RE: Haley Pike Landfill Closure
Additional Services and Final Invoice
Project No. 2012093

Dear George,

It's been a pleasure working with you and the other representatives of LFUCG concerning the closure of Haley Pike Landfill. As requested, below is a summary of the additional services Kenvirons performed to complete the project;

1. Edited the original contract documents prepared by Tetra-Tech to bid the materials separate from earthworks contract.
2. Re-designed Phase 1 to improve the slopes and drainage.
3. Re-designed Phase 4 to establish the meet the regulatory requirement for a minimum slope of 5%.
4. Performed exploration of borrow area and developed grading plan for borrow areas.
5. Assisted with corrective work for leachate outbreaks.
6. Re-designed downdrains and diversion berms.
7. Phase 4 area was approximately one acre larger than originally shown on the plans due to incorrect location of anchor trench.

Attached for your consideration is Kenvirons' final invoice for the project. If you should have any questions, please contact this office at your earliest convenience.

Best Regards,

R. Vaughn Williams, P.E.
President
