Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;

(2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

This assurance is required by subsection 21.7(a) (1) of the Regulations.

- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

**Liberty Road Sidewalk
Engineering Design Services
Scope of Services**

Intro/Background

The Lexington-Fayette Urban County Government is actively connecting sidewalks in areas of high pedestrian traffic to improve safety and encourage multimodal travel. One such area exists on the west side of Liberty Road beginning at Winchester Road running southeast to Dallas Avenue and then from Dallas Avenue to 1012 Liberty Road. This will include improvements to the intersection of Dallas Avenue and Liberty Road in the form of sidewalk ramps, identified crossing markings and the installation of curb and gutter for the entire length of the project.

Construction of these facilities would occur within the Community Development Block Grant (CDBG) program, since neighborhood improvements done within that program typically included sidewalk and curb and gutter reconstruction. The CDBG program has been rebuilding infrastructure in low to moderate income neighborhoods for decades.

Project Overview

The Lexington Fayette Urban County Government is accepting proposals from qualified firms for professional engineering services for Engineering design work and for preparation of Construction Bid Documents for a neighborhood improvement project.

The Engineering work will consist of developing two sets of separate construction plans and contract documents for the construction of a sidewalk on the southern side of Liberty Road. The first set of construction plans will provide for a curb and gutter as well as a sidewalk from Winchester Road to Dallas Avenue. The second set of plans will provide for a curb and gutter as well as a sidewalk from Dallas Avenue to where the sidewalk ends in front of 1012 Liberty Road as well as improvements to the crosswalk at Liberty Road and Dallas Avenue. The preliminary project plan is shown in Appendix A.

Submitting Consultants should demonstrate proficiency in residential street design and familiarity with applicable AASHTO publications. KYTC pre-qualification in Urban Roadway Design is desirable.

Entering a contract

Once consultant selection is made, following evaluation of proposals, a detailed scope of services will be negotiated and an Engineering Services Agreement drawn up and forwarded through the Urban County Council for approval.

Preliminary Engineering Work

The planning level evaluation has been completed and is attached in Appendix A. It is the intent of this project to develop construction documents and plans to construct the sidewalk facilities provided on the preliminary project plan in Appendix A.

The Locations and General Timing Considerations

The plans need to be sufficiently complete to give to the impacted utility providers **nine (9) months prior to bid date**.

Design Criteria

All designs and plans must be approved by the LFUCG Division of Engineering.

- a. Prepare typical sections depicting existing and proposed conditions.
- b. Unless otherwise specifically acknowledged and approved, design shall conform to LFUCG Standard Drawings.
- c. The preparation of an Erosion and Sediment Control Plan including a Storm Water Pollution Prevention Plan (SWPPP) integrating the non-structural and structural practices and procedures of the Stormwater Manual is a requirement for all construction projects and is the responsibility of the Contractor; however Consultant shall prepare a generalized plan. The plan shall be prepared and submitted to the LFUCG Division of Engineering for approval.
- d. Intersection improvements are to be ADA compliant. Design shall comply with the AASHTO green book, the Manual of Uniform Traffic Control Devices and, to the extent practicable, the AASHTO Roadside Design Guide.
- e. Drawing files shall be prepared using or shall be converted to AutoCAD (Civil 3D preferred) and will be transmitted to the Urban County Government or to third parties designated by the Urban County Government upon request.

Field Survey

The Consultant shall complete a field survey prior to design. The minimum requirements of the field survey shall include, but are not limited to, the following items:

- a. Locations of existing sidewalks, edges of the street and entrances;
- b. Topography showing all existing structures, fences, retaining walls, yard lights, etc.;
- c. Locations of overhead and underground utilities, including pole ownership information;
- d. Locations of storm and sanitary sewers;
- e. Temporary benchmarks for use during construction, set outside construction limits;
- f. Profiles of pertinent existing infrastructure;

- g. Cross sections taken at 50-foot stations, at driveways and steps and as otherwise needed;
- h. Locations of existing corner monuments and R/W markers
- i. Staking associated with easement acquisition and monumenting street centerline prior to utility relocations and again, if needed, prior to bidding for construction.
- j. Locations of all existing easements in the project area.
- k. Locations and identification of significant trees and vegetation

The elevations of utilities, sewers, and other critical items shall be verified during the field survey. Such verification shall be carefully coordinated with the appropriate parties (e.g., utility companies, LFUCG). If digging operations, permission, etc. are necessary in certain instances it shall be the responsibility of the consultant to see to it that they are performed properly and to get appropriate approvals.

The most recent aerial photography for the project area, as well as GIS database information, will be made available to the consultant.

Environmental Assessment

An environmental assessment of the nature and scope required for federally funded transportation projects is not required for this project. However, an environmental clearance is required before it goes to construction and will be coordinated by the office of Grants and Special Programs. The consultant may be asked to furnish some basic planimetric coverage for each subphase, for LFUCG's use in this effort.

Cost Estimates

For both of the phases of the project Construction Bid Documents are to be produced, the Consultant shall prepare two detailed cost estimates, the first to be submitted with Preliminary Plans, the second one with completed Final Plans. Each total construction cost estimate shall itemize costs by funding source and shall include costs for utility relocation and right-of-way acquisition. Line items for construction costs shall be consistent with those shown in the quantities summary of the plan set as well as the Bid Schedule in the Form of Proposal.

Rights-of-Way and Easements

Two minor acquisition plats shall be prepared to acquire right-of-way at the intersection of Dallas and Liberty, and shall meet all requirements of the Lexington-Fayette Urban County Government Planning Commission and Department of Law.

Permanent and temporary easements shall be drawn to sufficient scale to be clear and distinguishable, and such drawings shall meet the requirements of the Lexington-Fayette Urban

County Government Division of Engineering. If needed a legal description will be required for each easement taking.

In the proposal the consultant should provide unit costs for: a) preparation of a public acquisition plat, to include setting any required monuments and b) drafting an easement description, including exhibit.

Drawing Scales and Units

All quantities measured, calculated, and specified shall be in English units (e.g., feet, pounds).

All construction plan drawings and sheets shall conform to the following scales unless another option is considered viable and approved by the Project Manager:

- | | |
|--------------------------|-----------------------------------------|
| a. Plan Sheets | 1" = 20' |
| b. Profile sheets | 1" = 20' horizontal
1" = 2' vertical |
| c. Cross sections sheets | 1" = 5' horizontal
1" = 5' vertical |

Note: Combined Plan/Profile sheets are preferred.

Plans, Specifications, and Bid Documents

Plans, construction specifications, and other pertinent bid documents as required by the Lexington-Fayette Urban County Government shall be prepared by the Consultant and shall be subject to review by the Lexington-Fayette Urban County Government Division of Engineering. The majority of the front-end documents and technical specifications will be provided to the consultant by LFUCG. The consultant will need to carefully review these to confirm that they clearly, accurately and completely define the work to be performed and notify the Project Manager of any and all proposed changes.

Preliminary plans shall include, but are not limited to: existing topography and infrastructure, street addresses, property lines, proposed alignment, proposed profile, typical section superimposing the proposed section on existing, existing storm and sanitary sewers and proposed improvements, critical cross sections, line and grade review information, identification of possible utility conflicts and a cost estimate. Preliminary plans shall be so identified; the Consultant shall deliver two paper copies to the Division of Engineering, and the Consultant shall deliver one paper copy to each utility company via certified mail or by hand delivery with signed receipt.

Final plans shall contain the completed and approved information provided by the preliminary plans. Final plans shall also include, but are not limited to: a cover sheet, quantities summary, general notes, utility company information, plan and profile sheets, development sheets, cross section sheets, reference points, detail sheets and typical sections.

Cross sections shall be provided at all driveways and step locations. All cross sections shall generally extend 30 feet from proposed curb face or to the front of the house, whichever is closer; however, longer coverage may be needed in some locations.

All sheets shall be inked mylar or equivalent and shall be submitted in a common acceptable format including a "dwg" and "shape" file format. The LFUCG owns all rights to data and files associated with project.

After final plans are reviewed by LFUCG and changes incorporated, the Consultant shall again deliver, as stated above, one paper copy of the final plans to each utility company. The Consultant shall deliver three (3) paper copies of the final plans, specifications, and bid documents to the Division of Engineering and shall deliver the final mylar sheets, electronic drawings and a digital specification file to the Division of Engineering, or to another designated location.

Utility Company Coordination

There are multiple utilities within the project areas; the Consultant will meet and coordinate with all utility companies as necessary, for facilities mapping, to assess impacts, to minimize disturbance to underground lines and to advance the projects. On past Meadows-Northland-Arlington phases, the utility companies have replaced and/or upgraded their facilities within the project area, before the LFUCG's contractor started, such that a timely start by the LFUCG contractor depends on a timely start by the affected utility companies, which in turn requires that plans with dependable design elements be furnished to them in a timely manner.

Bid Administration

The Consultant's scope shall include assisting with Bid Administration. At minimum, this includes responding to technical questions during the bid period, preparing addenda, approving alternates, attending pre-bid meeting (if required), tabulating and evaluating bids received and providing a written recommendation of award. If shop drawings are required, the consultant shall review and approve them.

Construction Inspection

The Lexington-Fayette Urban County Government will provide routine construction inspections. The Consultant shall be available to advise in matters of intent during construction.

Schedule for Document Delivery and Payment for Services

The schedule below provides the time for deliverables. It is anticipated that the consultant will coordinate with the Division of Engineering several times between each milestone, to confirm that the general approach as well as more detailed design elements are progressing satisfactorily.
