5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

Kentucky has about 10,000 children in foster care. According to the 2021 TWIST report, current statistics of at-risk children in care; under 1 yr of age- 21%, 1-3 yrs of age- 14%, 3-6 years of age- 16%, 6-12 years of age- 26%, 12-18 years of age- 23%. The Education Advancement program assists foster children K-12, ages 6-18. Children placed in foster care, kinship care (relative) or fictive care (friend) testing below grade level qualify for this program regardless of race, income level or disabilities. The Foster Care Council collaborates with Fayette County Family Court Judges, the Cabinet for Health and Family Services, CASA of the Bluegrass, seven foster placement agencies and Family Resource Directors in our local schools to identify students in need. National research states, 84% of foster children test two grade levels behind when entering care and 55% do not graduate high school. A child removed from his home is placed in the first available foster home, 70% of the time, in a different school district. A child forced into an unfamiliar environment, new school, new teachers, and new curriculum can lead to added trauma and poor school performance. Many students do not qualify for Individual Education Plan's, if they do, transferring the documents to the new school in a timely manner, or at all, is rare, resulting in the student falling further behind. The state does not provide funding for academic assistance. The FCC is the only organization that provides this resource at no cost. Family Court Judges have personally referred kids on their case load to our program because of the desperate need for such resource. Foster Care Council tutors work with the students until grade level is achieved. If the student is removed from the current foster home, the tutor will continue or another tutor in their area will begin working with the individual.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each "unit of service" you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

Case managers provide direct oversight of a child placed in states care therefore, they contact the FCC when assistance is needed. School Resource Directors can contact our organization as well. Each student receives up to three hours of tutoring per week for approximately 24 weeks or until grade level is achieved. The first goal for the tutor, is to communicate with the teacher regarding the possibility of turning in and/or re-doing missed homework assignments for full or partial credit. Also, to confirm homework due dates and upcoming exams. The second goal is to follow the pre-test results and begin working on the students current level while assisting with homework/exams. Goals throughout tutoring is to keep the student on task, current in class assignments and testing on grade level in a 24 week time frame. At the end of this period, the student is post-tested to determine if grade level is achieved. If not, the student will be approved for additional help until this goal is met. If the child is removed from the current foster home and placed in another, the tutor will follow and continue the service or another tutor in that area is hired. One-on-one tutoring allows the student to ask questions and not feel judged or embarrassed. This resource has proven to be desperately needed especially while intermittent virtual learning is being conducted in the schools. Family Court Judges have personally referred kids on their case load to receive this resource.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

The clients of the program must be in the Fayette County foster care system, in grade k-12. The participants and the foster parents are expected to commit to one to three hours of tutoring per week. Due to court ordered appointments (biological visits, therapy sessions, Dr. appts etc) three hours a week may be difficult to achieve, but sessions can be re-scheduled if needed. Expectations and responsibilities are explained to the foster parents and the student at the start of tutoring so everyone involved is in agreement of the desired outcome, testing on grade level. Each student completes a pre-test to determine the current level of performance and a post-test after 24 weeks of tutoring to determine the progression of the tutoring and if the student is testing on grade level. Individuals learn at different frequencies, therefore the FCC will work with the student until grade level is achieved. Sometimes, that may be one to two years of assistance.

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

The program is based on an existing program of 20+ years, based out of Naples, Florida. Cassie Slone, Executive Director was a board member and the Education Training Coordinator for this program and organization for six years. When she moved back to Kentucky and realized no other organization in Kentucky provided this service, she decided to start this organization.

The Tutoring Club, a local accredited testing agency administers the pre and post exams to each participant. This agency uses the state approved CAT-5 exam to test participants. The exams also assist in measuring the success of the program. At the end of each quarter, if more than 50% of the post-tests identify students are not testing on grade level, changes are discussed (between lead tutor and executive director) and implemented to ensure success. Examples for changes could be the tutor conducting more intermittent, informal tests to the student to identify any disconnects.

A success story for this program is about a student named Lauren. She came into the program testing three levels behind, with no thoughts of ever graduating high school. After more than two years of tutoring, she graduated high school, received a scholarship to Pikeville University and has graduated with a degree in Education. Lauren is now working as a teacher in Frankfort and is a tutor for the FCC. She has spoken at several of our fundraising events stating that if it weren't for the one-on-one tutoring by the FCC she would not have graduated, or even realized the importance of an education.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define "successful" completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

The main goal of the program is for each student to test on grade level after 24 weeks of assistance. Providing this opportunity for the student, increases their chances of graduation and continuing to a higher level of education (college, trade/technical school). The second goal of the program is time management, teaching the student the importance of completing and turning in assigned homework on time, as well as assisting the student in completing missed assignments for partial or full credit. The third goal of the program is to open a line of communication between all those involved in the child's life (foster parent, teacher, tutor, caseworker). Communication and consistency are key to the student's success. Since the program's inception, 10 years ago, the completion rate of the program is 80%. 20% either return to their biological families and the case is closed or have high level behavioral issues and are referred to alternative assistance (this is discussed with the caseworker and determined by that agency). Following/completing these goals and objectives is our definition of successful. Lauren and many other students like Lauren have proven this program to be successful by graduating and continuing to higher educations or obtaining a state approved apprenticeship with local companies through our Mentoring program. The FCC partners with the Kentucky Career Center to help graduated youths receive apprenticeships in the field of their choice, creating a secure future for youths that do not wish to go to college.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

By providing individual academic assistance to this often-forgotten population of children, self-confidence, success inside and out of the classroom as well as an increase in a student's overall attitude and behavior has been the result. Academic success provides a greater opportunity for graduation, increases likelihood of a higher education, helps one become economically self-sufficient and ultimately decrease chances of becoming a statistic. We strive to help struggling individuals become strong, healthy adults. We go the extra mile to achieve this outcome. Lauren, introduced in the efficacy section, has attested at our events, in front of hundreds of people, about the empowerment of succeeding in the classroom. She experienced firsthand how this program can change the trajectory of one's life. She has adamantly spoken that she "hated school, would sleep in class because I was so far behind, never thought I would graduate and absolutely didn't think I was smart enough for college." Now, she is an elementary teacher and a tutor for the FCC.

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

Administering pre and post-tests by a local accredited testing agency helps identify the efficacy of the program for each student. Each students tutoring curriculum is based around their strengths and weaknesses defined by these exams. Students learn at different levels and frequency, therefore if the post-test indicates the student is not testing on grade level after 24 weeks of assistance, additional hours will be approved. This testing method helps identify when an individual's tutoring plan needs to be adjusted. Occasionally, tutors have worked with students for a period of two years, proving the FCC will go the extra mile for each student until success in the classroom is achieved. Intermittent tutoring is offered when needed to students testing on grade level after the 24-week period. At the end of each quarter the Executive Director and lead tutor meet to determine the percentage of students not testing on grade level. If 50% of the students in the program, during that quarter are not testing on grade level, changes to the program are discussed. For example, additional tutoring time, increased testing (by tutor) during the 24 week period and communication with the student and teacher to determine options that will help with the students progression. Tutor logs are filled out after each session detailing the information covered during that hour. The logs are emailed to the Executive Director and reviewed quarterly to determine efficiency of individual curriculums. Surveys completed by the foster parent and student help when evaluating the program.

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

The Foster Care Council employs tutors as independent contractors. Tutor qualifications consist of individuals currently working or retired from the school system. The person can be a teacher, teachers aid or a para-professional in the school. An independent background check is conducted on each tutor before working with the student. The Executive Director, Cassie Slone, founded The Foster Care Council in 2012. She developed this organization after serving on a similar Board of Directors in Naples, FL and holding the position of Education Training Coordinator for six years. She evaluates the progress of each student and effectiveness of tutor/student goals on a quarterly basis by reviewing tutor logs submitted by each tutor.

Lead Tutor, Jeanette Giray, works as a tutor and also conducts quarterly evaluations of the program with Cassie Slone. This helps ensure the continued success of the programs. Ms. Giray has worked as a teacher for over 20 years.

Test Administrator, Larry Boss, owner of the Tutoring Club administers the pre and post-tests. Results are emailed to Mrs. Slone and stored in the FCC database. Mr. Boss has administered exams and worked in the Education field for over 20 years.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

The FCC tutoring typically coincides with other academic services the student may be currently receiving. If the child has been approved for an Independent Education Plan in the school, the tutor then communicates with the paraprofessional to reinforce the curriculum being taught.

The Education Advancement program identifies the community's response to Childhood and Youth Development by providing individuals with knowledge and life skills. If the student would like a mentor to help with life skills, one will be appointed to them or the tutor can double as a mentor as well as the students tutor. A relationship and trust is typically built between the student and tutor, therefore mentoring is a successful tool between the two. An educated individual has more life options and tends to make better educated choices. For example, a student succeeding in school is less likely to hang out after school with kids doing drugs or get into mischief. An educated individual will more likely become a productive citizen in our community. We understand that just because someone is educated doesn't mean they won't get into mischief or make wrong decisions, but they are less likely to display this type of behavior.

The FCC works closely with DCBS, CASA, Family Court Judges, seven local foster placement agencies and school Resource Directors to obtain students in need of assistance. The FCC partners with The Tutoring Club, a local accredited testing agency, to have pre and post-tests administered. The Vice President of the Board leads two annual fundraising events, other board members play an active role in building our Champions for Children annual campaign and securing sponsors for fundraisers. Several board members play a key role in securing grant approvals from Toyota, Carl Family Foundation and Bluegrass Community Foundation. The organization has several corporate sponsors that help with the cost and continuation of each program, allowing more struggling students to receive this resource.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?

The tutoring services are accessible and available to any student in the foster care system needing assistance regardless of language barriers, physical disabilities and income level. Language barriers are met by hiring specific tutors that can work with non-english speaking students. Physical disabilities do not hinder a student from receiving tutoring because it is conducted in the home. Income level does not effect the service because it is offered at no cost to the family. This program coincides with the Mayor's Commission on Racial Justice & Equality because tutoring is offered to any student in the foster care system needing assistance.

Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.
- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

1.1 **Background**

Each fiscal year the Mayor and Urban County Council allocate funds for use by selected 501(c)(3) non-profit partner agencies through the Department of Social Services' Extended Social Resource (ESR) Program.

The term “client” is used throughout this proposal; however we understand that within the context of your work “client” may not mean an individual. For some agencies it may be helpful to think of “client” as whole system (such as a school) or as a neighborhood, group, or community.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn’t have to be complicated, evaluation is more than saying “we provided this many ‘units of service.’” How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community’s comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?
