TO ALL PROSPECTIVE SUBMITTERS:

Please be advised of the following clarifications to the above referenced Bid:

1. **Q:** Please provide the proper guidelines and references for handling lead paint and lead containing material in the two restroom areas. **A:** See 010000 Special Requirements; 33.
2. **Q:** Is the curved terrazzo base to be removed for new tile? **A:** The base can remain if it is not in the way of the new tile.
3. **Q:** Can the new tile walls stop at present line below raised window well? **A:** Tile can be stopped at the existing tile line with the ceiling and carried across the recessed ceiling area, bull nose tile is required as well as detailing around the window for finished tile.
4. **Q:** What toilet accessories are required and are Urinal partitions required? **A:** The toilet accessories are listed on the plans and specifications.
5. **Q:** Will the filled in floor drain need to be reinstalled? **A:** New floor drains are to be installed per mechanical plans.
6. **Q:** Will dust barriers and sticky mats be required? **A:** Contractor is working in an occupied building. Contractor is responsible for controlling dust by acceptable means.
7. **Q:** Are there any Owner provided items/ contractor installed? **A:** No.
8. **Q:** Have plans been submitted and approved by the Kentucky Division of Plumbing? **A:** Plans have been submitted and approved by Division of Plumbing.
9. **Q:** Can you please advise the liquidated damages for the project? **A:** No liquidated damages.

10. Q: The plumbing plans show an alternate #1 to remove and replace the 2" domestic water piping to the meter. The form of proposal doesn't mention this alternate at all, but has a price break down "schedule of values" on sheet P7 of the proposal. Item #1 appears to be the base bid and item #2 the alternate. Please advise. A: The base bid is to be listed on line number one for bid form, then the price for the alternate #1, replacing water line, is listed as a number to be added to the base bid in the next line.

11. Q: If the alternate is accepted, in order to keep water service to the building, will we need to install the new 2" service line and backflow preventer before demoing the old and then do the transfer overnight? A: The transfer from old water service will need to be scheduled with the owner. This may not need to happen overnight. Possibly a weekend or evening, but will need to part of the workplan developed once project is underway.

12. Q: Some of the mains feeding the second floor restrooms are to be replaced in this project. In order to keep the second floor restroom water in service, are we to install the new mains before demoing the old, and do the transition overnight? Is there enough space to install the new (including vertical lines) without removing the old first? Please advise. A: Per the note on the Domestic Water Riser on Sheet P-4, the new water piping from the first floor will tie into the existing piping feeding the second floor. The water piping on the second floor does not get replaced. A new vent stack from the first floor will be passing thru the second floor restroom to connect to the vent piping thru roof. This piping will need to be tight to the wall for the work that is planned for the second floor in a future phase. The transition will need to be scheduled with the owner. This may not need to happen overnight. Possibly a weekend or evening, but will need to part of the workplan developed once project is underway.
