5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

Vision loss has tremendous and consequential repercussions on a child's development and education. Vision plays a significant role in how a child thinks, explores, learns, moves, and socializes from birth. Infants and toddlers with visual impairments are at risk of falling behind developmentally and academically without early intervention. "Early childhood represents a period of growth that lays the foundation for successful learning, development, and health; disparities emerge early and widen over time (6)" (CDC Grand Rounds: Addressing Health Disparities in Early Childhood. 2017, July 25).

Early intervention helps a child thrive and to be better prepared to enter kindergarten ready to learn. Kindergarten readiness is an important indicator of whether children will succeed in the classroom for years to come. For example, based on data from KySTATS, students in Fayette County Public Schools who entered school ready for kindergarten in 2020 were 51% more likely to achieve test results at or above their grade level on their standardized K-PREP math and reading tests in the 3rd grade (Kentucky Center for Statistics. (n.d.) Kindergarten Readiness and 3rd Grade Measures. Early childhood profile. Retrieved from https://kystats.ky.gov/Reports/Tableau/ECP_2020).

Children with visual impairments are at risk in falling behind developmentally and academically without early intervention. VIPS is the only agency in Fayette County that provides these services to children under 5-years-old. Through early intervention and educational programming, VIPS lays the foundation for academic achievement leading to future economic self-sufficiency and independence in adulthood.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each "unit of service" you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

VIPS' Teachers of the Visually Impaired (TVI), Developmental Interventionists (DI) and Certified Orientation and Mobility Specialists (COMS) use their expertise in vision loss and early childhood development to implement these steps and activities: work 1:1 with the child in his/her home and community, or virtually; educate caregivers of their child's vision loss and its impact on development, education and literacy skills; coach and model techniques to the caregivers for their use in everyday activities (i.e., bath time, mealtime, playtime, etc.) to help their child cultivate and master developmental skills in-between visits; demonstrate adaptations that may be made in the natural environment to increase success; supply assistive technology and optical aides (i.e. iPads, light boxes, magnifiers, switches, etc.); provide caregivers with information, resources, and guidance to help them make informed decisions about their child's next educational setting, such as preschool or kindergarten; and, attend public school Admissions and Release Committee meetings to help develop the child's Individualized Education Plan.

Visits are typically one hour in length, and may occur weekly, bi-monthly and monthly. Over 60% of visits are in-person.

The Early Childhood Intervention Program is an in-home and virtual, early intervention program specializing in teaching children, birth to 3 years, with visual impairments and blindness. The program teaches children skills needed to reach developmental milestones, learn pre-literacy, self-help, and mobility skills. It teaches caregivers ways to help their child learn, to understand the impact of the visual impairment on their child's education, and how to advocate on behalf of their child.

5.1.3 Client Eligibility and Requirements **5 Points**

What are the following criteria: have an established risk condition (i.e., Retinopathy of Prematurity, Optic Nerve Hypoplasia, Corneal Blindness, etc.); are legally blind (i.e., 20/200 with correction); are developmentally delayed in one or more areas (i.e., cognitive, speech & language, fine & gross motor, social-emotional, and self-help); or, if vision loss is suspected and not ruled out by a pediatric ophthalmologist or other professional.

Any child under the age of 3-years-old is eligible to participate in the Early Childhood Intervention program if they meet one of the following criteria: have an established risk condition (i.e., Retinopathy of Prematurity, Optic Nerve Hypoplasia, Corneal Blindness, etc.); are legally blind (i.e., 20/200 with correction); are developmentally delayed in one or more areas (i.e., cognitive, speech & language, fine & gross motor, social-emotional, and self-help); or, if vision loss is suspected and not ruled out by a pediatric ophthalmologist or other professional.

nothing other than participation in services; etc.)

receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; receiving other than participation in services; etc.)

What are the requirements clients must meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

There are no requirements to receiving services from VIPs. It is hoped, though, parents/caregivers will fully participate in the program by implementing the techniques and strategies utilized by the teachers, information and resources. By doing so, they increase their child's success rate in reaching milestones.

5.1.4 Evidence-Based/Best Practice **10 Points**

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

Early intervention is an evidence-based practice that enhances learning and development for young children. The Consultative Model is used within the framework of early intervention services for children who are blind and visually impaired. With this best practice model the caregiver works collaboratively with the VIPs teacher to identify the child's developmental goals, and the need to incorporate strategies to use to meet those goals. This model empowers caregivers by giving them the tools they need to implementation of strategies to improve their child's development in between visits from the teacher. Caregivers consistently, regularly application of the strategies throughout their day increases their child's ability to reach his/her goals. It is the model currently being used by the Kentucky Early Intervention Systems state-wide program, First Steps.

Another best practice that VIPs utilizes when providing early intervention services, is the Expanded Core Curriculum (ECC). The ECC includes skills that students with blindness/visual impairments must also learn in addition to their general education. The ECC is inclusive of assistive technology, career education, compensatory skills, independent living skills, orientation & mobility, recreation & leisure, self-determination, sensory efficiency, and social interaction skills.

Last year, VIPs received thecoveted Association for Education and Rehabilitation of the Blind and Visually Impaired (AER) accreditation for its Early Childhood Intervention program, Kids Town Preschool, Therapeutic Services, Orientation & Mobility, and Accreditation for its Early Childhood Intervention division is outcomes-based.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define "successful" completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

VIPS hopes every child in the program will achieve and master their developmental milestones (i.e., cognitive, language/communication, movement/physical, social/emotional). Examples of developmental goals include an infant reaching and grasping an object. Through this action, the infant gathers and integrates the information from her senses to learn the skills needed to sit up, crawl, balance, and walk independently. Another example would be an eighteen-month-old child with a cognitive goal to understand and demonstrate the concept of up/down by moving her/himself or an object (i.e., "raise your hand" or "put the spoon down"). VIPS' TVIs and DIs teach simple, age-appropriate academics, pre-literacy skills, and independence. A child who is blind is capable of doing the same things as a child with sight but may have to learn how to do them differently.

VIPS' philosophy is that parents are their child's first and best teachers. VIPS teachers give them the tools they need, but ultimately, the parents help their child reach his/her goals. The program is designed to teach parents about their child's specific visual impairment and how it impacts learning. They are taught techniques to integrate into their daily routines. As a result, children are more likely to cultivate and master developmental milestones, self-help skills, and age-appropriate academics through consistency and repetition.

Success is defined as a child making "good" to "significant" progress toward their developmental goals outlined on their Individualized Family Service Plan (IFSP). Last fiscal year, 70% of Fayette County children were successful in their progression toward their goals.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

The program improves educational access for children with visual impairments by providing them with the base for learning which can be built upon throughout their lifetime. Without early intervention, a child with blindness is vulnerable to falling behind developmentally, socially, and academically. Through the accomplishments of reaching developmental and academic goals, understanding how to interact with others, and exploring their environment children who are blind/visually impaired will gain knowledge, communication and interaction skills, independence and increased self-esteem. They will be better prepared to enter preschool/kindergarten ready to learn and thrive. "The emotional and physical health, social skills, and cognitive-linguistic capacities that emerge in the early years are all important prerequisites for success in school and later in the workplace and community" (Center on the Developing Child, 2007). The foundation for learning builds into a lifetime of independence, learning, and self-sufficiency within the community. It allows the child to participate more fully in his/her academic career plan, and later, in the career of choice. For a child who is visually impaired or blind, these early years are especially crucial in determining the trajectory of their lives as an adult.

This program makes a meaningful difference in the lives of the caregivers, too. They receive guidance, knowledge, and resources to aid them in teaching their child with blindness. They understand their child is more than capable of learning despite a loss of vision. They see their child's true potential and bright future.

<p>5.3 Capacity & Sustainability</p> <p>5 Points</p> <p>VIPS also measures parental/caregiver knowledge of their child's vision and its impact on their child's development and caregiver knowledge and implementation of learned strategies, VIPS collects data from an annual parent survey. Describe the experience, expertise, and capacity of each individual to address the proposed activities.</p>

<p>5.2.3 Data Assessment & Quality Improvement</p> <p>10 Points</p> <p>VIPS evaluates the effectiveness of the Early Childhood Intervention Program by measuring the progress each child has made toward his/her personal goals every six months of service. Evaluation includes assessment tools, observation, professional judgment, and progress reports. An example of an assessment tool is the Oregon Project. The Oregon Project is designed specifically for children, birth to 6, who are blind and visually impaired to assess areas of development such as cognitive, language, comprehension, vision, self-help, social, fine motor, and gross motor skills. VIPS teachers use the Oregon Project in their initial, ongoing, and exit assessment of children in the program. However, 75-80% of children with visual impairment also experience other challenges (i.e., Prematurity, Cerebral Palsy, severe head trauma, Down syndrome, etc.) that may hinder their ability to meet their goals. VIPS teachers take into consideration these other challenges when determining if a child has made "Significant", "Good to Average", or "Little to No" progress toward goals. To be deemed effective, VIPS expects 80% of all the children in the program to have made "Good" to "Significant" progress in achieving their goals. Changes are made to a child's IFS if little progress has been made in six months.</p> <p>To evaluate knowledge and implementation of learned strategies, VIPS collects data from an annual parent survey. 5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

VIPS' programs and services support our community's comprehensive response to the Childhood & Youth Development priority in the areas of Kindergarten readiness, parental/caregiver/kinship resources and supports, and affordable access to early care & education for children under 5 years of age. VIPS is the only agency providing regular and ongoing early intervention and educational programming to children, birth to 5, who are blind/visually impaired in Kentucky. That being said, VIPS' Early Childhood Intervention program does collaborate with other service providers in the state-wide program, First Steps. These service providers include physical therapists, speech-language pathologists, dieticians/nutritionists, occupational therapists, psychologists, and assistive technology experts. Working with the caregivers as a team, VIPS and these other service providers are better able to help children develop, grow, and learn while empowering caregivers with knowledge, resources, and supports. Through the efforts of the team, children are better prepared to enter kindergarten. VIPS does not charge a fee for the Early Childhood Intervention program making it affordable and accessible to all children under 5.

VIPS' Governing Board Members oversee the service delivery and program administration of all VIPS programs and services. The Early Childhood Intervention program does not have major civic benefactors or corporate sponsors. VIPS has already secured supplemental funding for this program for the next fiscal year through fundraising events, donors, grants, and the Commonwealth of Kentucky. VIPS is compensated for services rendered at a rate of \$89/hour by the First Steps program. Unfortunately, the cost for one hour of VIPS' services is \$250.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?

Loss of vision is no respecter of persons and affects children of all racial, ethnic, disability, and socioeconomic statuses. Up to 75% of children with vision loss also have a dual diagnosis or disability. Therefore, VIPS is determined that services are available and accessible to all children with visual impairments. Only two general criteria should be met before services may begin – the child is under the age of 5-years-old, and the child has either a visual diagnosis or a visual diagnosis that is suspected but has not been ruled out.

Making visits accessible to all children is a priority. Teachers try to accommodate the families' needs during the scheduling process and may meet with them at any time of the day, evening, and occasionally, on the weekend. Visits occur at the child's home or wherever the family chooses in the community. Because the program is at no cost to the families, all children are able to participate without a financial burden.

As language barriers are encountered, the teachers use the interpretation services offered through the First Steps program to communicate with the family.

It is the standard operating procedure of VIPS to provide equal opportunities to all children who are blind/visually impaired for them to reach their highest potential. No child will ever be denied services due to race, ethnicity, disability, language, or socioeconomic status. VIPS provides high-quality education and early intervention to all children with visual impairments; thus supporting the Mayor's Commission on Racial Justice & Equality.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:
The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.
- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:
The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Bidders

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

The funded project will be required to submit regular progress reports demonstrating progress toward outcomes established in the proposal and associated funding agreement. Successful applicants shall be contacted to negotiate a funding agreement with expectations that an award be in place for the execution of a funding agreement and grantees will not be reimbursed for pre-expended prior to the execution of a funding agreement and grants may be awarded costs.

Funding Priority Area: Childhood and Youth Development

Projected funding is \$650,000 of ESR Grant Program – Community Based Initiatives

LFUCG seeks to strengthen and enhance **Childhood and Youth Development** by supporting programs and services for early childhood through teenage populations (birth through 18 years old). These programs shall consist of an intentional, pro-social approach that engages youth within their communities, schools, organizations, peer groups, and families in a manner that is productive and constructive; recognizes, utilizes, and enhances youths' strengths; and promotes positive outcomes for young people by providing opportunities, fostering healthy relationships and supporting positive leadership.

These programs may address one or more of the following areas, but shall not be limited to:

- Affordable access to early care & education for children under 5 years of age

- Addressing student learning loss (*specifically kindergarten through 12th grade*)

The term "client" is used throughout this proposal; however we understand that within the context of your work "client" may not mean an individual. For some agencies it may be helpful to think of "client" as whole system (such as a school) or as a neighborhood, group, or community.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each "unit of service" you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

5.1 Evidence-Based/Best Practice

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

10 Points

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define "successful" completion of services. (e.g., service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

10 Points

5.2.2 Client Empowerment & Community Impact

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g., client demonstrates change in attitude; client has behavior change; etc.)

10 Points

5.2 Data Assessment & Quality Improvement

While it doesn't have to be complicated, evaluation is more than saying "we provided this many units of service." How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific and also be specific regarding sampling size and frequency of evaluation.

10 Points

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

5 Points

5.3.2 Partnership & Resource Leverage

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationships with other local service programs?

5 Points

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?
