Government shall have free and complete access to the books, papers and affairs of the Organization, that relate to the performance of this Agreement, at all reasonable times, and if it desires, it may have the books and papers of the Organization, that relate to the performance of this Agreement, audited and examined by auditors, accountants or attorneys. Any examination shall be at the expense of the Government.

10. Government may designate such persons as may be necessary to monitor and evaluate the services rendered by the Organization. The Government, its agents and employees, shall, at all times, have unrestricted access to all places where or in which the services required hereunder are being carried on and conducted. Inspection and monitoring of the work by these authorities shall in no manner be presumed to relieve in any degree the

responsibility or obligations of Organization, nor to constitute the Organization as an agent of the Government.

11. Organization shall provide equal opportunity in employment for all qualified persons, shall prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and shall cause each of its subcontracting agencies to do so. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

The trust department may utilize its regular short-term one hundred percent (100%) US Treasury Fund for daily funds investment.

The election of option 1 or 2 should be made consistent with the relative cost incurred and in the case of option 2 the cost shall be competitive among local trust departments.

C. Investment Policies - - Safety and Prudence.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

In Fayette County, after a 15% decline in 2018, there was a 5% increase in overdose deaths in 2019 (2019 KY Overdose Fatality Report); in 2020 the number of overdose deaths surpassed 200 for the first time since being recorded (Lexington-Herald Leader, 2/2021).

This project will serve pregnant/parenting women with substance use disorders (SUD) and co-occurring mental health disorders. On average, women admitted to Chrysalis are 29.7 y/o; 18.6% report homelessness; 44% were living with someone else; 9% were in an institution (jail/prison/hospital/shelter); 93% were unemployed. Chrysalis data for FY21 indicate that in the 30 days prior to entering treatment 62.4% of women acknowledged the use of heroin or other opiates; 61%, methamphetamines; 47.5%, marijuana; and 20.3%, benzodiazepines; over half (56%) reported experiencing an overdose.

When opioids are used during pregnancy, babies may be born with neonatal abstinence syndrome (NAS). According to the Kentucky NAS 2019 Annual Report, there were 1,102 cases of babies with signs and symptoms of NAS accounting for 20.9 of every 1,000 live births in Kentucky. Mothers of infants with NAS tend to have less education, be unmarried, and have more children, which may suggest lower socioeconomic status, a lack of social support, and reduced access to services. Pregnant/parenting women with SUDs are under-identified, under-served, and experience disparities in service access, use and outcomes (SAMHSA). Chrysalis prioritizes pregnant/parenting women for long-term residential SUD treatment and allows children to reside with their mothers throughout treatment, removing the barrier of childcare issues for women who have custody.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

Chrysalis is a licensed Alcohol and Other Drug Entity, accredited by CARF, and ASAM Level of Care (LOC) 3.1 and 3.5 certified. Residential services for SUD treatment is a 24-hour/day (unit of service) providing intensive treatment and skills building in a structured and supportive environment.

An individualized treatment plan is developed with each woman and a multidisciplinary team of case managers, therapists, nurses, job readiness, aftercare coordinator, peer support, an addictionologist, and a psychiatrist. Treatment-planning integrates services the patient believes beneficial to and her family. The family-centered approach extends to mental health and medical services, DCBS, family court, the criminal justice system and other agencies interacting with the families.

Chrysalis provides 40 hours of structured services weekly; patients in LOC 3.5 and 3.1 attend a minimum of 17-hours of clinical programming weekly. The curricula are evidence-based and vary depending on progress in treatment. Groups offered include Anger Management, Domestic Violence, Relapse Prevention, Positive and Social Communication Skills, Addictions 101, Motivation to Change, Step Study, Adult Daily Living, Job Readiness, Computers, Acceptance and Recovery, Parenting, Seeking Safety, Wise Minds, Healthy Boundaries, Healthy Relationships, Self-care and Coping, Process, and Health and Wellness. Other referral-based groups include targeted Parenting curricula, Seeking Safety, and Get Fit and Quit (smoking cessation). Patients are also expected to participate in recovery support groups, weekly individual therapy and case management.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

Chrysalis accepts adult pregnant/parenting women meeting DSM-5 criteria for SUD, severe or moderate. Chrysalis clinicians utilize the Co-Triage®/ASAM CONTINUUM™ screening and assessment tool to determine eligibility and placement in the appropriate LOC. The Co-Triage® and ASAM CONTINUUM™ are computer-guided, structured-interview tools that assist providers in conducting expert bio-psychosocial assessments. The ASAM Criteria is the most widely used and comprehensive set of guidelines for treating patients with addiction (www.asamcontinuum.org).

To alleviate financial barriers to treatment, there are no fees for admission. There are no exclusions on readmissions; a woman may be re-admitted if she continues to meet ASAM LOC 3.5 or 3.1 criteria. Women returning to use while receiving treatment work with their treatment team to complete a chain analysis to identify triggers, risk factors for further use, coping skills and recovery supports.

Upon admission staff review with the patient the Recovery Handbook containing patient rights, grievance process, house rules and daily schedules to ensure comprehension. Chrysalis' Job Readiness Program assists patients with GED tutoring, computer classes, vocational training, and job placement. Once a patient obtains employment, she contributes 30% of her gross income toward the cost of room and board. Patients receiving assistance through the Supplemental Nutritional Assistance Program contribute a portion of their allotment to Chrysalis for meal service.

While in residential treatment patients learn life skills by completing daily chores related to maintaining a household, developing a household budget to prepare for independent living and self-sustainability, and accessing public transportation, community resources, and recovery support systems.

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

Evidence-based-practices chosen for this project provide comprehensive SUD treatment, prevention, and mental health services and stress treatment of multiple life domains concurrently.

Medically assisted treatment (MAT) is a best practice for pregnant women with opiate use disorder (American College of OB/GYN Committee on Health Care for Underserved Women). During pregnancy and postpartum, considerations are needed for women who are opioid dependent to ensure pain-management and prevent relapse and risk of overdose (ASAM).

Research shows a combination of medication and behavioral therapies are most successful for SUD treatment (A Collaborative Approach to the Treatment of Pregnant Women with SUD, SAMHSA). Cognitive Behavioral Therapy, Motivational Enhancement Therapy and Dialectic Behavior Therapy are used in group and individual sessions. Therapists are certified in Accelerated Resolution Therapy to foster rapid recovery by reprogramming how the brain stores traumatic memories and imagery; the best-practice curriculum Seeking Safety is used for trauma and to facilitate healing. Charting a New Course is used to help individuals change irresponsible thinking into more responsible thinking; Anger Management for SUD and Mental Health Clients is used to target the emotional and physiological components of anger and improve conflict resolution skills. Ideas for Better Communication is used to develop skills for relationships in recovery.

Chrysalis utilizes Prenatal Families, Nurturing Parenting for Families in Substance Abuse Treatment and Recovery, and Promoting First Relationships parenting curricula, and Parent-Child Interaction Therapy. These best-practice curricula are chosen based on documented effectiveness with parents diagnosed with SUD, mental health issues, limited intellectual ability, and/or severe trauma histories.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

Sobriety and self-sufficiency are the overarching goals of the program. A person-centered plan is developed with each patient with goals and objectives related to recovery, parenting, relationships, mental and physical health, employment, and safe and affordable housing. Chrysalis combines behavioral therapies, and MAT if appropriate and desired, with counseling and life-skills to help patients achieve their goals. Chrysalis' philosophy is to provide a safe and nurturing environment for women and their children to heal from past trauma and attain recovery from substance use and mental health disorders. Patients transition through 3 phases of treatment. To transition from Phase I (ASAM LOC 3.5) to Phase II (LOC 3.1) patients must show an understanding of the program; participate in the assessment and treatment-planning process; provide negative drug screens; identify triggers; engage in psycho-educational groups; and utilize basic recovery skills. To transition to Phase III (continuation of LOC 3.1) patients must start building support systems; demonstrate individual and family-based coping skills; maintain sobriety, appropriately advocate for unmet needs; and show a transition from external to internal motivation. In order to successfully complete treatment, patients must maintain sobriety while taking a leadership role in residential treatment; transition to greater self-sufficiency, show an increase in self-awareness and relationship skills; and attain resources necessary for independent living. In 2021, the average length of stay for successful completions was 161 days, and 74 days for those who did not complete. Forty-five percent (45%) of women receiving services in 2021 successfully completed residential treatment.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

Substance use during pregnancy can be harmful for babies and increase the risk of miscarriage and stillbirth. Most pregnant women with SUD are not enrolled in programs to address their obstetric needs and co-morbidities. Chrysalis addresses SUD, mental and physical health, trauma, housing, childcare, employment, parenting, and recovery support. This comprehensive approach is aimed at breaking cycles of SUD, criminal activity, and educational deficits affecting many of these families for generations. Prenatal care is critical for pregnant women. Approximately 20% of pregnant women entering Chrysalis have not established prenatal care; on average, women are admitted during their 5th month of pregnancy. Treatment during pregnancy can reduce or eliminate symptoms of NAS, decreasing the amount of time infants spend in the NICU and future healthcare costs. Compared with other birth hospitalizations in 2017, infants with NAS had significantly longer stays (9.2 days) and greater cost (approximately \$14,600 more) (JAMA). Treatment, including MAT, for pregnant women results in shorter hospital stays; total healthcare costs were 30% less for individuals receiving MAT than for individuals not receiving MAT (Medicaid.gov). Research on SUD treatment consistently shows reduced costs associated with lost productivity, crime, and incarceration; the largest economic benefit is seen in avoided costs of crime (National Drug Intelligence Center). The National Library of Medicine reports persons with untreated SUD use healthcare and incur costs at twice the rate of their age and gender cohorts. Once treatment begins, total health care utilization and costs drop, reaching a level that is lower than pretreatment.

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

Chrysalis offers comprehensive services to improve patient functioning, quality of life, and self-sustainability. Data is collected via the Chrysalis electronic health record. Information gathered is used to guide programmatic goals; measure the effectiveness of interventions on patient goals; and determine whether interventions are associated with positive or negative outcomes.

Sampling: 45 pregnant/parenting women receiving residential SUD treatment.

Goals:

1. Long-term sobriety

Activities: 90-180 days of residential treatment including weekly individuals and therapeutic and corrective thinking groups; 10-1-hour relapse-prevention groups

Measure: Decrease in return-to-use while in treatment

Target: less than 30% of patients will return-to-use while in treatment

2. Decrease in mental health symptoms

Activities: Weekly individual sessions and therapeutic groups; monthly review/update personal-centered-plan

Measure: Increased positive coping skills and interpersonal/intrapersonal effectiveness

Target: Reduction of symptoms for greater than 50% of patients via self-report at admission and 6-month follow-up

3. Stress importance of physical health for recovery

Activities: Weekly health/wellness group; weekly adult daily living skills; nursing assessment and health history

Measure: Self-reported improved physical health

Target: Improvement for greater than 50% of patients via self-report at admission and 6-month follow-up

4. Increase self-sufficiency via employment

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

Demi Jacobs, LPCC-S, Program Director has been with Chrysalis for 5 years. Demi will oversee the delivery of clinical and recovery support services, monitor fidelity to evidence-based-practices, and provide staff education and supervision.

Kathina Conley, LPCA has been with Chrysalis for 1 year. Kathina administers the initial assessment, develops and updates person-centered plans, conducts individual and group therapy, and facilitates discharge planning.

Jessica Castleberry, LPCC-S, Domestic Violence Therapist and has been with Chrysalis for 3 years. Jessica conducts domestic violence screenings and risk assessments, develops safety plans with patients, conducts Accelerated Resolution Therapy and Seeking Safety groups.

Megan Himes, BSW, Case Manager has been with Chrysalis for 1.5 years. She assists patients with accessing community resources related to medical and dental needs, housing, childcare, legal, educational, financial, and other needs.

Heidi Pafford, RN has been with Chrysalis for 3 years. She completes health histories, provides psycho-education, Health and Wellness groups, and adult daily living skills; and assists patients in accessing and navigating needed health resources.

Cathy Rogers, Job Readiness Coordinator has been with Chrysalis House for 1 year. She conducts job readiness and retention activities including resume building, interviewing skills, professional appearance and demeanor, and conflict resolution in the workplace trainings.

To be determined, 4 FTE residential support staff will supervise and monitor the safety of the patient's 24/7 and provide peer support services.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

Chrysalis is the only licensed long-term residential treatment facility for pregnant and parenting women in Fayette County that provides integrated treatment for substance use and mental health disorders. Chrysalis has over 70 MOUs in place with various community agencies to ensure continuity of care and services that empower women. These MOUs ensure all Chrysalis residents have access to a comprehensive continuum of care and holistic services. Community partners provide primary and acute medical services; medical and non-medical withdrawal management; adult and child psychiatric services with medication management; obstetrical, gynecological, and postpartum care; adult and child psychological services; MAT with counseling; housing services; transportation assistance, employment assistance and educational services; faith-based services; and financial planning, credit repair, and budgeting services. To achieve service coordination and integration, Chrysalis invites partners to regular Continuous Quality Improvement, patient treatment team, and staff meetings. The role of the Chrysalis House governing board is to determine policies, procedures, and regulations for the organization; to assist in securing funds to support the mission of the organization; and to monitor organizational performance. Chrysalis does not have any major civic benefactors or corporate sponsors; however, an endowment fund has been established at Blue Grass Community Foundation so contributions may be made to Chrysalis following their guidelines. Secured funding for our Chrysalis Court pregnant and parenting women program for FY2023 includes: Federal grant funding \$130,000; State funding \$75,000; SNAP benefits \$18,000 and projected Medicaid revenue \$ 485,000.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?

Chrysalis believes everyone has the right to receive services without discrimination based on race, color, age, religion, national origin, domestic/marital status, political affiliation or opinion, veteran's status, physical/mental handicap, or ability to pay. Chrysalis provides culturally and linguistically appropriate treatment and ensures that all communication (verbal and written) reflect the proper literacy level for patients. Patients may use utilize bilingual staff, paid interpreters, or Language Line Services free of charge. Chrysalis has policies that eliminate financial barriers to engage and retain women in treatment, including no admission fee and no charge for services. The target population is especially vulnerable; many reflect generations of SUD, trauma, and experience disparities in accessing and utilizing healthcare. Most are single mothers in poverty, have low educational levels, limited coping skills and are involved with criminal and/or family court. The evidence-based practices chosen help women achieve recovery while building self-esteem and addressing shame, isolation, and inadequacy. Targeted outreach includes the Needle Exchange to provide information on treatment at Chrysalis and conduct the Screening Brief Intervention and Referral to Treatment if requested; Family Court; Sobriety, Treatment and Recovery Team, a specialized DCBS team assigned to women/families at risk of having children removed due to SUD; Fayette County Jail and KY DOC to target incarcerated pregnant/parenting women with SUD preparing for release; and Probation and Parole and Drug Court to serve justice-involved pregnant/parenting women with SUD. Each of these efforts will assist in addressing health access disparities in an under-served population as noted in the Mayor's Commission.

6.0 Program Budget Summary Form Instructions

Proposal Submittal shall be considered incomplete and shall be rejected without completed Budget Summary Form. (Including total amount of ESR grant request for the first year of the cycle, Fiscal Year 2023.)

For organizations requesting funding for more than one program in this RFP, combine into a single Program Budget narrative for the proposal.

Please note that the Program Budget will be part of the grantee agreement with LFUCG and regular tracking and expenditure reporting will be required.

To ensure readability and uniformity, please use the Program Budget form included. Provide brief line-item detail as specified in each section below and verify all calculations.

This section provides a summary of the total proposed Program Budget for FY 2023. It requests the allocation of all projected funding amounts (City and non-City sources) for anticipated FY 2023 program expenditures. The allocation for FY 2024 shall be the same as FY 2023.

Total Program Budget

Column A should reflect projected expenditures for the entire program (not just the proposed LFUCG ESR grant funding request portion). When the chart is completed this column should equal ESR Grant Funding Request plus other/non-ESR program funding. ($A=B+C$)

ESR Grant Funding Request

Column B is the grant amount being requested from this RFP to support this program's services to eligible Fayette County Participants.

Non-LFUCG Program Funding

Column C is the non-LFUCG ESR funding that is allocated to the Total Program Budget ($A-B = C$).

This form is for the budget for the PROGRAM applying for ESR funds, not the total agency budget.

Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Bidders

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

Funding Priority Area: Community Wellness & Safety

Projected funding is \$900,000 of ESR Grant Program – Community Based Initiatives

LFUCG seeks to strengthen and enhance Community Wellness and Safety, by supporting programs and services addressing **Mental Health, Substance Misuse Disorder, and Community Violence Prevention**. LFUCG intends to award grants for priority-rated programs and services which originate with demonstrated client needs, establish clearly-defined outcomes, and are designed to best practices or evidence-based models. These programs may address one or more of the following areas, but shall not be limited to:

- **Substance Misuse Disorder**, which include prevention of alcohol and drug abuse; prevention and treatment of addictive and mental disorders through programs and services for individuals who suffer from these disorders; and harm reduction.
- **Mental Health**, which is defined as a state of well-being in which every individual realizes his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community. Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.
- **Community Violence Prevention**, which includes **Youth Violence Intervention**, including Gang & Gun Violence, Child Abuse & Neglect Services, Sexual Violence Prevention, Elder Abuse Prevention, Suicide Prevention and Intimate Partner Violence Prevention and Stalking.

The term “client” is used throughout this proposal; however we understand that within the context of your work “client” may not mean an individual. For some agencies it may be helpful to think of “client” as whole system (such as a school) or as a neighborhood, group, or community.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement 15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

5.1.2 Service Delivery Model 15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

5.1.3 Client Eligibility and Requirements 5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

5.1.4 Evidence-Based/Best Practice 10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn’t have to be complicated, evaluation is more than saying “we provided this many ‘units of service.’” How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community’s comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor’s Commission on Racial Justice & Equality?
