Scope of Services RFP #11-2025
Request for Proposals (RFP) and Hourly Rates
for Professional Services- Electrical Consultant

Introduction

The Lexington-Fayette Urban County Government (LFUCG) Division of Water Quality (DWQ) is committed to ensuring reliable wastewater treatment and stormwater management services through its extensive sanitary sewer infrastructure, which includes over 80 pump stations and two major wastewater treatment facilities: Town Branch and West Hickman.

To support this mission, DWQ emphasizes the importance of electrical safety in maintaining uninterrupted operations and fostering a safe work environment for employees and contractors. Collaborating with a qualified electrical safety consultancy, DWQ aims to develop and sustain a best-in-class electrical safety program.

The above work is to be conducted under separate Task Orders issued by LFUCG.

Contract Term

The Consultant will be awarded a 365-day contract for work associated with the Electrical Consultant Program. Annual renewal, up to four (4) additional 365-day periods, may be granted upon mutual agreement by all parties.

Project Scope and Deliverables

DWQ is seeking a strategic partnership to design and implement a robust electrical safety program over the next five years. The program must comply with OSHA 1910 Subpart S (Safe Work Practices) and Subpart R, as well as the latest NFPA 70E and NFPA 70B standards. The scope encompasses the Town Branch and West Hickman WWTPs, along with associated pump stations, and includes the phased execution of the following key components:

A. Comprehensive Electrical Safety Program Policy Development and Procedures:

- Review existing electrical safety policies and procedures and recommend changes to ensure compliance with the standards above.
- Establishment of an overarching Electrical Safety Policy.
- Development of Low Voltage and High Voltage Safety Programs with qualification protocols.
- Creation of comprehensive Control of Hazardous Energy Procedures for all voltage levels.
- Implementation of standardized switching orders and equipment handling protocols.
- Development of structured Pre-Job Briefing and Mobile Equipment Procedures.
- Formalized Incident Investigation Process.
- Coordinate with the OSHA Compliance Program Manager to develop an electronic file-sharing system for program records including, but not limited to, inspections, policy/procedures, training, and electrical equipment inventory.

Hazard Identification and Risk Management:

- Conduct site visits of both WWTPs and the following pump stations: Armstrong Mill, East Hickman, EA3, Lower Cane Run, Lower Town Branch, North Elkhorn, North Elkhorn 2, South Elkhorn, Wolf Run, and any new class A pump stations brought into service.
- Review the inventory of existing electrical components and equipment and update as modifications/upgrades to the WWTPs and pump stations are completed. Both treatment plants have active projects to replace chlorine disinfection with ultraviolet (UV) disinfection.
- Development and delivery of training programs for electrical hazard identification and risk mitigation.
- Execution of third-party and internal system audits for low and high-voltage environments. Including IR Scans of each plant every other year. IR scan of West Hickman will be in year 1, then alternate plants.
- Annual supervisory training
- Assist with responses to Requests for Information from other LFUCG Departments/Divisions and/or KOSH/OSHA.

Contractor Safety Program:

- Establishment of safety standards for contractor operations, ensuring compliance during projects and routine work activities. Attendance at pre-construction meetings.

B. Tailored Training and Audit Programs

Town Branch and West Hickman WWTP:

- Comprehensive low and high-voltage training, blending classroom and hands-on approaches.
- Risk assessment training, including practical job safety analysis demonstrations.
- Execution of an arc flash engineering study, featuring data collection, system modeling, and equipment labeling. Report study findings and all recommendations to management.
- Site-specific safety audits to ensure compliance and effectiveness of safety processes and procedures.

Pump Stations:

- Comprehensive low and high-voltage training (classroom and hands-on), tailored to operational nuances.
- Risk assessment training including practical job safety analysis demonstrations.
- Site-specific arc flash engineering study, complete with labeling. Report study findings and all recommendations to management.
- Regular audits to ensure compliance and effectiveness of safety processes and procedures.

Project Management and Reporting

To ensure success, the selected consultant must have proven experience in delivering electrical safety programs, with preference given to familiarity with LFUCG systems. All engineering studies must utilize the most current software versions and adhere to best practices.

Key responsibilities include:

- Coordinating regular meetings with plant and safety management teams.

- Providing monthly detailed progress updates aligned with project milestones. These may be submitted with invoices.
- Conduct regular visits for active engagement and consultation.
- Coordinate with the OSHA Compliance Program Manager in maintaining a centralized, web-accessible database for training certificates.

Project Deliverables

The selected consultant shall provide the following deliverables (pdf format), at a minimum:

- All updated policies and procedures
- All inspection reports and findings/recommendations
- Copies of all training agendas and attendance
- Updated inventory of electrical equipment and components
- Pre-construction meeting attendance and agenda

General Submittal Requirements

Individual Statement of Qualifications (SOQ's) should be spiral or comb bound to allow ease for archiving (no 3-ring binders). Interested firms must submit one (1) master hardcopy, (1) electronic version in PDF format on a flash drive or CD and seven (7) duplicates (hardcopies) as a full response to this solicitation. SOQ's shall be no more than twenty five (25) pages, excluding tabs/dividers, and shall be structured as follows:

1. Letter of Transmittal (one page maximum)
2. Firm Qualifications (five pages maximum)
 - Provide an executive summary explaining why the firm should be selected to provide services for this project, along with general information about the firm (and sub-consultants) related to their history and general qualifications. The executive summary should describe any unique qualifications provided by the firm that demonstrate proficiency in completing the tasks associated with enrolling sites in the Kentucky Brownfield Program, developing appropriate property management plan(s), and site mitigation plans. Emphasis on the Project Manager's experience in these areas is of utmost importance and will be viewed favorably over experience of the firm.
3. Project Team (ten pages maximum)
 - Provide an organizational chart identifying the project manager(s), project engineers, surveyors, geotechnical sub-consultant (as necessary), Disadvantaged Business Enterprise (DBE) Firm / Minority Business Enterprise Firm (MBE), and others as required. The identified team members must have measurable experience and contributions associated with the Firm Reference Projects identified in Item 5 below. The organizational chart should clearly indicate the services to be provided by all sub-consultant firms. Include locations and one-page resumes of key project team individuals that will be providing substantial contributions to work products. This section shall also include a Risk Management Plan for substitute staffing in the event that key staff leaves the project team prior to completion of any Task Order.

4. List of Clients for Which Similar Work has Been Performed (one page maximum)
 - Provide client name, contact person, contact phone number and email address, and identify by name similar projects completed for each client.
5. Firm Reference Projects (four pages maximum)
 - Provide the project name, date, services provided, and a project description detailing the scope of the project and project construction cost. List only those projects where a key member of the project team provided a substantive contribution to the project completion.
6. Local Office (one page maximum)
 - Statement of presence of local office(s) for all firms comprising a Project Team, when the local office was established, local office staffing (number in each local office), and local office utilization (estimated percent of potential project services to be performed by the local offices). "Local office" shall be defined as being located in a county served by the Bluegrass Area Development District (see BGADD.org for a complete list). The attached form (Exhibit 1, below) shall be used for this information.
7. Disadvantaged Business Enterprise (DBE) Involvement (one page maximum)
 - Provide a statement regarding the commitment to meeting the goals of LFUCG's DBE program (see below).
8. Statement of Hourly Rates (two pages maximum)
 - Provide a statement of hourly rates for all personnel expected to work on the project(s), including project managers, project engineers, engineering/CAD technicians, clerical and two-man survey party crews. Hourly rates should be clearly assigned to all position titles that are identified on the Project Team section. In spreadsheet form, provide an estimate for the overall project completion cost using the quoted hourly rates and the estimated hours needed for each member of the project team. The spreadsheet should include a unit lump sum price for stakeholder/ property owner meetings above the minimum specified in the Scope of Services and provide a statement of expected reimbursable expenses.
9. Anticipated Scope of Work (ten pages maximum)

Provide a general discussion of how the firm will complete the scope of services. While LFUCG understand that some of the early phases of the project will inform later tasks, the scope of work discussion should pay particular attention to recommendations for sampling and assessment services. Consultants should base their initial scope of work on their past experience with similar sites and review of information provided by LFUCG for future property use. This discussion should include an estimated number of building material samples to be collected to plan for demolition (and what those samples will be analyzed for). The discussion should also include a summary of the soil and/or groundwater assessment anticipated to be conducted including the number of soil borings to be advanced, soil and/or groundwater samples recommended to be collected, parameters that will be analyzed and field methods. Again, LFUCG understands that there may be adjustments to the actual investigations after completion of initial due diligence; however, consultants should provide a summary of the level of investigation necessary to accomplish site redevelopment as described by LFUCG.

The requested hourly rates and unit lump sums cost presented in that section of the SOQ section will be used in the event that there is a scope of services modification requested and mutually approved by both LFUCG and the Consultant.

EQUAL OPPORTUNITY AGREEMENT

Standard Title VI Assurance

The Lexington Fayette–Urban County Government, (hereinafter referred to as the "Recipient") hereby agrees that as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation, it will comply with Title VI of the Civil Rights Act of 1964, 78Stat.252, 42 U.S.C. 2000d-4 (hereinafter referred to as the "Act"), and all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, (49 CFR, Part 21) Nondiscrimination in Federally Assisted Program of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964 (hereinafter referred to as the "Regulations") and other pertinent directives, no person in the United States shall, on the grounds of race, color, national origin, sex, age (over 40), religion, sexual orientation, gender identity, veteran status, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Recipient receives Federal financial assistance from the U.S. Department of Transportation, including the Federal Highway Administration, and hereby gives assurance that will promptly take any necessary measures to effectuate this agreement. This assurance is required by subsection 21.7(a) (1) of the Regulations.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Bidders

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

LFUCG STATEMENT OF GOOD FAITH EFFORTS

Bid/RFP/Quote # 11-2025

By the signature below of an authorized company representative, we certify that we have utilized the following Good Faith Efforts to obtain the maximum participation by MWDBE and Veteran-Owned business enterprises on the project and can supply the appropriate documentation.

We are not subcontracting any work for this bid

___ Advertised opportunities to participate in the contract in at least two (2) publications of general circulation media; trade and professional association publications; small and minority business or trade publications; and publications or trades targeting minority, women and disadvantaged businesses not less than fifteen (15) days prior to the deadline for submission of bids to allow MWDBE firms and Veteran-Owned businesses to participate.

Included documentation of advertising in the above publications with the bidders good faith efforts package

_____ Attended LFUCG Procurement Economic Inclusion Outreach event

_____ Attended pre-bid meetings that were scheduled by LFUCG to inform MWDBEs and/or Veteran-Owned Businesses of subcontracting opportunities

_____ Sponsored Economic Inclusion event to provide networking opportunities for prime contractors and MWDBE firms and Veteran-Owned businesses

___ Requested a list of MWDBE and/or Veteran subcontractors or suppliers from LFUCG and showed evidence of contacting the companies on the list(s).

___ Contacted organizations that work with MWDBE companies for assistance in finding certified MWDBE firms and Veteran-Owned businesses to work on this project. Those contacted and their responses should be a part of the bidder's good faith efforts documentation.

___ Sent written notices, by certified mail, email or facsimile, to qualified, certified MWDBEs soliciting their participation in the contract not less than seven (7) days prior to the deadline for submission of bids to allow them to participate effectively.

___ Followed up initial solicitations by contacting MWDBEs and Veteran-Owned businesses to determine their level of interest.

_____ Provided the interested MWDBE firm and/or Veteran-Owned business with adequate and timely information about the plans, specifications, and requirements of the contract.

___ Selected portions of the work to be performed by MWDBE firms and/or Veteran-Owned businesses in order to increase the likelihood of meeting the contract goals. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate MWDBE and Veteran participation, even when the prime contractor may otherwise perform these work items with its own workforce

___ Negotiated in good faith with interested MWDBE firms and Veteran-Owned businesses not rejecting them as unqualified without sound reasons based on a thorough investigation of their capabilities. Any rejection should be so noted in writing with a description as to why an agreement could not be reached.

___ Included documentation of quotations received from interested MWDBE firms and Veteran-Owned businesses which were not used due to uncompetitive pricing or were rejected as unacceptable and/or copies of responses from firms indicating that they would not be submitting a bid.

___ Bidder has to submit sound reasons why the quotations were considered unacceptable. The fact that the bidder has the ability and/or desire to perform the contract work with its own forces will not be considered a sound reason for rejecting a MWDBE and/or Veteran-Owned business's quote. Nothing in this provision shall be construed to require the bidder to accept unreasonable quotes in order to satisfy MWDBE and Veteran goals.

___ Made an effort to offer assistance to or refer interested MWDBE firms and Veteran-Owned businesses to obtain the necessary equipment, supplies, materials, insurance and/or bonding to satisfy the work requirements of the bid proposal

___ Made efforts to expand the search for MWBE firms and Veteran-Owned businesses beyond the usual geographic boundaries.

___ Other—any other evidence that the bidder submits which may show that the bidder has made reasonable good faith efforts to include MWDBE and Veteran participation.

NOTE: Failure to submit any of the documentation requested in this section may be cause for rejection of bid. Bidders may include any other documentation deemed relevant to this requirement which is subject to approval by the MBE Liaison. Documentation of Good Faith Efforts must be submitted with the Bid, if the participation Goal is not met.

The undersigned acknowledges that all information is accurate. Any misrepresentations may result in termination of the contract and/or be subject to applicable Federal and State laws concerning false statements and claims.
