Request

The purpose of this memorandum is to request approval of an FY27 (Class A Neighborhood) Stormwater Quality Projects Incentive Grant for Harrods Park Townhouse Association, Inc., in the amount of $12,000.00.

Purpose of Request

The goal of the Harrods Park Townhouse Association (HPTA) Feasibility Study is to identify potential Best Management Practices (BMPs) to identify the most effective and sustainable solutions to improve water quality by repairing or upgrading existing stormwater infrastructure in the HPTA community along Spring Meadow Drive. By targeting areas where runoff currently carries debris and potential contaminants into the stormwater system, the project will lay the groundwork for long-term improvements that reduce pollutant loading to Wolf Run Creek. The project also incorporates community education and engagement, encouraging residents to participate in pollution prevention and monitoring efforts.

Project Cost in FY27 and in Future Budget Years

The grant has been approved for FY 2027 funding by the Water Quality Fees Board in the amount of $12,000.00.
