**CLARK ENERGY**

A Touchstone Energy Cooperative 

May 18<sup>th</sup> 2017

Richard Boone  
Program Manager  
Lexington-Fayette Urban County Government  
675 Byrd Thurman Drive  
Lexington, KY 40510

Mr. Boone:

Per your request for three phase power at the Haley Pike Compost Pad Clark Energy estimates the upfront facility construction cost to be \$104,654 plus the permitting charges incurred due to crossing CSX Railroad facilities. CSX estimates this permitting cost to be \$9,000 and approximately 60-90 days to complete. Clark Energy will invoice Lexington-Fayette Urban County Government the actual cost incurred (CSX fees plus Clark Energy administrative costs) to acquire the mandatory permit separately.

Thank you

Todd Peyton  
Manager of Engineering  
Clark Energy  
859-901-9236
