

JUSTIFICATION FOR SOLE SOURCE CERTIFICATION

Sole Source Purchases are defined clearly, based upon a legitimate need, and are limited to a single supplier. Sole source purchases are normally not allowed except when based upon strong technological grounds such as operational compatibility with existing equipment and related parts or upon a clearly unique and/or cost effective feature requirement. The use of sole source purchases must be justified and shall be limited only to those specific instances in which compatibility or technical performance needs are being satisfied.

Sole Source Services are defined as a service provider providing technical expertise of such a unique nature that the service provider is clearly and justifiably the only practicable source available to provide the service. The justification shall be based on the uniqueness of the service, sole availability at the location required, or warranty or defect correction service obligations of the service provider.

JUSTIFICATION FOR SOLE SOURCE CERTIFICATION

STATEMENT OF NEED: (Add additional pages as needed)

My division/department's recommendation for sole source is based upon an objective review of the product/service required and appears to be in the best interest of the LFUCG. I know of no conflict of interest on my part, and I have no personal involvement in any way with this request. No gratuities, favors, or compromising actions have taken place. Neither has my personal familiarity with particular brands, types of equipment, materials, persons or firms been a deciding influence on my request to sole source this purchase when there are other known suppliers to exist.

1. Describe the product or service and list the necessary features this product provides that are not available from any other option.

Smart-safes, provisional credit from daily deposits with our current financial institution, armored car service, data reporting, and leased hardware

2. Below are eligible reasons for sole source. Check one and describe.

☐ Licensed or patented product or service. No other vendor provides this. Warranty or defect correction service obligations to the consultant. Describe why it is mandatory to use this licensed or patented product or service.

☐ Existing LFUCG equipment, inventory, custom-built information system, custom-built data inventory system, or similar products or programs. Describe. If product is off-the-shelf, list efforts to find other vendors (i.e. web site search, contacting the manufacturer to see if other dealers are available to service this region, etc.)

☒ Uniqueness of the service. Describe.

☐ The LFUCG has established a standard for this manufacturer, supplier, or provider and there is only one vendor. Attach documentation from manufacturer to confirm that only one dealer provides the product.

☐ Factory-authorized warranty service available only from this single dealer. Sole availability at the location required. Describe.

☐ Used item with bargain price (describe what a new item would cost). Describe.

☒ Other – The above reasons are the most common and established causes for an eligible sole source. If you have a different reason, please describe:

-
This organization provides a comprehensive service related to smart-safes that is unique and more expansive than what is currently in place. It also fits with our current providers for two aspects of the service that are already in place.

3. Describe efforts to find other vendors or consultants (i.e. phone inquiries, web site search, contacting the manufacturer to see if other dealers are available to service region, etc.).

Contacts current armored car provider and financial institution to determine who provides this product and service with integrations to them.

Contacted other armored car services.

4. How was the price offered determined to be fair and reasonable?

(Explain what the basis was for comparison and include cost analyses as applicable.)

Cost for service at 3 sites is less annually than our current armored car costs with a conventional safe.

5. Describe any cost savings realized or costs avoided by acquiring the goods/services from this supplier.

Reduced cost of armored car service, increased cash security and risks from fund siphoning.
