

AGREEMENT

THIS AGREEMENT, made and entered into on the 29<sup>th</sup> day of June, 2020 by and between the LEXINGTON-FAYETTE URBAN COUNTY GOVERNMENT, an Urban County Government of the Commonwealth of Kentucky, created pursuant to KRS Chapter 67A (Hereinafter "Government"), on behalf of its Office of the Urban County Council, and The Enclave at Lochmere Estates HOA, Inc. (Hereinafter "Organization"), of 141 Propserous Place, Suite 21, Fayette County, Lexington, KY 40509.

WITNESSETH:

WHEREAS, Organization has provided outstanding activities for the citizens of Fayette County; and

WHEREAS, Organization accordingly enhances the environment of Lexington; and

WHEREAS, Organization has demonstrated a need for additional monies to expand and develop its programs.

NOW FOR AND IN CONSIDERATION OF THE MUTUAL PROMISES AND COVENANTS HEREIN EXPRESSED, GOVERNMENT AND ORGANIZATION AGREE AS FOLLOWS:

1. Government hereby grants Organization the sum of 177, (One Hundred Seventy Seven Dollars and No Cents - LFUCG check #364937) To assist with a fountain to aerate the water in the old farm pond at the community entrance.
2. Organization shall provide equal opportunity in employment for all qualified persons; prohibit discrimination in employment because of race, color, creed, national origin, sex or age between 40 and 70; promote equal employment through a positive, continuing program of equal employment and cause each of its subcontracting agencies to do so. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.
3. In any written or oral communications, the Organization shall identify the Lexington-Fayette Urban County Government as the source of the above-referenced funds; the Organization shall not specifically identify individual Councilmember as being responsible for the funds donated by the Lexington-Fayette Urban County Government.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement of Lexington, Fayette County, Kentucky, this the day and year first above written.

-----

1. 2017-2018

2. 2018-2019

- (20) If, through any cause, the Grantee or Property Owners shall fail to fulfill in timely and proper manner its obligations under this Agreement, or if the Grantee or Property Owners shall violate any of the covenants, agreements or stipulations of this Agreement, the Government shall provide the Grantee or Property Owners thirty (30) calendar days to address the deficiency or violation. If the Grantee or Property Owners do not, after the thirty (30) days, come into compliance with this Agreement, the Government shall thereupon have the right to terminate this Agreement by giving written notice to the Grantee of such termination and specifying the effective date thereof, at least five (5) calendar days before the effective date of such termination. In that event, all finished or unfinished documents, receipts and reports prepared by the Grantee shall, at the option of the Government, become its property and the Grantee shall immediately repay to the Government all monies received pursuant to this Agreement less any amount representing just and equitable compensation for the Government's share of any satisfactory work completed pursuant to the Agreement; provided, however, that for any project involving the construction of capital infrastructure, other than feasibility only projects, the Government's share of any satisfactory work completed shall not include feasibility or design costs.
- (21) The Grantee shall provide equal opportunity in employment as required by applicable federal, state, and local laws, regulations, and ordinances.
- (22) The Grantee is solely responsible for assuring that adequate and appropriate insurance or other necessary coverage is maintained during the term of this Agreement.
- (23) The Grantee's sole remedy for a breach of this Agreement by the Government shall be limited to the amount of the Grant.
- (24) The Government assumes no responsibility whatsoever in the Grantee's project activities. Grantee and Property Owners shall, to the extent allowed by law, defend, indemnify, and hold harmless Government from and against all liability, claims, losses, actions, costs, expenses, obligations, fines, and assessments of whatever kind, including defense costs and attorney's fees that are in any way incidental to or connected with, or that arise or are alleged to have arisen, directly or indirectly, in whole or in part, from or by Grantee's or Property Owners' or its contractor(s), agents, or assigns, negligent acts or misconduct, or errors or omissions, in connection with the activities carried out pursuant to this Agreement, the Grant award or the Stormwater Quality Projects Incentive Grant Program.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement at Lexington, Fayette County, Kentucky, as of the day and year first above written.

**PROJECT PLAN ELEMENTS**

**1) *STORMWATER CONTROL FACILITIES DESIGN:***

**No grant-funded activities shall occur until the LFUCG Grant Manager gives notice-to-proceed, in writing, for the start of the design phase of the project.**

All improvements shall be located on the property at 1315 and 1353 W Main Street, Lexington, Kentucky 40511, PVA #13945050 & 94021000, owned by NCJPM Properties, LLC and Leestown Road Insurance Center, LLC, respectively. The location of the project is shown in Figure 1 at the end of this document. No other property or right-of-way shall be disturbed without the written permission from the property owners.

This project element includes design of stormwater control facilities at the specified site location. The proposed facilities are listed below and are further described in the Organization's incentive grant application. Alterations to these elements can only be made in consultation with the LFUCG Grant Manager. Significant alteration of these elements may require approval by the LFUCG Water Quality Fees Board.

## **Project Elements**

- a) **Permeable Pavement & Parking Lot De-Pave:** Retrofit of the existing parking area by de-paving and retrofitting the area with at least 10,900 SF of permeable pavement. The parking lot area is set to receive a portion of the approximately 30,000 square feet of total drainage area received by this site.
- b) **Stormwater Education:** Since the space is in public areas of the property, stormwater educational signage will be displayed in various areas of the project to describe the stormwater BMPs. In addition, the organization will develop a stormwater educational pamphlet to be distributed to vendors, subcontractors, and current and potential clients of the self-storage facilities as part of an onsite tour of the newly-constructed permeable pavement.

## **2) DESIGN DOCUMENTS:**

**Design Plans shall be provided to the LFUCG Grant Manager for review prior to starting the construction phase of the project.**

- The permeable pavement system shall be designed in such a way as to meet the LFUCG definition for an Engineered Pervious Surface (*i.e.*, the design shall follow standard engineering principles and practices for permeable pavements).
- The permeable pavement system shall not be installed within 10 feet horizontally of any sanitary sewer line and measures shall be taken to prevent the infiltrating stormwater from entering the sanitary sewer trench.
- For the permeable pavement systems, the design shall include barriers and underdrains as necessary to prevent washing, scouring, or damage of any kind to the road base of any adjacent roadway or the proposed improvements. The design shall include an underdrain system to allow for hydraulic relief and prevent ponding of water above the stone base. The design documents for the permeable pavement shall include a description of:
  - i) Profile detail of the proposed surface (*e.g.*, stone to pavement) indicating all sizes of stone, etc. Only open-graded (*e.g.*, single-sized), certified washed stone is allowed. The Aggregate specification in the design documents shall meet or exceed the following: *"All Base and Bedding aggregates shall be washed with less than 1% passing the No. 200 sieve and certified as clean. Certifications shall be provided to the Engineer or Owner prior to unloading on site."*
  - ii) Detail of the proposed underdrain system and plan view of its location and how it will be connected to an existing storm sewer inlet or how it will discharge to an existing gutter or other stormwater control structure. Water shall not be allowed to discharge onto a public sidewalk either directly via a pipe or from seepage coming from the stone base.
  - iii) Slope of the stone base and use of barriers, if necessary, to prevent high velocities and scour within the stone base.
- All existing utilities shall be located and shown on the design plans.
- All existing easements, adjacent property lines, and rights-of-way shall be shown on the design plans. If any work is proposed to occur within any easement (*i.e.*, utility, etc.), whether public or private, the Organization shall obtain all necessary encroachment agreements from the authorized agencies prior to the start of construction.
- Any work proposed within or on public right-of-way, easement, or LFUCG-owned property will require one or more permits or approvals. This includes installation permits for connection into any existing curb inlet or stormwater manhole located within public right-of-way. Please contact the appropriate staff:

<p>Environmental Services (street trees), Tim Queary – <a href="mailto:tqueary@lexingtonky.gov">tqueary@lexingtonky.gov</a>  Engineering (right-of-way), Brian Knapp – <a href="mailto:bknapp@lexingtonky.gov">bknapp@lexingtonky.gov</a>  Engineering (new development), Hillard Newman – <a href="mailto:hnewman@lexingtonky.gov">hnewman@lexingtonky.gov</a>  Sanitary Sewers, Rod Chervus – <a href="mailto:rchervus@lexingtonky.gov">rchervus@lexingtonky.gov</a>  Stormwater, Greg Lubeck – <a href="mailto:glubeck@lexingtonky.gov">glubeck@lexingtonky.gov</a></p>
--

- All federal, state, and local permits, approvals, and agreements required for construction of the proposed improvements shall be obtained prior to the start of construction. If the timing of construction is such that a permit may expire before construction can be completed, then the Organization shall coordinate with the LFUCG Grant Manager and permitting agencies on appropriate timing for permit submittals. The Organization is fully responsible to determine which approvals, permits, and encroachments are required for the project.
- Erosion and sediment control and traffic control measures shall be designed to meet all standards and follow guidelines in the LFUCG Engineering Manuals, and shall be shown on the design plans with appropriate notes.

3) ***STORMWATER CONTROL FACILITIES CONSTRUCTION:***

**No grant-funded construction activities shall occur until the LFUCG Grant Manager gives notice-to-proceed, in writing, for the start of the construction phase of the project.**

Facilities shall be constructed per the design plans and specifications. Construction of the proposed facilities shall also meet the following stipulations:

- Construction shall not begin until all permits, approvals, agreements, etc. are obtained and copies provided to the LFUCG Grant Manager.
- All existing utilities shall be located, contacted, and coordinated with prior to any work being performed.
- The Stormwater Pollution Prevention Plan, including the Erosion and Sediment Control Plan, shall be provided to the LFUCG Divisions of Water Quality and Engineering for review. An LFUCG Land Disturbance Permit shall be obtained by the contractor after placement of the ESC BMPs and traffic control measures.
- Failure to place acceptable erosion and sediment control measures into service prior to start of construction will result in shut-down of the job site until the measures are put in place. Construction practices shall be put in place to prevent the illicit discharge of sediment, dirt, sand, fluids, trash, and any other pollutant into the Municipal Separate Storm Sewer System or Waters of the Commonwealth.
- The Organization shall host a pre-construction meeting with all parties related to the Stormwater Control Facilities. The LFUCG Grant Manager shall be invited 5 days in advance of this meeting.
- The Organization is responsible for providing all construction oversight, administration, and daily inspections. LFUCG shall not provide these services.
- The Organization shall document construction by taking before, during, and after photographs. Photographs shall be provided in digital format to the LFUCG Grant Manager.
- Once construction of the Stormwater Control Facilities is complete, a final punch-list inspection shall be performed. The LFUCG Grant Manager shall be invited to this inspection and given 5 days notice. If punch-list items are identified, a second inspection shall be performed once those items are resolved, and the LFUCG Grant Manager shall be invited to this inspection and given 3 days notice.
- The Organization agrees to enter into the *Agreement to Maintain Stormwater Control Facilities Funded by an LFUCG Stormwater Quality Projects Class B Incentive Grant*

included in Attachment B of the Grant Award Agreement within 21 calendar days of the final (post punch-list) inspection. This Agreement shall be recorded by LFUCG at the Fayette County Clerk's office. It is anticipated the permeable pavement will be included in Attachment B.

### **REPORTING REQUIREMENTS**

1. Prior to construction, the Organization shall provide the LFUCG Grant Manager three (3) hard copies and one (1) digital copy of the following deliverables, each sealed by a professional licensed to perform such work in accordance with Kentucky Revised Statutes (KRS):
  - Set of all final design calculations
  - Set of final construction plans, including erosion and sediment control plans, grading plans, etc., including one "half-size" set
  - Set of final specifications and bidding documents (if applicable)
  - Final detailed engineer's construction cost estimate including quantities and/or bid(s)
  - All local, state, or federal permits, approvals, public or private encroachment agreements, etc. received to date for the project
  - Inspection, Operation, and Maintenance Plan (IOM Plan) laying out the plan for regular inspection and maintenance of each proposed facility for design performance and safety in accordance with manufacturer's specifications and LFUCG's Stormwater Manual (the IOM Plan must include prohibitions against storage of certain materials on the permeable pavement)
  - Existing condition photographs
2. The Organization shall allow LFUCG twenty-one (21) calendar days to review the submittals and provide comments. If revised submittals are required, the Organization shall allow LFUCG ten (10) calendar days for review per submittal. LFUCG may choose to have a third party engineering consultant assist LFUCG in review of these submittals.
3. If the project is competitively bid, the selected contractor's unit price contract / bid list shall be provided to the LFUCG Grant Manager prior to the start of construction.
4. If the project is not competitively bid, the selected contractor's unit price contract shall be provided to the LFUCG Grant Manager prior to the start of construction, along with a justification for any deviations from the engineer's construction cost estimate.
5. **The construction phase shall begin only after the LFUCG Grant Manager gives notice-to-proceed, in writing, for the start of the construction phase of the project.**
6. If, during construction, the contractor requests a deviation or addition to the quantities or costs in the construction contract, the LFUCG Grant Manager shall be notified within 2 business days. Additions or modifications to the project that are not directly related to the intended and correct function of the stormwater control project elements as described in the Project Plan Elements listed above and in the original incentive grant application are not eligible for Grant reimbursement. Therefore, the Organization is advised that it should coordinate closely with the LFUCG Grant Manager during construction to ensure the work being performed is in compliance with this Agreement. **Note that per the Grant Award Agreement all overruns that result in the project costs exceeding the Grant amount are the responsibility of the Organization.**
7. After construction is completed, the Project Final Report shall include digital and hard copies of the following:
  - Summary of final construction costs and quantities
  - Copies of all federal, state, and local permits obtained for the project (if not previously provided) and any permit closure documents
  - 3 copies of a Record Drawing showing all field changes, and signed and sealed by the professional of record certifying the project as shown meets all original design intent
  - Copies of final inspection minutes, punch-lists, etc.
  - Photo documentation of site conditions and improvements before, during, and after construction

- Signed *Agreement to Maintain Stormwater Facilities Funded by an LFUCG Stormwater Quality Projects Class B Incentive Grant* (this form will be provided by LFUCG after construction is completed and final costs determined)
- Any materials generated, including the educational signage

8. LFUCG shall make final payment of the 10% retainer after acceptance of the Project Final Report.
9. All attachments to Request for Funds & Project Status Reports shall reference the associated line from Table 2 – Project Eligible Expenses.

**PERMANENT FACILITIES / INFRASTRUCTURE**

**Ownership:** The proposed facilities are expected to reside on private property in Fayette County and be owned by the Property Owner(s).

**Future Inspection and Maintenance:** The Organization (and/or Property Owner(s)) agrees to sign and abide by the terms of the *Maintenance Agreement for Stormwater Control Facilities Funded by an LFUCG Stormwater Quality Projects Class B Incentive Grant* included as Attachment B to the Grant Award Agreement. The property owners are solely responsible for future maintenance of the grant-funded improvements as long as the improvements are in service.

**Monitoring by LFUCG:** The Organization agrees to allow LFUCG staff future access to any properties on which work is performed to monitor the installed features for compliance with this Agreement during the grant period. After the grant period has ended, the Organization (and/or Property Owner(s)) agrees to allow LFUCG access for monitoring per the terms of the Maintenance Agreement. Water quality sampling via grab samples or other methods may be employed by LFUCG staff as part of LFUCG’s annual reporting requirement of its Kentucky Pollutant Discharge Elimination System (KPDES) MS4 Phase 1 Permit.

**EQUIPMENT**

Any equipment purchased with the Grant shall remain the property of the Organization.

**ADDITIONAL GRANT STIPULATIONS**

Note the following additional stipulations related to this project:

1. The project shall not proceed with field work until written approval to proceed is obtained from the Grant Administrator or Director of Water Quality, because of the potential for conflict with future LFUCG projects.
2. Proposed BMPs shall not be installed within 10’ of a building footprint.
3. Permeable pavement shall not be installed within 10’ either side of an existing sanitary sewer, and measures shall be taken to prevent infiltrating stormwater from entering into the sanitary sewer stone trench.
4. The IOM Plan shall preclude storage of certain materials on the permeable pavement. The IOM Plan shall be provided at the conclusion of the project.
5. Because of modifications to the parking areas, Organization will need to work with LFUCG’s Division of Planning to verify the regulatory requirements.
6. If underground detention is provided, property owner(s) will be required to conform with LFUCG Code of Ordinances Chapter 16, Article X, Division 2.

**GRANT PERIOD & PROJECT SCHEDULE**

The grant period starts on the date of execution by the Mayor and extends for the time period as listed in the Grant Award Agreement. Any time extensions must be approved in writing by the LFUCG Grant Manager. The project schedule shown in Table 1 is preliminary. Proposed changes to the project which alter this schedule significantly shall be discussed with the LFUCG Grant Manager prior to implementation.

**TABLE 1 – PROJECT SCHEDULE**

<b>Activity</b>	<b>Anticipated Date(s)</b>
Notice-to-Proceed	June 2020
Kick-off	June 2020
Plan Development	July 2020 – September 2020
Design Documents	September 2020 – December 2020
Review and Approval	October 2020 – November 2020
Permitting	December 2020 – January 2021
Bidding / Contract Negotiation & Award	March 2021 – April 2021
Construction	April 2021 – October 2021
Project Closeout / Final Report to LFUCG	November 2021 – December 2021

**PROJECT BUDGET – GRANT ELIGIBLE EXPENSES**

The project budget is broken into the following components based upon the Organization’s incentive grant application:

- 1. Design Phase: \$ 24,965.10
- 2. Construction Phase: \$ 99,860.38

<b>TOTAL PROJECT COSTS: \$ 124,825.48</b>
---

The total project cost estimate and breakdown of grant to cost share is as follows:

Total Grant Share	\$ 99,860.38 not to exceed
Estimated Cost Share	<u>\$ 24,965.10</u>
<b>Est. Total Project Cost</b>	<b>\$ 124,825.48</b>

Table 2 lists the eligible expenses for this project. Only properly invoiced items shall be reimbursed with grant monies or counted toward the Organization’s cost share.

Any work performed on this project prior to grant award by the Urban County Council and Notice-to-Proceed from the LFUCG Grant Administrator is not an eligible expense and shall not be reimbursed or counted toward the cost share.

Construction cost items given in Table 2 are conceptual and the construction estimate will be revised and submitted to the LFUCG Grant Manager for review prior to construction and again once bids are received. **The Grant is a not-to-exceed amount, and any cost overruns are the responsibility of the Grantee.** Note that the Grant shall not be used to fund any project element that is required by local, state, or federal regulation in relation to any new development or re-development associated with the stormwater quality improvement project as described herein. Donated professional service hours shall be valued at the Median Hourly Wage for the service provided as calculated by the U.S. Department of Labor, Bureau of Labor Statistics, State Occupational Employment and Wage Estimates for Kentucky (current website: [http://www.bls.gov/oes/current/oes\\_ky.htm](http://www.bls.gov/oes/current/oes_ky.htm)).

**TABLE 2 – PROJECT ELIGIBLE EXPENSES**

Type of Expense	Participants	Item	Unit Price	Quantity	Funded by Organization	Funded by Grant	Total Expense	
<b>1 Project Element: Consultant Fees (Design &amp; Grant Management)</b>								
2 Design	Design build team	Plan Development, Design, & Construction Administration	\$ 24,465.10	LS	1	\$ 24,465.10	\$ - \$ 24,465.10

Stormwater Quality Projects Incentive Grant Program

CHURCHILL MCGEE, LLC

© 2013 Churchill

TO: Mayor Linda Gorton  
Urban County Council  
FROM:   
Charles H. Martin, P.E., Director  
Division of Water Quality

DATE: June 2, 2020

SUBJECT: Recommendation for a FY20 (Class B Infrastructure) Stormwater Quality Projects Incentive Grant for Churchill McGee, LLC

Request

The purpose of this memorandum is to request approval of a FY20 (Class B Infrastructure) Stormwater Quality Projects Incentive Grant for Churchill McGee, LLC in the amount of \$99,860.38.

Purpose of Request

The purpose of this project is to improve stormwater quality and reduce runoff going into Town Branch Creek. The grant provides a unique opportunity for a heavy industrial site to lead by example in exceeding LFUCG stormwater requirements. The project elements include parking lot de-pavement, permeable pavement, and stormwater education in the form of educational signage and a Field Day Event.

Project Cost in FY20 and in Future Budget Years

The grant has been approved for FY2020 funding by the Water Quality Fees Board in the amount of \$99,860.38.

Are Funds Budgeted

Funds are budgeted in: 4052 – 303204 – 3373 – 78112 – WQINCENTIVE\_20 – WQ\_GRANT

Martin/Albright
