- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states: *The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

2. Pursuant to 24 CFR § 85.43, any Agreement executed as a result of acceptance of this bid can be terminated if the contractor fails to comply with any term of the award. This Agreement may be terminated for convenience in accordance with 24 CFR § 85.44 upon written notice by LFUCG. Either party may terminate this Agreement with thirty (30) days written notice to the other party, in which case the Agreement shall terminate on the thirtieth day. However, if LFUCG suspects a breach of the terms of the Agreement and/or that the contractor is violating the terms of any applicable law governing the use of Federal funds, LFUCG may suspend the contractor’s ability to receive payment by giving thirty (30) days’ advance written notice. Further, either party may terminate this Agreement for cause shown with thirty (30) days written notice, which shall explain the party’s cause for the termination. If the parties do not reach a settlement before the end of the 30 days, then the Agreement shall terminate on the thirtieth day. ## System Capabilities

- *Secure Online Ordering System*
  - Galls eEquip is only accessible by users defined and approved by customer through unique user names and password assignment
- *Mobile Device Compatibility*
  - Galls eEquip is mobile responsive for ease of on-the-go ordering
  - Compatible with all smart phones and tablets
  - Can be accessed from any location
- *Configurable based on Customer Uniform Program Requirements*
  - Designed to support a broad range of customer uniform program requirements
  - A uniform program profile is established with each customer to be serviced through the Galls eEquip system
  - This profile defines the operating parameters in which the system will govern the program, to include: employee management, allotment management, product offering, delivery requirements, and invoicing
- *Employee Management*
  - Galls eEquip provides an employee based management and tracking segment.
  - Employee information, required to properly process order and provide management reports, is warehoused in our systems data storage. This information includes: employee code, name, address (if appropriate to the program requirement), anniversary date, department, rank, assigned location, designation, and employee group.
  - Historical & distribution data is also maintained for each employee. This data is the basis for management reports, and is collected as orders are placed and distributed. Historical data includes items distributed (to the size level), along with quantities and order/shipment dates.
- *Product Offering Management*
  - Product offerings for the uniform program are defined, and are assigned to the respective employee groups when a uniform program is established on the system.
  - Employee Groups, or shop-by locations, typically represents a job function or physical location. Such as if a uniform program was for a police department, there may be Shop-By Location for "Patrol", "Swat", "K-9", etc. with each group having a specific uniform products assigned to them. During order placement, only products associated with the

Shop-By Location the employee is assigned to are available for order. This ensures that the employee can only order those products required for his/her job function.

- Galls eEquip supports alterations, such as trouser hemming, application of badges, etc. These elements are defined based on the requirements of the uniform program, and may be limited to specific styles and employee groups.
- *Optional “Shop Galls” Feature for Galls eEquip*
  - Feature allows the customer to add the entire Galls.com product offering to their website at a negotiated percent discount off retail.
  - Reduces the need to call for quotes on items that are needed right away
  - Keep in mind that customized VAS options are not available on these items
- *Optional “Package Ordering” Feature*
  - Feature allows the user to create “Packages” of items that are frequently ordered at the same time (ex. “New Hire Package,” “New Vehicle Package”)
  - “Package” orders are bundled and shipped together by user
  - This feature reduces the number of clicks per order and reduces errors during order entry by ensuring that all needed items are ordered before processing
- *Optional Allotment Management*
  - The system provides employee allotment management based on dollars
  - If permitted by the uniform program profile, employees may purchase uniforms in excess of their allotment amount via credit card.
  - Allotments may be renewed on the employee’s anniversary date, the calendar year (each January 1), or a specific date.
  - Unused allotments may be rolled over to the new allotment year in its entirety or to a predetermined maximum amount. Also a portion of the unused allotment may be rolled over, or no rollover based on the Uniform Program Profile.
  - If Allotment Management is required for the uniform program, the employee’s available allotment is verified during the checkout process.
    - If the amount ordered exceeds the employee’s available allotment and the program allows employee payments for amounts over the allotment via credit card, the checkout process remains active, and the employee will be prompted for credit card information during the checkout process.
    - If there is not sufficient allotment to cover the order amount and the program does not permit payment of the overage by the employee (via credit card), the checkout process will be disallowed until the order is altered to be within the employee’s available allotment amount.
    - If the program has an allotment limit by product category, the payment for the amount over allotment will be forced to a credit card if credit card purchases are allowed (i.e. agency will only pay \$100 toward a footwear purchase).
    - If the program has allotment needs but also wants to allow orders paid for by the agency off of allotment, this can be accommodated along with a reason code for the purchase and purchase comments. Approval can be required for

this scenario and users will chose from a drop list of approvers (up to 3 levels of approval).

- *Optional Payroll Deduction Management*
  - Much like allotment management, the system can deposit, track, and renew payroll deduction funds to users
  - Renewal periods are identical to allotment renewals (anniversary date or calendar date)
  - Detailed month-end reporting available as well as on-demand reporting to track balances
  - Payroll deduction funds may be used in conjunction with other pay methods if allotment is exceeded or the employee does not have available funds on his/her credit card but need to make a purchase
- *Controlled Uniform Order Placement*
  - Galls eQuip controls uniform order placement by tying together the Employee, Product Offering, Shop-By Location and Allotment Management segments of the system, as governed by the uniform program profile.
  - Galls eQuip provides a web-based method for customer uniform administrators or employees to place uniform orders. The product offering and associated optional alteration options are displayed are based on the ordering employee's employee group assignment. Any mandatory alterations, such as standard department patch are garment, are hard code in the back system to ensure no mandatory alteration is missed during order placement on the website.
  - Galls eQuip allows for orders to be placed using a "shop-by individual" feature which provides an administrator the ability to place a large bulk uniform order and segment the order down to the individual employee level, eliminating the necessity to place a separate order for each employee.
- *Optional On-Line Order approval*
  - A customer may require all order or certain orders be approved by an Administrator prior to being processed. Galls eQuip allows for approval gates to be established from shipping to order dollar amount which are defined in the Uniform Program Profile. These orders remain in a "Hold for Approval" status until released by an Administrator. Galls eQuip provides information on these orders to the Administrators through system generated approval emails sent to the Administrator which allows the order to be approved through the links provided in the email, or on the Administrator's user dashboard on the website.
  - Upon order approval, the order is released to the back-office system for fulfillment. Denied orders assume a "denied" status, and are not released to the back-office system.

- *Integrated with Galls ERP system*
  - The system is integrated with Gall's order fulfillment system, to include functionality in the areas of distribution, inventory control, production planning and stock replenishment, as well as accounting support.
  - When an order is placed in the system, it is passed directly to the distribution system for fulfillment of the order. As the order makes its way through the fulfillment process, the system is updated: 1) to confirm that the order was successfully received into the distribution system, 2) when the order is in process, and 3) when shipment is made. Shipment quantities and shipment dates are included in the data passed to the system from the distribution system.
  - As a result of the system order being passed to our back-office systems, our perpetual inventory is allocated/depleted. Our production-planning module recognizes the inventory depletion, and if warranted, triggers the stock replenishment process.
- *Flexible, On-Demand Management Reporting*
  - Galls eQuip provides flexible, on-demand reporting with output into Excel .xls or Excel .xlsx, which allows for easy review and manipulation of the data output by the Administrators. The reporting can be sent directly to the requestors email or reviewed from the reports dashboard.
  - Available reports include:
    - Allotment Report
    - Order History Sales report
    - Itemized Sales report
    - Allotment Activity Report
    - Unit Allotment Activity Report
    - Backorder Report
    - Dropship Report
  - Within the various report offerings, the user may specify parameters such as date ranges, open or closed orders, or limit report data to a specific location or department, as applicable to the report.
- *Customer management of employees*
  - Galls eQuip system allows for department Administrators to have the ability to assign new users to the website, update user profiles, Shop-By Location, etc. should the customer chose the manager their own employee access to the website.
- *Customer management of inventory*
  - Galls eQuip provides a tool to track the customer's on-site inventory purchased by Galls as well as outside vendors.
