division of Building Inspection and the Division of Fire and Emergency Services for complaint investigation purposes, emergency safety inspections, and other related purposes.

3.2 Selected Contractor shall perform all inspection services in accordance with the publications cited in Section 2.0 above, these specifications, any rules and regulations established by the Division of Building Inspection, and any proposal conditions attached hereto.

Such devices shall be capable of accessing online software programs designated by the Division of Building Inspection for real time inspection reporting. The electronic submission of inspection results does not relieve the selected contractor from complying with Kentucky record requirements.

Selected Contractor shall verify compliance by these electricians with state licensing requirements. A delinquency in the payment of fees is deemed to exist when payment has not been received more than sixty (60) days after the performance of the inspection service.

3.5.1 Selected Contractor shall notify the appropriate supplier of electrical service when any property receives written approval by means of a state electrical compliance sticker of either a rough or final inspection or as is otherwise appropriate. The Division of Building Inspection may at its option assume electrical supplier notification authority from Selected Contractor.

## **Commonwealth Inspection Bureau, Inc. Resume**

Commonwealth Inspection Bureau, Inc. began its business in 1993 and since December 1998, has contracted with the Lexington-Fayette Urban County Government for the provision of electrical inspection services for Fayette County. Commonwealth Inspection Bureau, Inc. has not only met, but has exceeded, the requirements of its contracts with the Lexington-Fayette Urban County Government in each of these years. These services have been provided for almost twenty (20) full years without a single complaint regarding its electrical inspection services being filed with the Lexington-Fayette Urban County Government or the Commonwealth of Kentucky Office of Housing, Building and Construction.

The term of the electrical inspection services contract held by Commonwealth Inspection Bureau, Inc. included a major ice storm in 2003 resulting in an extraordinary need for electrical repairs and replacements requiring electrical inspections. In the aftermath of this ice storm, Commonwealth Inspection Bureau, Inc. opened its offices from 6:00 a.m. to 9:00 p.m. to meet the electrical inspection needs of the citizens of Fayette County whose electric service was affected by the ice storm. During the severe ice storm, Commonwealth Inspection Bureau, Inc. brought in a total of fourteen (14) state certified inspectors to work in the field and a total of nine (9) office staff persons to handle all of the incoming telephone calls and process all of the paperwork required for the electrical inspections and for Kentucky Utilities Company. Commonwealth Inspection Bureau, Inc. performed all of their work during this trying time without a single complaint filed by any citizen whose electric service had been affected by the storm, by any contractor performing work for those citizens or by any employee of the local electric utility companies providing electric service to the citizens of Fayette County.

Commonwealth Inspection Bureau, Inc. currently employs four (4) full time state certified electrical inspectors as well as one (1) part time state certified electrical inspector. Their experience, training, technical competence and continuing education have been a major factor in Commonwealth Inspection Bureau, Inc.'s record of service to Fayette County and to the Lexington-Fayette Urban County Government. While finding available state certified electrical inspectors to employ can be difficult at times, Commonwealth Inspection Bureau, Inc. has been able to meet and exceed the minimum number of state certified electrical inspectors since December 1998 and will be able to employ additional state certified electrical inspectors should an increase in the workload create a need for more inspectors. At the current time Commonwealth Inspection Bureau, Inc. exceed the minimum number of three (3) state certified electrical inspector by having two (2) additional state certified electrical inspectors under its employment.

Of the five (5) present employees of Commonwealth Inspection Bureau, Inc., one (1) of the inspectors are from Lexington, three (3) of the remaining employees live in counties contiguous to Fayette County and the other remaining employee live in Mt. Sterling, Kentucky. Each of the full-time inspectors and other company employees provide services solely and exclusive to the citizens of Fayette County.

## **LFUCG STATEMENT OF GOOD FAITH EFFORTS**

**Bid/RFP/Quote # 28-2018**

By the signature below of an authorized company representative, we certify that we have utilized the following Good Faith Efforts to obtain the maximum participation by MWDBE and Veteran-Owned business enterprises on the project and can supply the appropriate documentation.

\_\_\_\_\_ Advertised opportunities to participate in the contract in at least two (2) publications of general circulation media; trade and professional association publications; small and minority business or trade publications; and publications or trades targeting minority, women and disadvantaged businesses not less than fifteen (15) days prior to the deadline for submission of bids to allow MWDBE firms and Veteran-Owned businesses to participate.

\_\_\_\_\_ Included documentation of advertising in the above publications with the bidders good faith efforts package

\_\_\_\_\_ Attended LFUCG Central Purchasing Economic Inclusion Outreach event

\_\_\_\_\_ Attended pre-bid meetings that were scheduled by LFUCG to inform MWDBEs and/or Veteran-Owned Businesses of subcontracting opportunities

\_\_\_\_\_ Sponsored Economic Inclusion event to provide networking opportunities for prime contractors and MWDBE firms and Veteran-Owned businesses

\_\_\_\_\_ Requested a list of MWDBE and/or Veteran subcontractors or suppliers from LFUCG and showed evidence of contacting the companies on the list(s).

\_\_\_\_\_ Contacted organizations that work with MWDBE companies for assistance in finding certified MWBDE firms and Veteran-Owned businesses to work on this project. Those contacted and their responses should be a part of the bidder's good faith efforts documentation.

\_\_\_\_\_ Sent written notices, by certified mail, email or facsimile, to qualified, certified MWDBEs soliciting their participation in the contract not less than seven (7) days prior to the deadline for submission of bids to allow them to participate effectively.

\_\_\_\_\_ Followed up initial solicitations by contacting MWDBEs and Veteran-Owned businesses to determine their level of interest.

\_\_\_\_\_ Provided the interested MWBDE firm and/or Veteran-Owned business with adequate and timely information about the plans, specifications, and requirements of the contract.

\_\_\_\_\_ Selected portions of the work to be performed by MWDBE firms and/or Veteran-Owned businesses in order to increase the likelihood of meeting the contract goals. This includes, where appropriate, breaking out contract work

items into economically feasible units to facilitate MWDBE and Veteran participation, even when the prime contractor may otherwise perform these work items with its own workforce

\_\_\_\_\_ Negotiated in good faith with interested MWDBE firms and Veteran-Owned businesses not rejecting them as unqualified without sound reasons based on a thorough investigation of their capabilities. Any rejection should be so noted in writing with a description as to why an agreement could not be reached.

\_\_\_\_\_ Included documentation of quotations received from interested MWDBE firms and Veteran-Owned businesses which were not used due to uncompetitive pricing or were rejected as unacceptable and/or copies of responses from firms indicating that they would not be submitting a bid.

\_\_\_\_\_ Bidder has to submit sound reasons why the quotations were considered unacceptable. The fact that the bidder has the ability and/or desire to perform the contract work with its own forces will not be considered a sound reason for rejecting a MWDBE and/or Veteran-Owned business's quote. Nothing in this provision shall be construed to require the bidder to accept unreasonable quotes in order to satisfy MWDBE and Veteran goals.

\_\_\_\_\_ Made an effort to offer assistance to or refer interested MWDBE firms and Veteran-Owned businesses to obtain the necessary equipment, supplies, materials, insurance and/or bonding to satisfy the work requirements of the bid proposal

\_\_\_\_\_ Made efforts to expand the search for MWBE firms and Veteran-Owned businesses beyond the usual geographic boundaries.

Other--any other evidence that the bidder submits which may show that the bidder has made reasonable good faith efforts to include MWDBE and Veteran participation.

**NOTE: Failure to submit any of the documentation requested in this section may be cause for rejection of bid. Bidders may include any other documentation deemed relevant to this requirement which is subject to approval by the MBE Liaison. Documentation of Good Faith Efforts must be submitted with the Bid, if the participation Goal is not met.**

The undersigned acknowledges that all information is accurate. Any misrepresentations may result in termination of the contract and/or be subject to applicable Federal and State laws concerning false statements and claims.

**Response:**

The contract awarded by this RFP prohibits subcontracting, so all electrical inspection work will be self-performed. Thus, there can be no dealings with MBE/WBE subcontractors. Due to the nature of electrical inspection work, there is no need for the purchase of construction supplies or materials from any MBE/WBE suppliers.

We have requested a list of the Certified Business for the Lexington- Fayette Urban County Government's minority business liaison and will utilize services of these business when possible.
